

## Distribution Products, continued

**Performance tackable acoustical skins and tackable acoustical skins** can be cut in the field to allow access to duplex receptacles, USB receptacles, and communication outlets. Order cutting templates through Service Parts (T500940SR). Steel skins do not have cutouts and cannot accommodate receptacles. Install power receptacles and communication ports in the panel base cover below the steel skin or use a technology skin.

**Knockouts and cut-outs** for receptacles in the panel base trim and skins are always 10 $\frac{5}{8}$ " from the outside edges of the panel. Knockouts for communication in base accommodate modular furniture size only.

**Filler** to close unwanted openings in base trim is available from Service Parts.

**Wire separators** are not required. All electrical harnesses are shielded.

**Local electrical codes vary.** Consult a qualified electrical contractor or engineer for the proper installation of all electrical components.

**Chicago and New York** have special requirements.  
► Pages 185 and 192

## Modular Harness

► Specifying, page 533

## Product Details

**Modular harnesses** are available to connect powerkits at different heights. Available in 43" and 80" lengths.

**Extra length modular harness** is required when connecting two power kits located at different heights inside the panel in a corner or in-line application.

**In an in-line application extra length modular harness** is not required when a powerkit is in the bottom (not base) location in a panel with open base.

**In a corner application extra length modular harness** is required when a powerkit is in the bottom (not base) location in a panel with open base trim. In this circumstance, the modular harness will need to be routed through the first large opening in the junction located above the powerkit. The modular harness cannot be routed through the foot area of the panel due to the open base trim.

**Harnesses** plug into connection points on the powerkit. Every powerkit has multiple connection points to allow branching of power.

**Modular harness** may be specified in a non-PVC version.

**T-connection** is formed by connecting two harnesses to a power block.

**X-connection** is formed by connecting two harnesses to two successive power blocks.

**Modular harness** may be specified in a non-PVC version. For those trying to gain the LEED Innovation in Design credit, non-PVC should be selected.

**Multipurpose Power Infeed**

► Specifying, page 532

**Product Details**

**Multipurpose power infeed** is shielded to allow power and communication routing side by side. Available in 6', 12', and 24' lengths.

**Multipurpose power infeeds** bring power into the panel and make a modular connection to a powerkit.

**Multipurpose power infeeds** can be used with ceiling- and floor-access lay-in utility packages and utility poles. Specify power harness separately.

**Multipurpose power infeeds** may be specified in a non-PVC version. For those trying to gain the LEED Innovation in Design credit, non-PVC should be selected.

**Modular Junction Box Faceplate**

Straight/  
Flush

90°

► Specifying, page 528

**Product Details**

**Modular junction box faceplate** can be ordered separately and used with any modular harness length when 6', 12', and 24' lengths are not appropriate. Straight/flush and 90° faceplates are available. Non-PVC is standard. PVC version can be optioned.

**Connections**

**Faceplate** is attached to junction box with screws. Hardwire connection to power source with conventional 4<sup>11/16</sup>" x 4<sup>11/16</sup>" junction box is completed by electrician in the field. Modular extension harness can be connected or disconnected from faceplate as needed.

# Special Requirements for Hardwired Solution

**Chicago electrical code** requires the power distribution network to be hardwired on site. These installations require hardwired powerkits.

► Specifying, page 531

*Tip: Any hardwired installation can use the components of the hardwired powerkit.*

**Order** panel without power and order a hardwired powerkit of the corresponding width.

► Page 531

**Power tray** is included in hardwired powerkit to secure junction boxes and to attach to panel frame.

**When power is placed** in a non-base application, skins must be field-cut. Technology skins cannot be used with hardwired solution.

*Tip: Hardwire powerkit applications in the base location require a hardwire base trim for correct alignment of power and data receptacles.*

**Receptacle openings** are knocked out in the field.

**Junction boxes** are included in hardwired powerkit.

**Receptacles** are supplied by the electrician.

**Conduits** are supplied by the electrician.

## Connections

**Powerkit** can be installed in panel base or at 12" vertical increments.

**Junction boxes** are typically mounted below the power tray; however, they can be mounted above when power is routed in a location other than the panel base. A bracket is included for mounting junction boxes above the powertray.

**When using a hardwired solution with segmented skins**, you may need to install junction boxes above the power tray to avoid interference with the steel frame of the skin. Approximately 3" of clearance is required when mounting junction boxes above the power tray. Keep in mind the upper horizontal connecting bar location to ensure enough space for mounting junction boxes above.

*Tip: Don't forget to discuss junction box location and skin configuration prior to electrician installing the power.*

## Number of Junction Boxes is Determined by Panel Width

| Panel width | Junction boxes |
|-------------|----------------|
| 24"         | 1              |
| 30"         | 2              |
| 36"         | 2              |
| 42"         | 2              |
| 48"         | 2              |
| 60"         | 2              |
| 72"         | 2              |

## Wiring & Cabling

**Junction box** can accommodate two receptacles back to back. Electrician can use Leviton 5325 or equivalent receptacles.

**Order Chicago-version of shelf lights.** These lights have a built-in circuit breaker.

## Duplex Receptacles

► Specifying, page 523

## Product Details

**15-amp or 20-amp receptacles**, ordered separately, snap into both faces of power block in the field.

**Orange triangle** indicates to users the receptacles that are connected to isolated grounds.

**Controlled receptacle** must be indicated when tying into the building management system. Duplex receptacles have an option for a factory permanent, pad stamp power icon symbol with the word controlled per compliance with the Energy Code.

**For power access in steel skins**, specify **TS7RC** receptacles and **TS7RCT** trim rings for each cutout.

## Surface Materials

## Duplex receptacle

- 6000 Black
- 6009 Arctic White
- 6249 Platinum Solid
- 6651 Tungsten
- 6652 Titanium
- 6654 Sand
- 6697 Fog
- 6B03 Red

## USB Receptacles

► Specifying, page 525

## Product Details

**USB receptacles**, ordered separately, snap into both faces of power block in the field.

**USB receptacles** are type USB-A.

**USB receptacles**, are available in three wiring schematics with multiple line options. USB receptacles offer easy access to two charging ports. Each port provides one ampere of output. USB receptacles conveniently charge a wide range of electronic devices. Some devices may not be compatible.

**For USB power access in steel skins**, specify **TS7USB** receptacles and **TS7RCT** trim rings for each cutout.

## Surface Materials

## USB receptacle

- 6000 Black
- 6009 Arctic White
- 6249 Platinum Solid
- 6651 Tungsten
- 6652 Titanium
- 6654 Sand
- 6697 Fog
- 6B03 Red

## Faceplate

► Specifying, page 526

## Product Details

**Faceplate**, ordered separately, is used to surround receptacle when skin is field-cut. Templates for field cutting are available through Service Parts (T500940SR).

**Faceplate** is used to surround modular furniture size communication or DECORA outlets when installed in the face of a tackable acoustical panel skin. Templates for field cutting are available through Service Parts (T500940SR).

**NEMA-size communication outlets** (single gang) do not require a Steelcase faceplate. Cannot be used in base.

## Surface Materials

## Faceplate

- 6000 Black
- 6009 Arctic White
- 6249 Platinum Solid
- 6651 Tungsten
- 6652 Titanium
- 6654 Sand
- 6697 Fog

## Access Products, continued

## Receptacle Trim Ring

► Specifying, page 527

## Product Details

**Receptacle trim ring** is used with each receptacle, receptacle cut-out cover, or USB on a steel skin to cover the edge of the cut-out and create a precise transition between the cut-out and the receptacle.

**Trim ring** will only work on receptacle **TS7RC**, **TS7USB**, and **TS7BCC**.

**Only specify** when using power cutouts in steel skins.

## Surface Materials

## Receptacle Trim Ring

- 6000 Black
- 6009 Arctic White
- 6249 Platinum Solid
- 6527 Merle
- 6654 Sand
- 6697 Fog

## Receptacle Filler

► Specifying, page 527

## Product Details

**Receptacle fillers** are available to fill unused receptacle openings in steel skins. They are offered in packages of 20.

## Surface Materials

## Receptacle Filler

- 6000 Black
- 6009 Arctic White
- 6249 Platinum Solid
- 6527 Merle
- 6654 Sand
- 6697 Fog

## Data Filler

► Specifying, page 527

## Product Details

**Data fillers** are available to fill unused furniture style data openings in steel skins. They are offered in packages of 20.

## Surface Materials

## Data Filler

- 6000 Black
- 6009 Arctic White
- 6249 Platinum Solid
- 6527 Merle
- 6654 Sand
- 6697 Fog

**Junction Tall Sleeve**

► Specifying, page 534

**Product Details**

**Junction tall sleeve** can be added to vertical junctions to cover the exposed metal edges in the large cable routing openings of junctions manufactured on or after October 10, 2011.

**Junction tall sleeves** are ordered separate from vertical junctions and are available in packages of 10.

**Surface Materials**

- Red plastic only

**Lay-In Junction Cable Sleeve**

► Specifying, page 534

**Product Details**

**Lay-in junction cable sleeves** can be added in the field to cover the exposed metal edges in lay-in cable space.

**Surface Materials**

**Lay-in junction cable sleeve**

- Black plastic only

**Feed-Through Horizontal Cable Sleeve**

► Specifying, page 534

**Product Details**

**Feed-through horizontal connecting bar cable sleeves** can be added in the field to finish the exposed metal edges of vertical cable pass-through openings.

**Surface Materials**

**Feed-through horizontal cable sleeve**

- Black plastic only

**Grommet for Horizontal Bar and Junctions (manufactured prior to October 2011) and Horizontal Bars**

► Specifying, page 535

**Product Details**

**Grommet for horizontal bar and junctions** can be added in the field to finish the exposed metal edges of cable pass-through openings. For cable sleeves used with junctions manufactured after October 2011, use junction tall sleeve (TS7JTSLVE).

**Grommets** can also be used with power trays or cable trays.

**Surface Materials**

- Black plastic only

**Grommet for Junction**

► Specifying, page 535

**Product Details**

**Grommet for junction** can be added in the field to finish the exposed metal edges of horizontal cable pass-through openings.

**Surface Materials**

- Black plastic only

**Duplex Cable Grommet**

► Specifying, page 536

**Product Details**

**Cable grommets** can be inserted in receptacle openings to route cables from the panel base into the panel.

**Surface Materials**

- Black plastic only

# Worksurface Positioning

## Universal Worksurfaces

Universal Worksurfaces is a comprehensive solution of worksurfaces, supports, and privacy screens designed to deliver flexibility, mobility, and options to create inspiring spaces that support the different ways people work. A beautiful, light-scale aesthetic which gives designers new solutions across a broad spectrum of applications including the following: traditional panel-mounted systems, freestanding light-scale deskings, panel wrapped deskings, private office, conference, and teaming. Consists of Universal Systems Worksurfaces, U-Free Desks and Universal Tables.

## Universal Systems Worksurfaces

Main worksurface solution for the four primary space division products: Answer, Montage, and Kick. Worksurfaces can be panel-mounted or freestanding.

- Extensive shape and size offering allows designers to meet a variety of planning applications.
- Worksurfaces feature a choice of curvilinear or straight-front shapes.
- User front edge available in choice of 3 mm edge or ergonomic P-edge.
- Available with 1/2" cord drop in the back of the worksurface providing the most efficient routing of cords and an uncluttered desktop.
- Also available full depth, providing an uninterrupted working surface that fits flush to the panel and allows L-configuration planning.
- Standard scallops allow large cord heads to easily pass below the desktop. Scallops can be eliminated for freestanding applications.
- Available with full offering of Steelcase High-Pressure Laminates or veneers; specifiable 3 mm edge or P-edge colors.
- Worksurfaces can be supported with cantilevers, center support panels, end panels, pedestals, legs, or desk supports.
- Straight worksurface available to specify parametrically from 18"D to 36"D and from 18"W to 120"W in 1/16" increments.

## Answer Freestanding Desks

Main desk solution for use with the four primary space division products: Answer, Montage, and Kick. Desks are built up from Universal components ordered separately and assembled onsite.

- Flexible product offering allows a wide range of desk applications for private offices, reception areas, and open plan settings.
- Non-handed desk components are easy to assemble and easy to reconfigure.
- Compatible with a wide range of worksurface products, including Universal Systems Worksurfaces, and many others.
- Wide range of storage available, including universal pedestals, lateral files, and hutches.
- Full-height and half-height modesty panels available for desks and peninsulas.
- Visually compatible with Universal tables, towers, and other products.

## Universal Tables

Versatile freestanding tables appropriate for teaming and conferencing environments or for individual work areas. Tables can be fixed or mobile for increased flexibility or ease of reconfiguration. They can also be tethered to Post and Beam in non-traditional applications.

- High-Pressure Laminate tables are available with a 3 mm edge or P-edge. Wood veneer tables are available with a square (3 mm) edge.
- User edge on all sides of the tables and rounded corners allow a user to work on any side.
- Wide range of sizes and shapes available, from small personal tables to large conference tables.
- Available with full offering of Steelcase High-Pressure Laminates or veneers; specifiable 3 mm edge or P-edge colors.
- T and X bases, post legs, C-leg, elliptical legs, adjustable-height legs, and cabby legs give designers many functional and aesthetic options.

## Elective Elements Worksurfaces

(See Elective Elements Specification Guide.)

Main worksurface solution for three primary space division products: Answer and Montage. Worksurfaces can be panel-mounted or built up into casegood solutions appropriate for private office solutions when combined with storage, end panels, and modesty panels.

- Extensive shape and size offering allows designers to meet a variety of planning applications.
- Worksurfaces feature a choice of curvilinear or straight-front shapes.
- Desk, bridge, return, peninsula, and desk return worksurfaces are also available for freestanding casegood applications in addition to the typical systems worksurface shapes.
- User-front edge is available in a choice of 3 mm plastic edges, wood edge profiles on laminate worksurfaces (square 5 mm, bullnose), or wood edge profiles on wood worksurfaces (3 mm square, bullnose, waterfall, or knife).
- Worksurfaces are depths 24" or 30".
- Scallops are optional, as well as round or square grommets, depending on power and cable management needs. Grommets are available, depending on the worksurface shape, typically in left, center, and right locations.
- Grommets must be used for worksurface cable or cord management to route cords below the desk top.
- Scallops are used for task light cord management only.
- Available with full offering of Steelcase laminates or veneers. Also available with Customiz stain or open line laminates.
- Worksurfaces can be supported with Elective Elements supports (center support panels, end panels, under-worksurface storage, or freestanding legs) as well as Universal cantilevers and side support brackets.
- Height adjustability is achievable by using the height-adjustable storage and/or legs. Range of maintenance adjustability is 29"H–32"H in 1/2" increments.

# Panel-Mounted Worksurface Supports Integration Matrix

This matrix shows recommended panel-mounted supports for specific panel and worksurface combinations.

Refer to the appropriate Solutions Specification Guide (Answer or Montage) for detailed information.

Tip: Alignment tabs will need to be knocked down when full-depth worksurfaces are used.

# Worksurface Support Guidelines

**Worksurface spans greater than 54"** require a brace or additional support to the floor. Spans greater than 72" wide cannot be supported only by a reinforcing channel, and require additional supports to the floor. Calculate span distance by measuring from edge of one end of worksurface to edge of other end of worksurface.

*Exception: When using pedestals or lateral files to support a worksurface, measure from the inside edge of the storage unit.*

**Worksurfaces** can span up to 60" in heavy load applications and up to 72" in light load applications if a reinforcing channel is used. A light load application is less than 40 pounds placed on a worksurface. Reinforcing channel must be specified separately.

► Page 589

*Exception: Knife edge worksurfaces require support on spans greater than 48"W.*

**Reinforcing channel** is not required on worksurfaces with spans less than 54"W.

**Lightly loaded applications** typically include a workstation with monitors, lighting, limited organizational tools, and personal items.

**Reinforcing channel or additional support** is required for worksurfaces with spans greater than 54"W and less than 72"W in light use applications and on worksurfaces with spans greater than 54"W and less than 60"W in heavy load applications.

**Worksurface span** cannot be supported solely by a reinforcing channel. Additional to the floor supports are required.

*Tip: Reinforcing channels add 1"D below the worksurface.*

*Tip: For maximum effectiveness, place the reinforcing channel in the middle of the worksurface span.*

**Calculate span distance** by measuring from edge of one end of worksurface to edge of other end of worksurface. To determine size of reinforcing channel needed, deduct the amount listed in the matrix below from the measured span. Deduction in inches is based on combination of the left-hand and right-hand supports.

Example: 72"W measured span, with application of cantilever for left-hand support and end panel for right-hand support, has a span deduction of 6" for a reinforcing channel size of 66" ( $72" - 6" = 66"$ ). For this application, use reinforcing channel TS7WKSPT66.

| Worksurface Span Deductions<br>for Determining Reinforcing<br>Channel Size |                                   | Right-Hand Support |                 |                                      |                         |                 |            |                            |

|                                                                            | Cantilever                        | -6"                | -6"             | -9"                                  | -9"                     | -6"             | -6"        | -6"                        |
|                                                                            | All other Legs/Supports           | -6"                | -6"             | -9"                                  | -9"                     | -6"             | -6"        | -6"                        |

| Reinforcing Channel Sizes |         |          |
|---------------------------|---------|----------|
| Style Number              | Nominal | Actual   |
| TS7WKSPT39                | 39"W    | 39.231"W |
| TS7WKSPT48                | 48"W    | 47.547"W |
| TS7WKSPT51                | 51"W    | 50.547"W |
| TS7WKSPT54                | 54"W    | 53.547"W |
| TS7WKSPT                  | 57"W    | 56.547"W |
| TS7WKSPT60                | 60"W    | 59.547"W |
| TS7WKSPT63                | 63"W    | 62.547"W |
| TS7WKSPT66                | 66"W    | 65.547"W |
| TS7WKSPT72                | 72"W    | 71.547"W |

Note: If the deducted span distance falls between two reinforcing channel sizes, select the smaller of the two sizes.

#### Reinforcing Channel Size for Straight 120° Worksurfaces

To calculate the reinforcing channel size for a straight 120° worksurface, use the user edge length, subtract 6", and order the next shortest channel. See chart below.

| Back Edge Width | Worksurface Depth | User Edge Depth | Reinforcing Channel Size |
|-----------------|-------------------|-----------------|--------------------------|
| 48"             | 23½"              | 61⅞"            | 54"W                     |
| 48"             | 29½"              | 65⅞"            | 57"W                     |
| 60"             | 23½"              | 73⅞"            | 66"W                     |
| 60"             | 29½"              | 77⅞"            | 66"W                     |
| 72"             | 23½"              | 85⅞"            | 72"W                     |
| 72"             | 29½"              | 89⅞"            | 72"W                     |

### Support Requirements for Peninsula Worksurfaces

**Peninsula worksurfaces smaller than 60"W** do not require a reinforcing channel. Location of leg or column support, determined by pilot holes, meets the requirements for worksurface support every 54". Sizes 60"W or greater require a reinforcing channel. Determining brace size for peninsula worksurfaces: If worksurface is supported by a single column or legs, subtract 21" from span of worksurface to determine reinforcing channel size. Example: 72"W measured span has a span deduction of 21" for a reinforcing channel size of 51" ( $72" - 21" = 51"$ ). For this application, use reinforcing channel TS7WKSPT51.

# Universal Worksurface Thought Starters

## Universal Worksurface Products

provide a variety of traditional and non-traditional methods of applying worksurfaces and supports. Worksurfaces can be supported in on-module and off-module panel-supported applications, freestanding configurations, tethered to Post and Beam, and many combinations of these applications. The thought starters included on the following pages can help leverage the benefits of the worksurfaces in new and unique ways.

## Universal Worksurface Products provide significant planning flexibility:

- Systems Worksurfaces and Tables can be used together, and a wide range of worksurface shapes and sizes allow various footprints to be achieved.
- Systems Worksurfaces can be used with Answer and Kick panels, Montage frames, and V.I.A. walls. They can be panel-supported or freestanding. *Tip: Corner 120° Systems Worksurfaces may not be panel-supported with Montage panels due to the unique design of the Montage 120° junction.*
- Freestanding, mobile worksurfaces and tables allow user control of the workspace to provide either privacy or team collaboration.
- 26"H and 28½"H legs may be installed 3", 6", or 9" from the edge of most Tables to accommodate nesting and slip-fit capability.
- Adjustable-height legs are available on Systems Worksurfaces and Tables. Legs adjust 25½"H to 31½"H in ¾" increments.
- Tether brackets are available to secure Tables to Post and Beam fence.

## Freestanding tables

with legs installed 6" or 9" from the edge allow the worksurface to slip-fit over the panel-mounted Systems Worksurface. This configuration also allows the user to face the aisle while working at the computer.

## Full depth systems worksurfaces

allow L-configurations without uneven gaps. This configuration uses an angled peninsula worksurface to provide an aisle-facing place for active work and meetings. A 96" long straight worksurface creates a large, unbroken area to spread out work in progress. All the worksurfaces in this configuration are symmetrical, making it easy to plan mirror image applications.

## U-Configuration with Large Footprint

### Recommended Worksurfaces

|                                                                             |                   |
|-----------------------------------------------------------------------------|-------------------|
| One 24"D x 72"W left-hand bubble jetty table                                | <b>BFJ2472LP</b>  |
| One 23½"D x 60"W straight worksurface (P-edge)                              | <b>US2460P</b>    |
| One 23½"D x 23½"D x 41½"W x 41½"W corner, curved-front worksurface (P-edge) | <b>UCC224242P</b> |
| One 23½"D x 30"W visitor, curved-front worksurface (P-edge)                 | <b>UVC2430RP</b>  |

## L-Configuration with Large Footprint

### Recommended Worksurfaces

|                                                     |                |
|-----------------------------------------------------|----------------|
| One 24"D x 24"D x 60"L angled peninsula worksurface | <b>WPA2460</b> |
| One 24"D x 24"W straight worksurface                | <b>WS2424</b>  |

Universal Worksurface Thought Starters, continued

Systems worksurfaces with 1/2" cord drop

allow easy cord management with uniform gaps whenever corner worksurfaces are used. This U-configuration uses 18 3/8"D worksurfaces to create a spacious workstation in a 6x7 footprint.

U-Configuration with Medium Footprint

| Recommended Worksurfaces                                                        |                  |
|---------------------------------------------------------------------------------|------------------|
| Two 18 3/8"D x 30"W straight worksurfaces                                       | <b>US1830</b>    |
| Two 18 3/8"D x 18 3/8"D x 41 1/2"W x 41 1/2"W corner, curved-front worksurfaces | <b>UCC114242</b> |

Tapered worksurface shapes

can maximize space for the user by providing extra depth for the computer only where it's needed. This configuration uses a taper-flat worksurface and an 18 7/8"D return to give the user more space in a 6x6 footprint. The user can also face toward the aisle while working at the computer.

L-Configuration with Small Footprint A

| Recommended Worksurfaces                      |                 |
|-----------------------------------------------|-----------------|
| One 30"D x 24"D x 72"W taper-flat worksurface | <b>WTTF3272</b> |
| One 18 7/8"D x 48"W straight worksurface      | <b>WS1848</b>   |

**Freestanding tables with nesting-height legs**

allow tables to nest under panel-mounted Systems Worksurfaces. This configuration uses an 18"D Systems Worksurface and allows a small workstation to expand and decrease, giving users control over their space.

**L-Configuration with Small Footprint B**

Recommended Worksurfaces

|                                                                            |                 |
|----------------------------------------------------------------------------|-----------------|
| One 24"D x 48"W capsule table (P-edge)                                     | <b>BFK2448P</b> |
| One 18 <sup>3</sup> / <sub>8</sub> "D x 60"W straight worksurface (P-edge) | <b>US1860P</b>  |

**Spacious U-configurations with a minimum number of panels and work-surfaces**

can be created with 60"W x 60"W corner, curved-front and linking peninsula Systems Worksurfaces.

**Penta Cube**

Recommended Worksurfaces

|                                                                             |                  |
|-----------------------------------------------------------------------------|------------------|
| Six 24"D x 60"W x 60"W x 24"D corner, curved-front worksurfaces (3 mm edge) | <b>UCC226060</b> |
| Five linking peninsula worksurfaces (3 mm edge)                             | <b>UPAC2748</b>  |
| One straight worksurface (3 mm edge)                                        | <b>US2460</b>    |

*Tip: Size of linking peninsula worksurface to be used is determined by the panel system which it will be used with. Answer panels are shown at left.*

# Universal Systems Worksurfaces

**Systems worksurfaces— with 1/2" Cord Drop** feature built-in cable management flexibility, allowing cords to drop below the worksurface at any point along the back edge.  
► Specifying page 538

**Systems worksurfaces— Full Depth** feature a tighter fit to panels for a cleaner aesthetic.

**Systems straight work-surfaces with 1/2" cord drop and full depth** are available in a variety of widths and depths in modular and parametric dimensions.

**Full-depth worksur-faces** fit flush against panels. Cords and cables are routed through cable scallops.

**Front (user's) edge** is available in three edge profiles on laminate work-sur-faces. Wood veneer work-sur-faces have a square (3 mm) edge profile only. Back and side edges are flat.

**Cable scallops** allow cords and plugs to pass behind the worksurface. Cable scallops can be omitted as an option.

**Worksurface** has a wood core with a High-Pressure Laminate or wood veneer surface and is 13/16" thick.

## Edge Profiles

**Edge profile** is applied to front (user's) edge only.

\*Tip: Straight worksurface width is available parametric from 18"W–120"W in 1/16" increments. Straight worksurface depth can be specified parametric from 18"D–36"D in 1/16" increments.

## Product Details

### High-Pressure Laminate Worksurfaces

**Front (user's) edge profile** is available in three shapes.

Knife edge profile

**PVC-free, 3 mm edge profiles** are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

► See surface material listing in this book for specific PVC-free availability.

**P-edge profile** rises slightly above the laminate surface and curves into a 3/8" radius which optimizes ergonomic benefit for the user. Back and side edges are flat.

**Knife edge with 3 mm user edge** is available on straight and tapered systems worksurfaces and on round tables.

**Edge profile finishes** are specified separately from laminate color.

### Wood Veneer Worksurfaces

**Front (user's) edge profile** is wood veneer with a square (3 mm) radius. Back edge and edge that joins to adjacent worksurfaces are flat. Wood edge color matches finish specified for worksurface.

**P-edge profile work-surfaces** are 3/8" deeper than 3 mm edge profile worksurfaces. Both edge profiles provide a flush interface with universal pedestals.

**Straight worksurfaces** are available to specify parametrically. The parametric dimensions available are from 18" to 36" deep and from 18" to 120" wide in 1/16" increments both depth and width.

**Parametric straight worksurfaces** are available in laminate with a 3 mm plastic edge, P-edge, knife edge, or soft edge options and wood veneer with square edge or soft edge options.

**Parametric straight worksurfaces** have the option to specify a scallop, grommet cutouts, power and data access door and tray cutout, or power access door.

**Dual-worksurfaces** are two pieces - a large monitor surface with a smaller keyboard surface attached. A dual-arm spring mechanism provides superior stability when compared to the single-arm spring mechanism used in worksurfaces with an adjustable keyboard shelf.

**Keyboard surface on dual workspace** can be adjusted to positions up to 6" higher or 5" lower than the monitor workspace.

**Keyboard surface** tilts with a range of 25°.

**A 1" gap** separates the sides of the keyboard surface and adjacent worksurfaces. There is also a 1 1/2" space between the keyboard and monitor surfaces.

**30"D straight, tapered, and transition cantilevered worksurfaces** require additional floor support along the front edge, such as a pedestal, end panel, post leg, side support bracket, or an adjacent return worksurface.

**Taper-flat worksurfaces** can be supported at the larger end with a side support bracket and a post leg. If the larger end is 30"D, a 24"D end panel can also be used.

**Spanner worksurfaces** with 3" notch accommodate Answer panels. Legs and cantilevers or column and cantilevers must be used for support.

**Notch** is not included on spanner worksurfaces for freestanding applications without panels.

**Shared worksurfaces, both tapered and D-shaped**, attach to a 30" wide Answer panel only and can be supported three ways:

- With an Answer panel support bracket and two cabby legs
- With an Answer panel support bracket and column support
- With an Answer panel support bracket and standing-height column support

**3 mm edge bullet peninsula, jetty, and bubble jetty worksurfaces** can be supported two ways:

- With a cantilever, a center support panel and a column
- With a cantilever, a side support bracket, and two post legs

In certain applications, a center support panel should not be used because the unfinished top edge of the support panel would be exposed. Use a cantilever, a side support bracket, and two post legs instead. These applications include:

- Bullet peninsula with P-edge
- Jetty with P-edge
- Bubble jetty with P-edge
- Angled peninsula with 3 mm edge and 1/2" cord drop

**Linking peninsula worksurfaces and linking worksurfaces** with 3" notch accommodates Answer panels. Legs and cantilevers or column and cantilevers must be used to support linking peninsula worksurfaces. One leg and two cantilevers must be used to support linking worksurfaces.

## Universal Systems Worksurfaces, continued

**3 mm edge visitor worksurfaces** must be supported by either a cantilever and a center support panel, or by a cantilever, a side support bracket, and a leg.

**In P-edge profile work-surface applications,** a side support bracket, a cantilever, and a leg must be used for support. A center support panel should not be used because the unfinished top edge of the support panel would be exposed.

### Connections

**Worksurfaces** can be used freestanding or in panel-supported installations.

**Supports** are ordered separately and installed in the field.

### For panel-supported applications you can use:

- Closed loop
- Open loop
- Half loop
- Intermediate support
- Off-module worksurface-to-panel connector
- Side support brackets
- Cantilever with tie plate
- End panel
- Standing-height end panel
- Support plate
- Center support panel with tie plate
- Standing-height center support panel with tie plate
- Columns or legs

► See page 236 for *Panel-Mounted Universal Systems Worksurface Supports*.

- Universal pedestal with filler
  - Universal lateral file with underworksurface lateral file filler
- See *Storage Specification Guide*.

*Tip: Selected worksurfaces with P-edge profile include alignment slots to accept cabby legs for column support:*

- Use two legs for panel-mounted spanner, bullet peninsula, linking peninsula, jetty, and bubble jetty worksurfaces
- Use one leg for visitor and linking worksurfaces

### For Answer Freestanding desk applications you can use:

- End supports
- Peninsula supports
- Corner support
- Columns and legs
- Closed loop or open loop
- Modesty panels
- Pedestals
- Lateral files and storage cabinets

► See *Answer Freestanding Specification Guide*.

*Tip: Peninsula support is not compatible with P-edge bullet peninsula, jetty, or bubble jetty worksurfaces. Legs or other alternate supports are recommended.*

### For leg-based applications you can use:

- Closed loop
- Open loop
- Intermediate support
- Post legs
- Double post leg
- Double post C-leg
- Support plate

► See page 244 for *Legs and Columns for Universal Systems Worksurfaces*.

*Tip: Pedestal can also be used in leg-based freestanding installations.*

**Intermediate supports** replace the need for other types of worksurface support when used with 1-High or 1.5-High Universal storage.

**Worksurface spans greater than 54"** require additional support of a cantilever, pedestal, intermediate support, or leg. Exception: Worksurfaces can span up to 60" in heavy load applications and up to 72" in light load applications if a TS7WKSPT reinforcing channel is used. Reinforcing channel must be specified separately.

► Page 589

**Knife edge worksurfaces** require reinforcement channels for spans greater than 48". Use TS7WKSPT39 for 54"W worksurfaces, TS7WKSPT for 60"W and 66"W worksurfaces, and TS7WKSPT72 for 72" worksurfaces.

**Heavy load worksurfaces** spanning greater than 60", or all worksurface spans wider than 72" require additional support of a cantilever, pedestal, intermediate support, or leg.

**Cable scallop** allows cord plugs to easily pass below the worksurface. Worksurface wire managers are available to convert cable scallops into grommets in freestanding applications. Wire managers are included with wood veneer worksurfaces. Wire managers for use with laminate worksurface must be ordered separately.

**Corner worksurfaces** have scallops located 12 1/2" from the rear corner of the worksurface to the center of the scallop. Taper-flat worksurfaces have a single scallop located 18 1/2" from the larger end. Scallops are centered on the rear edge of all other worksurfaces that include them.

**Cable scallop** can be omitted for freestanding applications or panel-supported applications where plugs do not need to pass over the back edge of the worksurface.

**Cable management devices** are available to help manage conventional and fiber-optic cables beneath the worksurface. ► See *Worksurface Power and Communication*, page 611.

### Wiring & Cabling

**Worksurface depth** is 1/2" less than nominal and allows cords and cables to pass over at any point. Cable scallops provide space for plugs to pass over the back edge of the worksurface.

**Parametric straight worksurfaces** have two grommet cutout options. The 2" round grommet cutout option fits the AWAG2 grommet which is specified separately.

► See page 615

**The 3" round grommet cutout** option fits the TSAEGROM grommet which is specified separately.

► See page 616

**The grommet cutout option** is not available on a worksurface when the power access door option is selected.

**Grommet cutouts in parametric straight worksurfaces** can be specified in the center, the left, or the right sides of the worksurface. Grommet cutouts are available in the below configurations.

| Grommet Location on Worksurface | Minimum Worksurface Widths |
|---------------------------------|----------------------------|
| Center, Right, or Left          | All widths                 |
| Right and Left                  | At least 25"W              |
| Right and Center                | At least 34"W              |
| Left and Center                 | At least 34"W              |
| Center, Right, and Left         | At least 34"W              |

**FrameOne post legs** will interfere with the left or right grommet cutouts on parametric Universal straight worksurfaces.

**Grommet cutouts in parametric straight worksurfaces** are located 3 5/16" from the back edge of the worksurface to the back edge of the grommet cutout. Left and right grommet cutouts are located 6 1/2" from the edge of the worksurface to the outside edge of the grommet cutout.

## Surface Materials

### High-Pressure Laminate Worksurfaces

- Laminate
- See *Surface Materials Reference Manual*.
- Open Line laminate (option) A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- See *Surface Materials Reference Manual*.

### Front (user's) edge(s)

- Plastic

### Back and side edges

- Plastic color default to match user's edge

### Wood Veneer Worksurfaces

- Wood veneer (standard)
- Customiz stain (option)
- Full-fill finish (option)

### Square (3 mm) edge profile

- Wood veneer to match worksurface

### Front (user's) edge(s)

- Wood edge band

## Application Topics

### P-Edge Profile Application Rules

**P-edge profiles** will produce a valley when installed perpendicular to adjacent worksurfaces. The additional 3/8" depth of P-edge profiles causes an interference fit in on-module panel-mounted applications. For L-configurations using two worksurfaces, the 3 mm edge profile is recommended.

**P-edge profile work-surface depth** prevents modesty panels from fitting properly in return or bridge Answer Freestanding desk applications. Modesty panels cannot be used when a return or bridge worksurface is attached to the front edge of a P-edge worksurface. The 3 mm edge profile is recommended for return or bridge applications.

**Answer Freestanding peninsula support** is not compatible with P-edge bullet peninsula, jetty or bubble jetty worksurfaces. Legs or other alternate supports are recommended.

## Universal Systems Worksurfaces, continued

**Full-depth worksurfaces** provide an uninterrupted working surface and are designed to allow traditional corner or L-configuration planning without creating uneven gaps.

**Plan using worksurfaces actual dimensions when panel-wrapping worksurfaces** because worksurface depths and widths vary by type. Straight and transition worksurfaces are full-width to correspond directly with panel width. Corner, extended corner, 120° corner, bullet peninsula, jetty, visitor, and linking worksurfaces are 1/2" less than panel width to allow for a consistent 1/2" cable-management gap when used in combination with straight worksurfaces.

*Tip: To avoid uneven gaps in panel-supported applications, use full-depth worksurfaces to create L-configurations.*

**Screens** mount to worksurfaces in privacy position or below the worksurface for modesty.

► See *Screens*, page 252.

**Worksurfaces used in panel-supported installations** must follow applicable panel stability guidelines.

► Page 148

**Do not use a Universal Systems Worksurface**

as a top for storage that matches the worksurface width. Universal Systems Worksurfaces are slightly undersized for panel-wrapped applications and will not fit over full-width storage. Use field-installed storage tops for this type of application.

► See *Storage Specification Guide*.

**Knife edge worksurfaces** have limitations for support options and application restrictions.

► See page 246 for *Knife Edge Worksurface Application Guidelines*

## Shipping

**Palletizing** streamlines unloading and staging of worksurfaces. Identical worksurfaces ordered on the same line item are packed on pallets containing 5–50 worksurfaces depending on worksurface size. Remaining worksurfaces are packed individually in cartons. If palletizing is not desired, order in quantities of four or less per line item. For maximum unload efficiency, utilize pallet handling equipment at job site whenever possible. Wood veneer worksurfaces cannot be palletized.

# Universal Systems Worksurfaces with Soft Edge, Power and Data Access Door and Tray

**Soft edge** provides a comfortable user experience reducing strain on wrists and forearms.

► Specifying page 546

**Power and data access door and tray** provides desk top access and management of cords.

► Specifying page 584

**Soft edge and power and data access door and tray cutout** are available in modular and parametric straight worksurfaces, both 1/2" cord drop and full depth.

**Cutout** is optional; power and data access door and tray is ordered separately. 24"W cutout is centered near the back of the worksurface.

**Edge** is soft to the touch and flexes to conform to the arm.

**Power and data access door and tray** is available with cord or with modular or hardwire connection.

**Soft edge** is 36" wide centered on the worksurface; balance of front edge is 3 mm radius. Back and side edges are flat.

**Soft edge and power and data access door and tray** are available on straight and taper Universal Systems Worksurfaces with 1/2" cord drop and full depth.

**Tray** includes six simplex receptacles and cutout for data access.

## Soft Edge, Power and Data Access Door and Tray Worksurface Availability

|                                                                                           | Modular              | 48"W                                         | 54"W                                         | 60"W                                         | 65"W                                         | 72"W                                         | 78"W                                         | 84"W                                         | 90"W                                         | 96"W                                          | 102"W                                          | 108"W                                          | 114"W                                          | 120"W |

● Only soft edge, only power & data access door & tray, or both

\*Tip: Subtract 1/2" for worksurfaces with cord drop.

## Dimensions

|           | Soft edge     | Cutout for Door                 | Tray (below worksurface)         |
|-----------|---------------|---------------------------------|----------------------------------|
| Width     | 36"           | 24"                             | 27 <sup>1</sup> / <sub>8</sub> " |
| Depth     | 3"            | 4 <sup>5</sup> / <sub>8</sub> " | 6"                               |
| Thickness | 1/2" at front | N.A.                            | N.A.                             |
| Height    | N.A.          | N.A.                            | 4 <sup>3</sup> / <sub>4</sub> "  |

## Product Details

**Soft edge profile** is polyurethane and is available with Bactiblock™ antimicrobial protection.

## High-Pressure Laminate Worksurfaces

**PVC-free, 3 mm edge profiles** are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free. See surface material listing in this book for specific PVC-free availability.

**3 mm front edge** is specifiable. Back and side edges match 3 mm front edge.

**Edge profile finish for 3 mm front edge** is specified separately from laminate color.

## Wood Veneer Worksurfaces

**Front (user's) edge profile** is wood veneer with a square (3 mm) radius. Back edge and edge that joins to adjacent worksurfaces are flat. Wood edge color matches finish specified for worksurface.

**Scallops** are omitted on worksurface when cutout for power and data access door and tray option is selected.

**Power and data access door and tray cutouts** are 3<sup>5</sup>/<sub>16</sub>" from the back edge of the worksurface and always centered on the width of the worksurface.

**Power and data access door and tray cutouts** are available on worksurfaces 24"D through 36"D.

**Inner tray** provides under the surface power and data connections and access and cord management.

**Outer tray** provides cover and management for harness, cord, and/or data cables to and from the panel.

**Power and data access door and tray** flips toward the user.

**Modular, cord and plug, or hardwire options** are available.

**Cord version** includes 10' cord with plug. Modular and hardwire versions each include 8' of harness.

**Three wiring schematics** are available in the modular version – 3+1, 2+2, and 3 separate neutrals (3SN). Each has a single circuit. 3+1 and 2+2 have the option for line 1, 2, 3, or 4 with either a system or isolated ground. 3SN has the option for line 1, 2, or 3 with either a system or isolated ground.

**Data cutout in tray** can accommodate either a single gang or a modular furniture communication faceplate. Tray includes adapter to accommodate modular faceplate.

**Filler packages** are available to fill unused data cutouts. Order separately in packages of 20.

**With the modular and hardwire version**, the harness enters the panel through a field cut opening in a fabric skin. A grommet is included to provide a finished edge to the field cut opening in the skin where the harness enters the panel. Inside the panel the harness can connect to a powerkit or it can use either a harness to harness connector or a branching harness to harness connector to connect to other modular harness trays or modular harnesses.

**Cord and plug version** has an integrated overload circuit breaker.

**Non-PVC versions** are available for each power solution.

## Connections

**Fixed storage** can be used with worksurfaces with soft edge but must not encroach the 36" width of the edge.

**Worksurfaces** connected perpendicular should not encroach the 36" width of the soft edge.

**Soft edge worksurfaces** are available with the same support options and follow the same application rules as other Universal Systems worksurfaces. ▶ See page 222 for Universal Systems Worksurfaces Understanding. *Exception: 48"W worksurface with soft edge used with the FrameOne post leg has some limitations.*

**In an end-of-run condition**, the FrameOne post leg will not fit when used with 48"W soft edge worksurfaces, use half, open, or closed loop legs.

**In shared applications**, the FrameOne post leg can be angled and positioned at the front edge or for a square orientation it must be inset 1" from the front edge when used with 48"W soft edge worksurfaces.

**Access holes in tray** allow power and data to be routed straight back when worksurface is against the panel or routed to the sides when the worksurface is perpendicular to the panel.

**Worksurfaces with power and data access door and tray** are available with the same support options and follow the same application rules as other Universal Systems worksurfaces. ▶ See page 222 for Universal Systems Worksurfaces Understanding.

## Universal Systems Worksurfaces with Soft Edge, Power and Data Access Door and Tray, continued

**Tray with cord and plug** can be used in a freestanding table application.

**Worksurfaces with power and data access door and tray with modular or hardwire power** cannot be used in a freestanding application. The worksurface must either be attached to a panel on one end or if the worksurface is attached to low storage with an intermediate support on one end, the cabinet must be attached to the panel or ganged to another storage cabinet. This applies to both parallel or perpendicular to the panel applications.

**Height of tray** is 4 3/4" so lower storage height must be accounted for when used adjacent to tray.

**Width of outer tray below the worksurface** is 27 1/8" so adjacent lower storage dimensions must be accounted for on each worksurface width.

**Tray with cord and plug** includes two cord clips to help manage the cord below the worksurface.

**Tray with modular harness or hardwire harness** includes two harness clips to help manage the harness below the worksurface.

**Soft edge worksurfaces and power and data access door and tray worksurfaces** require reinforcement channel or other support on worksurfaces 60"W or larger.

**Worksurfaces** greater than 72"W require additional support such as cantilevers, pedestals, or legs beyond the brace.

### Wiring & Cabling

**Chicago, New York, and Los Angeles** have special requirements.

**Underwriter Laboratory (UL) listed.** The power and data tray has been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary, so consult with your local authority having jurisdiction as they have final say if the products as installed are compliant with local code. Consult a qualified electrician or electrical engineer for proper installation of all electrical equipment.

### Surface Materials

#### High-Pressure Laminate Worksurfaces

- Laminate
  - ▶ See *Surface Materials Reference Manual*.
  - Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- ▶ See *Surface Materials Reference Manual*.

Access Door and Tray

# Universal Systems Worksurfaces with Power Access Door

## Power access door option on worksurfaces

allows for convenient pass through access to panel outlets.

► Specifying page 538

## Systems straight worksurfaces with power access door

are available in a variety of widths and depths in modular and parametric dimensions.

**Power access door** provides desk top access and management of cords.

**Power access door** is only available on worksurfaces with a 1/2" cord drop.

## Dimensions

### Cutout for Door

|       |                                  |
|-------|----------------------------------|
| Width | 16 <sup>1</sup> / <sub>8</sub> " |
| Depth | 4 <sup>1</sup> / <sub>4</sub> "  |

\*Tip: Modular 29<sup>1</sup>/<sub>2</sub>"D worksurface is only available up to 72"W. Worksurface width is available parametric from 18"W–120"W in 1/16" increments. Worksurface depth can be specified parametric from 18<sup>3</sup>/<sub>8</sub>"D–36"D in 1/16" increments.

## Product Details

### High-Pressure Laminate Worksurfaces

**PVC-free, 3 mm edge profiles** are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

► See *Surface Materials Reference Manual* for specific PVC-free availability.

**3 mm front edge** is specifiable. Back and side-edges match 3 mm front edge.

**Edge profile finish for 3 mm front edge** is specified separately from laminate color.

### Wood Veneer Worksurfaces

**Front (user's) edge profile** is wood veneer with a square (3 mm) radius. Back edge and edge that joins to adjacent worksurfaces are flat. Wood edge color matches finish specified for worksurface.

**Scallops** are omitted on all worksurfaces with a power access door.

**Power access door** provides access to power outlets in the panel.

**Currency Enhanced storage with recessed back** should be used when storage will be placed in front of a power outlet.

**Recessed back storage** features a 3<sup>3</sup>/<sub>4</sub>" cavity to allow access to outlets below the worksurface.

**Left and right configured power access doors** will interfere with FrameOne post leg support and freestanding end panels (UE18, UE24, and UE30).

## Surface Materials

### High-Pressure Laminate Worksurfaces

- Laminate
  - See *Surface Materials Reference Manual*.
  - Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- See *Surface Materials Reference Manual*.

### 3 mm front edge

- Plastic

### Back and side edges

- Plastic color default to match 3 mm front edge

### Wood Veneer Worksurfaces

- Wood veneer (standard)
- Customiz stain (option)
- Full-fill finish (option)

### Square (3 mm) edge profile

- Wood veneer to match worksurface

### Front (user's) edge(s)

- Wood edge band

### Power Access Door

#### Door

- 4799 Platinum Metallic
- 7207 Black
- 7241 Arctic White
- 7360 Merle
- 8043 Clear Anodized Aluminum

#### Door bezel

- 6527 Merle

# Transaction Worksurfaces

**Transaction worksurface** provides a surface that can be used by standing visitors or serve as a shelf.  
▶ Specifying, page 580

**Worksurface** has a wood core with a High-Pressure Laminate or wood veneer surface and is 1 3/16" thick.

**Attachment brackets** are included.

**Shortened top caps** are included with the transaction worksurface. Top caps are available in thin, square, or oval styles and are compatible with same-height or change-of-height applications.

## Product Details

### High-Pressure Laminate Worksurfaces

**Edge profile** is available in two shapes.

3 mm edge profile

P-edge edge profile

**Both edge profiles** are plastic, and are specified separately from laminate color.

**P-edge profile** rises slightly above the laminate surface and curves into a 3/8" radius which optimizes ergonomic benefit for the user.

### Wood Veneer Worksurfaces

**Edge profile** is wood veneer with a square (3 mm) radius. Wood edge color matches finish specified for worksurface.

**Edge profile** is applied to all edges.

## Actual Dimensions

| Square and Oval |     |                       | Thin |     |                       |
|-----------------|-----|-----------------------|------|-----|-----------------------|
| A               | B   |                       | A    | B   |                       |
| 15"             | 23" | for use on 30"W panel | 15"  | 28" | for use on 30"W panel |
| 15"             | 29" | for use on 36"W panel | 15"  | 34" | for use on 36"W panel |
| 15"             | 35" | for use on 42"W panel | 15"  | 40" | for use on 42"W panel |
| 15"             | 41" | for use on 48"W panel | 15"  | 46" | for use on 48"W panel |
| 15"             | 53" | for use on 60"W panel | 15"  | 58" | for use on 60"W panel |

Tip: Wood veneer transaction worksurfaces are not available in 23"W.

## Connections

**Transaction work surface support brackets** connect to the top of a horizontal connecting bar. Horizontal bar must be connected to junctions in top position.

**Transaction work surfaces** cannot be used when a transparent window, pass-thru window, or consolidation point cabinet are assembled at the top of a panel.

**A transaction top work surface** cannot be added to a panel segment with a 6" stacker.

**In square and oval trim applications**, a transaction top cannot be used on a 48"H panel when the panel is connected to a taller panel in a change-of-height condition.

**A transaction top** may be used on a 48"H panel connected to a taller panel in a change-of-height condition, but the taller panel must comprise of a 48"H base junction with a stacking junction to achieve the taller height.

**Spanning** two panels with thin trim is possible.

*Exception: 58"W transaction work surface cannot span multi-panels because it has an additional support bracket that conflicts with the junction between two 30"W panels.*

**Spanning** two panels with square or oval trim is possible.

*Exception: 53"W transaction work surface cannot span multi-panels because it has an additional support bracket that conflicts with the junction between two 30"W panels.*

**Width of transaction work surface with thin trim** is 2" shorter than the width of corresponding panel to accommodate change-of-height applications.

**Width of transaction work surface with square and oval trim** is 7" shorter than the width of corresponding panel to accommodate change-of-height applications.

**Panels** on one or on both sides of the transaction work surface can be higher or lower than the panel that supports the transaction work surface.

**Transaction work surfaces with thin or oval trim** include top trim that accommodates all standard and change-of-height applications (one end or both ends).

**Transaction work surfaces with square trim** include top trim that accommodates both standard and slim change-of-height applications (one end or both ends). Change-of-height option must be specified when used adjacent to cable management change-of-height (one end or both ends).

**Recommended standing height** for transaction work surface is achieved by attaching it to 42"H panels.

**Utility2 shelf lights** can be installed beneath transaction work surfaces using screws and keyhole slots in light fixture.

**Transaction work surface** must be centered on the panel.

## Wiring & Cabling

**Transaction work surface** blocks cable routing in the top cable tray but cable routing is still available lower in the panel.

## Surface Materials

# Universal Panel-Mounted Worksurface Supports

For Answer Panel Applications

**On-module supports** can be used to panel support worksurfaces in various configurations.  
► Specifying, page 588

**Worksurface supports** feature alignment tab used to set a depth for Universal Systems Worksurfaces—with 1/2" cord drop. This tab is bent down when installing full-depth worksurfaces.

**Cantilever** can be used to panel-support a worksurface at any height.

**Side support brackets** can be used to support the ends of straight and corner worksurfaces and to support the back corner of any corner worksurface.

**End panel** can be used to support the end of a worksurface.

**Center support panel** can be shared by two worksurfaces and may be required for longer runs of worksurfaces.

Product Details

**On-module worksurface supports** engage the slots in the vertical uprights of Answer panels.

**Side support brackets** support worksurfaces at any height in 1" increments. Brackets ship as a left- and right-hand pair and are ordered separately.

**Side support brackets** can be used to support the end of a worksurface that is wrapped by a panel with the same width dimension that matches the worksurface depth.

| Actual Dimensions |            |                      |                     |
|-------------------|------------|----------------------|---------------------|
|                   | Cantilever | Center support panel | End panel           |
| Height            | 12 1/4"    | 28 1/2" or 40 7/8"*  | 28 1/2" or 40 7/8"* |
| Depth             | 15 1/2"    | 11"                  | 23 3/4" or 29 3/4"  |
| Glide Range       | N.A.       | 1 1/4"               | 1 1/4"              |

\*Height dimensions include the thickness of a worksurface.

**Single side support bracket** can be used to support the rear corner of corner, extended corner, and 120° corner worksurfaces.  
*Tip: For off-module fin wall applications, the single side support bracket must be handed appropriately for connection to the fin wall.*

**Single side support bracket** can be used to support the user's side rear corner of bullet peninsula, angled peninsula, visitor, jetty, and bubble jetty worksurfaces.

**Cantilevers** support worksurfaces at any height in 1" increments. Cantilever is non-handed and can be used to support either end of a work surface, or shared to support two worksurfaces at the same height simultaneously. One tie plate ships with each cantilever.

**30"D straight, tapered, and transition cantilevered worksurfaces** require additional floor support along the front edge, such as a pedestal, end panel, post leg, side support bracket, or an adjacent return work surface.

**26 1/16"D – 30"D parametric straight cantilevered worksurfaces** require additional floor support along the front edge, such as a pedestal, end panel, post leg, side support bracket, or an adjacent return work surface.

**Adjacent cantilevered work surfaces** must be the same height in order to connect with a tie plate and provide panel stability.

*Tip: Answer panel junctions can accommodate only one support at each work surface seam.*

**Center support panel** is an alternative to a cantilever in supporting longer runs of work surfaces for additional panel stability. Refer to the applicable panel stability guidelines for specific requirements.

**Center support panels** are available in seated and standing heights, and cannot be used in freestanding applications or as a substitute for an end panel. One tie plate ships with each center support panel.

**Center support panels** should not be installed along the user's edge on P-edge profile jetty and visitor work surfaces. The unfinished top edge of the center support panel would be exposed. Use single side support bracket and a post or cabby leg.

**End panels** can be used to support the end of a work surface for additional panel stability. Refer to the applicable panel stability guidelines for specific requirements.

**End panels** are available in seated and standing heights, and cannot be used in freestanding applications.

**All panel mounted supports** can be removed and repositioned later without any permanent damage to panels or skins.

**Pedestals and lateral files with a filler** can be used to support the end of a work surface in place of an end panel.

► See *Storage Specification Guide*.

**Work surface spans greater than 54"** require additional support of a cantilever, pedestal, intermediate support, or leg. Exception: Worksurfaces can span up to 60" in heavy load applications and up to 72" in light load applications if a TS7WKSPT reinforcing channel is used. Reinforcing channel must be specified separately.

► Specifying, page 589

## Surface Materials

### Side support bracket and reinforcing channel

- Black paint only

### Cantilever, center support panel, and end panel

- Paint

## Application Topics

**Worksurfaces greater than 30"D** can only be used in freestanding applications and cannot be panel mounted.

**Worksurfaces used in panel-supported installations** must follow applicable panel stability guidelines.

► Page 148

# Off-Module Worksurface-to-Panel Connector

**Connector** attaches into the slotted channels of the panel junctions.

## Actual Dimensions

|               |                                      |
|---------------|--------------------------------------|
| <b>Depth</b>  | 1/2"                                 |
| <b>Width</b>  | 34", 30", 36", 42", 48", 60", or 72" |
| <b>Height</b> | 3"                                   |

## Product Details

**Connects** 18"D to 30"D worksurfaces to wider panels eliminating the need to match panel width to worksurface depth. Replaces side supports, cantilevers, and the need for front edge support with worksurfaces greater than 26"D.

## Application Topics

**Worksurface** can be positioned anywhere along the width of the off-module connector.

**Off-module worksurface to panel connector** cannot be used at the same elevation on adjacent in-line panels.

**Off-module worksurface-to-panel connector** can be used to support the diagonal end of a Universal straight 120° worksurface.

**Off-module worksurface to panel connector** can support a single worksurface only.

**Off-module worksurface to panel connector** cannot replace cantilevers and side support brackets when worksurface is parallel to the panel.

**Off-module worksurface to panel connector** cannot be used in front of or on the adjacent panel next to a 12"H or a 24"H slatwall skin positioned in the second 12" skin module from the base of the panel.

## Surface Materials

### Connector

- Paint

# FrameOne Legs and Supports for Universal Worksurfaces

**Legs and supports** share a common visual with FrameOne bench and support Universal worksurfaces in freestanding, storage-supported, or panel-supported applications.   
▶ Specifying page 592

**Spacers between top of legs and worksurface** provide a floating look to the worksurface and match visual of FrameOne bench.

**Intermediate support** is used with Universal One-High or 1.5-High storage as a worksurface support allowing for nesting of low storage.

**Post leg** is square to provide a complementary visual to FrameOne legs. Post leg can be used as a column support.

**Leveling glide** allows worksurface height to be adjusted on uneven floors.

## Product Details

**Closed, open, and half-loop legs** are handed when panel supporting and must be specified left or right when facing the front of the worksurface. Freestanding tethered and table versions are non-handed.

**Closed, open, and half-loop legs** are available in panel supporting versions. They support the ends of worksurface; they are not shared supports between two worksurfaces.

**Closed and open-loop legs** are available in tethered versions in which one side of the worksurface is attached to a panel or storage.

| Dimensions  |                                  |          |                       |                      |
|-------------|----------------------------------|----------|-----------------------|----------------------|
|             | Closed, Open, and Half-Loop Legs | Post Leg | Intermediate Supports |                      |
|             |                                  |          | For One-High storage  | For 1.5-High storage |
| Height*     | 28½"                             | 28½"     | 28½"                  | 28½"                 |
| Height      | N.A.                             | N.A.     | 11¼"                  | 5¼"                  |
| Depth       | 24" or 30"                       | N.A.     | 16"                   | 16"                  |
| Width       | N.A.                             | N.A.     | 23/16"                | 23/16"               |
| Glide range | 2¼"                              | 1"       | N.A.                  | N.A.                 |

\*Height dimensions include the thickness of the worksurface.

**Closed and open-loop legs** are available in table versions in which both sides of the worksurface are supported by the legs. Post legs can also be used to create freestanding tables.

**Half-loop leg** is always panel supporting, however panels cannot exceed 48"H or support overhead storage above.

**Closed, open, and half-loop legs** do not align properly with knife-edge worksurfaces. Instead use cantilevers.

► See page 246 for knife-edge worksurface application guidelines.

**27"H mobile, freestanding, or fixed pedestals** do not fit flush to the inside of the closed, open, or half-loop leg, there is a 3" gap due to the worksurface support plate. 25½"H freestanding pedestals or 21"H mobile pedestals will fit flush.

**27"H mobile, freestanding, or fixed pedestals** do not fit flush to the inside of the post leg, there is a 5¾" gap due to the worksurface support plate. 25½"H freestanding pedestals or 21"H mobile pedestals will fit flush.

**Post leg** can be shared between two worksurfaces.

**Post leg in shared applications** can be square or oriented angled to the front edge of the worksurface.

**Intermediate supports** replace the need for other types of worksurface support when used with One-High or 1.5-High Universal storage.

**Steel top storage** requires additional bracing inside the storage when used with an intermediate support. Bracing is an option to the intermediate support and is specified to match the width of the storage.

**Bracing** is field-installed.

**Number of braces** is determined by the orientation of the intermediate support to storage. It is not determined by the orientation of the worksurface to storage.

**Side-to-side (parallel) orientation of intermediate support relative to storage** requires one brace.

**Front-to-back (perpendicular) orientation of intermediate support relative to storage** requires two braces.

**Storage with laminate or wood tops** do not require additional bracing with intermediate support.

**Side-to-side (parallel) application of intermediate support** allows worksurface to be oriented perpendicular to storage.

**Front-to-back (perpendicular) application of intermediate support** allows worksurface to be oriented in-line with storage.

**Intermediate support** must be at least 1" from the front, back, or side edges of the storage unit to allow clearance for installation.

**On cabinets with steel tops, in parallel applications**, the intermediate support can be positioned left or right 1" or 7" from the side edge of the storage unit to align with bracing hole locations and can be positioned anywhere front to back on the unit. On cabinets with laminate or wood tops, in parallel applications, the intermediate support can be positioned left or right anywhere between 1" and 7" from the side edge of the storage unit.

**On cabinets with steel tops, in perpendicular applications**, the intermediate support can be positioned left or right 1" or 7" from the side edge of the storage unit to align with bracing hole locations and can be positioned anywhere front to back on the unit. On cabinets with laminate or wood tops, in perpendicular applications, the intermediate support can be positioned left or right anywhere between 1" and 7" from the side edge of the storage unit.

**Worksurfaces 18"D to 24"D** allow intermediate support to be positioned below the worksurface 1" from the front or back.

**Worksurfaces 24½/16"D to 30"D** must be placed a minimum of 1" from the front or back edge, and a maximum of 7" from the front or back edge.

**Intermediate support** cannot support worksurfaces larger than 30"D.

## FrameOne Legs and Supports for Universal Worksurfaces, continued

**Worksurface** may extend up to 10" maximum overhang of intermediate support as long as the other end of the worksurface is anchored to the panel.

**FrameOne post legs** will interfere with left and right oriented power access doors on Universal worksurfaces.

**FrameOne post legs** will interfere with left and right oriented grommet cutouts in parametric straight Universal worksurfaces.

### Surface Materials

#### Legs and intermediate support

- Paint

#### Spacer caps for panel attached legs

- Black plastic only

#### Glide cap for legs

- 6694 Slate only **E310/22**

### Shipping

**Closed, open, and half-loop legs** are packed in boxes of six when ordered on the same line item.

**Bracing for intermediate supports** ship separately from intermediate supports and are field installed into storage cases.

# Infills for FrameOne Legs for Universal Worksurfaces

Infills for FrameOne Legs for Universal Worksurfaces

**Infills** are available in laminate and veneer and are used with open and closed loop FrameOne legs.

► Specifying page 593

**Infills** provide added privacy.

## Product Details

**Infills** can be used with both panel connected or freestanding versions of open and closed loop FrameOne legs for universal worksurfaces.

**Connectors** attach to the back side of the legs.

## Surface Materials

### Surfaces

- Laminate
- Veneer

## Planning Dimension

**Infills** are available 24"W and 30"W.

# Legs and Columns for Universal Systems Worksurfaces

Without Alignment Tab

**Legs** are available to support worksurfaces in free-standing or panel-supported applications.  
► Specifying, page 594

**Double post C-leg** can be used on a single worksurface or in a shared application.

**Post leg** can be used on a single worksurface. Non-locking caster and glide versions are available.

**Column** is 4" in diameter and can be used as a column support on a single worksurface. Adjustable and non-adjustable versions are available.

**Double post leg** can be used as a column support on a single worksurface or to support a shared application.

**Adjustable-height leg** can be used with a single worksurface. Locking caster and glide versions are available.

**Adjustable-height leg** adjusts from 25½"H to 31½"H in ¾" increments.

**Support plate** can be used with a double post leg to join and support two worksurfaces. Plate is 14"D or 20"D and 31⅛"W.

**Leveling glide** allows worksurface height to be adjusted on uneven floors.

| Actual Dimensions                          |        |                   |                 |                    |                       |                   |               |
|--------------------------------------------|--------|-------------------|-----------------|--------------------|-----------------------|-------------------|---------------|
|                                            | Column | Adjustable column | Double post leg | Post leg           | Adjustable-height leg | Double post C-leg | Support plate |
| Height*                                    | 28½"   | 28½"–31⅝"         | 28½" or 40⅞"    | 26", 28½", or 40⅞" | 25½"– 31½"            | 28½"              | N.A.          |
| Glide range, for legs equipped with glides | 1½"    | 3⅛"               | ¾"              | ¾"                 | ¾"                    | ¾"                | N.A.          |

\*Height dimensions include the thickness of a worksurface.

## Product Details

**Legs** support Systems Worksurfaces at 26"H nesting, 28½"H standard, 40⅞"H standing or 25½"H to 31½"H adjustable heights.

**Legs** for Systems Worksurfaces do not include alignment tabs. Pilot holes help the installer locate the proper leg position under the worksurface.

45° orientation

**Post legs** are always installed at a 45° orientation.

**26"H nesting height legs** allow worksurfaces to nest underneath an adjacent worksurface supported with 28½"H legs or a panel-supported worksurface.

**Double post leg** can be used in a shared application with a support plate, or it can be used as a column support for spanner, jetty, bubble jetty, bullet peninsula, angled peninsula, and linking peninsula worksurfaces in panel-mounted applications.

**Post leg**, in conjunction with two cantilevers or center support panels, can be used as column support for linking worksurfaces.

**Post leg**, in conjunction with a side support bracket, can be used to support the end of a visitor or taper-flat worksurface.

**Two post legs** can be used in place of one double post leg as column support for spanner, jetty, bubble jetty, bullet peninsula, and angled peninsula worksurfaces for added stability.

**Standing-height post or double post legs** can be used as column support in panel-mounted applications only.

**Column** can be used on spanner, bullet peninsula, angled peninsula, linking peninsula, jetty, and bubble jetty worksurfaces in panel supported applications.

**For Answer Freestanding desk applications, column** can be used on bullet peninsula and jetty worksurfaces. Adjustable and non-adjustable versions are available.

**Column** cannot be used in a shared application.

Bottom View  
Column

Bottom View  
Post Leg

**Column** is not recommended for applications that include post legs because it has a round shape, while post legs are more of an elliptical shape. Use single or double post legs as a column support in applications that include other post legs.

**Adjustable-height legs** adjust from 25½"H to 31½"H in ¾" increments. Legs can be used to support the primary worksurface, or legs can support a worksurface in a nesting application.

**P-edge profile work-surfaces include alignment slots** to accept cabby legs as an alternative column support for visual consistency in applications that include tables with cabby legs. Panel-mounted spanner, bullet peninsula, linking peninsula, jetty, and bubble jetty worksurfaces accept two legs. Visitor and linking worksurfaces accept one leg.

**Worksurface spans greater than 54"** require additional support of a cantilever, pedestal, intermediate support, or leg. Exception: Worksurfaces can span up to 60" in heavy load applications and up to 72" in light load applications if a TS7WKSPT reinforcing channel is used. Reinforcing channel must be specified separately.  
► Specifying, page 589

## Surface Materials

**Post legs, C-leg, adjustable-height legs, and adjustable column**

- Paint

**Post leg caster**

- Black plastic only

**Support plate and reinforcing channel**

- Black paint only

## Application Topics

**Stability Guidelines**

► Page 148

# Knife Edge Worksurface Application Guidelines

**When planning an L-configuration**, two UFB flat brackets should be used to support the worksurfaces. A cantilever is not wide enough to support the gap where the knife edge worksurface comes together.

**Freestanding L-configuration** should be avoided due to profile on the backside of the worksurface.

25 1/2"H Pedestal  
(cantilever supported worksurface)

Boxfile  
(cantilever supported worksurface)

**Compatible storage** includes 25 1/2"H pedestal with freestanding conversion kit, box/file mobile pedestals, and 1-high storage.

Knife Edge with 27"H Lateral  
and 27"H Pedestal

Knife Edge with 25 1/2"H Pedestal

**Knife edge worksurface over 27"H storage** can make files difficult to access. Use a 25 1/2"H pedestal that is flush with the front edge of the worksurface to avoid this issue.

**Knife edge worksurfaces** require reinforcement channels for unsupported spans greater than 48". Use TS7WKSPT39 for 54"W worksurfaces, TS7WKSPT for 60"W and 66"W worksurfaces, and TS7WKSPT72 for 72" worksurfaces.

**Although a 25 1/2"H pedestal looks good when paired with knife edge**, keep in mind that it does not align with other storage – drawers and base trim do not align. Use a box/file mobile pedestal instead.

**End panels**, 27"H standard pedestals, side support brackets and FrameOne legs for Universal do not align properly with knife edge worksurfaces. Instead, use cantilevers as shown.

**\*\*Side support brackets will work to support the back end of a worksurface; front end is where they won't align properly.**

---

# Understanding Worksurface Screens

|                                                                                    |            |

# Universal Boundary Screens

## Boundary screens

are available for use with Answer, FrameOne, and Universal worksurfaces to provide light scale space division and privacy for a variety of worksettings.

**Universal boundary screens** attach to universal square edge worksurfaces to provide privacy and modesty in a variety of widths and heights.

► Specifying, page 598

**Screens** are available in laminate and wood veneer.

**Screens** are rectangular and available in a variety of heights and widths in modular and parametric dimensions.

**Screens** are suspended from universal worksurfaces by brackets attached to the underside of a worksurface. They do not rest on floor.

**Boundary screens** have a  $\frac{3}{4}$ " thickness.

## Actual Dimensions

**Height** 15", 21", 27", 30", 33", 36", 39", 42", 48", or 54"

**Installed Height** 30", 36", 42", 48", or 54"

**Width** 24", 30", 36", 42", 48", 54", 60", 66", or 72"

**Clearance** 0" or 15"  
(from floor)

**Thickness**  $\frac{3}{4}$ "

*Tip: Screen height is available parametric from 15"H–54"H in  $\frac{1}{16}$ " increments.*

*Tip: Screen installed height can be specified parametric from 30"H–54"H in  $\frac{1}{16}$ " increments.*

*Tip: Screen width can be specified parametric from 24"W–72"W in  $\frac{1}{16}$ " increments.*

*Tip: Screen clearance from the floor can be specified parametric from 0"–15"H in  $\frac{1}{16}$ " increments.*

## Product Details

Universal boundary screens are applicable on flat, back edge of panel mounted, tethered, and freestanding universal worksurfaces. Each application type has height, width, and placement guidelines that must be maintained. ▶ See page 254

Universal boundary screens may not exceed the width of the worksurface in any application. See *Universal Freestanding Applications*, page 256, for maximum height and width rules on freestanding worksurfaces. See *Panel-Mounted and Tethered Connections*, page 260, for maximum height and width rules on panel-mounted and tethered worksurfaces.

**Boundary screen height** is determined by identifying the installed height of the top of the screen minus the clearance from bottom of the screen to the bottom of the leg.

**Installed height on modular universal boundary screens** align with the actual height of Answer thin trim panels. Installed height is based on the worksurface being installed at 28 1/2"H and the leg glide screwed all the way in (post leg glide is 3/8" at minimum). Pilot holes are predrilled in the boundary screen for this condition. ▶ See page 16 for thin trim actual heights.

*Tip: Parametric assumes the same worksurface height and glide allowance.*

**Installed height** of any universal boundary screen, modular or parametric, must be 54"H or less off floor.

**Clearance at the bottom of screen** is 0" or 15"H above the bottom of the leg for the modular option. Clearance at the bottom of screen to the bottom of leg for the parametric screen is 0" to 15"H in 1/16" increments.

*Tip: The boundary screen can never be more than 15"H above the bottom of the leg.*

**Boundary screens width** cannot exceed the width of the worksurface or extend past the end of the worksurface it is attached to. Boundary screens with freestanding worksurfaces have additional sizing restrictions. ▶ See page 256

## Connections

**Bracket placement** is predrilled based on the specified height of the top of screen and the specified clearance from the bottom of the screen to the bottom of the leg. Brackets are located 7 1/2" from the outside edge on each side of the screen. They are 4"D x 2 1/8"W x 4"H.

**Screen brackets** can be mounted flush or mounted to allow a 1/2" gap for cord drop. Flush mount adds 3/4" to overall depth of worksurface. If mounted to allow cord drop the overall depth is 1 1/4".

## Wiring and Cabling

**Boundary screens** do not accommodate cable-routing. Plan accordingly when installing boundary screens on worksurfaces with other cable routing accessories.

**Wire managers** are available to conceal cords that are routed beneath the worksurface. They must be at least 4 1/2" from the back of the worksurface to not interfere with the screen brackets.

## Surface Materials

**Boundary screens**

- Laminate
- Wood veneer

**Edge on laminate**

- Plastic

**Bracket**

- Paint

**Wood grain laminate** is only available on surfaces less than 60"W. No restrictions for veneer.

**Open Line laminates with grain direction** can be applied vertically only. Open Line laminates are not allowed on screens that are greater than 59"W or have segments that are greater than 59"W.

## Application Topics

See additional understanding pages for panel-mounted and tethered applications, page 260, and freestanding applications, page 254.

# Freestanding Applications

**Boundary screen** attaches to universal worksurfaces with included brackets. Brackets are located 7 1/2" from the outside edge on each side of the screen. They are 4"D x 2 1/8"W x 4"H.

**Bracket placement** is based on the installed height of the top of screen and the specified clearance from bottom of the screen to bottom of the leg.

**Bracket holes** are predrilled based on screen dimensions and application. Screen brackets cannot overlap with table leg brackets. Legs may need to be moved to an alternate position in order to avoid interference with the screen brackets.

**Screen brackets** can be mounted flush or mounted to allow a 1/2" gap for cord drop.

**Boundary screen** attaches to flat, back edge of universal worksurfaces only with the following base types: cabby leg with glide only, elliptical leg, post leg, double post C-leg, FrameOne open, or closed loop legs.

**Universal boundary screens** may not be used on freestanding tables with casters.

**Applications** are considered freestanding when they have no structural connection and do not meet the tethered or panel connected requirements.  
 ▶ See page 260 for panel-mounted and tethered connections.

**Freestanding tables** may be used with boundary screens. Table size, shape, connected configuration; as well as possible location, height, and weight being added to application are factors that determine stability limits.

**Boundary screens** attach on the square edge of universal straight, transitional, tapered, bullet peninsula, corner, jetty, and bubble jetty.

**Boundary screens** are not intended for use on the depth edge of surfaces.

**Maximum allowed width of a screen** is determined by the installed height, screen clearance, and worksurface width.

To ensure stability, any boundary screen applied in a freestanding application must not exceed the size listed in matrix, on page 256.

**Boundary screens** are not permitted on height adjustable desks as they do not pass minimum safety requirements which could result in the desk tipping over.

# Freestanding Applications, continued

## 0"H Screen Clearance

Use when clearance at the bottom of screen is 0"H.

*Tip: The bottom of the screen aligns with the bottom of the table leg.*

Use the width of your table and installed height of your screen to determine the appropriate screen size for your application.

*Tip: Maximum screen width listed.*

*Tip: If between table width sizes, refer to smaller size for both modular or parametric.*

*Tip: If between screen heights, refer to next highest size.*

| Installed Screen Height<br>Modular/<br>Parametric   | Table Width          |      |      |      |      |      |      |      |      |      |      |      |      |

| 54"H                                                | NA                   | NA   | NA   | NA   | NA   | NA   | NA   | NA   | 30"  | 30"  | 30"  | 30"  | 30"  |

## 15"H Screen Clearance

Use when clearance at the bottom of screen is 15"H.

*Tip: 15"H clearance will align with Universal One-High storage.*

Use the width of your table and installed height of your screen to determine the appropriate screen size for your application.

*Tip: Maximum screen width listed.*

*Tip: If between table width sizes, refer to smaller size for both modular or parametric.*

*Tip: If between screen heights, refer to next highest size.*

| Installed Screen Height<br>Modular/<br>Parametric   | Table Width          |      |      |      |      |      |      |      |      |      |      |      |      |
|-----------------------------------------------------|----------------------|------|------|------|------|------|------|------|------|------|------|------|------|
|                                                     | 24"W                 | 30"W | 36"W | 42"W | 48"W | 54"W | 60"W | 66"W | 72"W | 78"W | 84"W | 90"W | 96"W |

| 54"H                                                | NA                   | NA   | NA   | NA   | 24"  | 24"  | 24"  | 24"  | 30"  | 30"  | 30"  | 30"  | 30"  |

**Boundary screens** attached to freestanding tables, connected in end-to-end, may have one screen on one segment that meets the width and height guidelines. The screen can attach to segment A or B, but not both. Width must be equal to or less than that listed for the worksurface width per specified height.

**Universal tables** connected end-to-end or in an L-configuration, where one segment extends at least 24" past the front edge of adjacent unit, may have boundary screen attached to it as long as each screen is equal to or less in width to that listed in matrix.

► See page 256

**Jetty or bubble jetty freestanding tables** can have boundary screen of equal or less width on one or both of the straight sides if they are attached to another table. In this situation each surface segment width determines the permitted width of the boundary screen boundary per the matrix.

► See page 256

**In-line connected tables with shared supports** are allowed one boundary screen on one segment only.

**Spanning** in-line tables or two freestanding tables is not permitted.

Freestanding Applications, continued

**Boundary screen** can be used on worksurfaces that are supported at one end with intermediate support as long as the support is screwed to the top of the storage in addition to the underside of the worksurface.

# Panel-Mounted and Tethered Applications

**Boundary screens** are considered panel-mounted or tethered when the universal worksurface is supported by a panel or is secured to a worksurface which is connected to a panel.

**Boundary screens** are attached to universal worksurfaces with included brackets. Brackets are located 7 1/2" from the outside edge on each side of the screen. They are 4"D x 2 1/8"W x 4"H.  
*Tip: Worksurfaces mounted to a panel, storage, or another worksurface require no less than two connection points when used with boundary screens.*

**Boundary screens** can be attached to the back edge of worksurfaces that are supported by side supports at the front and back edge, end panels, fixed pedestals, FrameOne open or closed loop legs, one cantilever and one side support, one center support and one side support, or one end panel.

**Worksurfaces** attached to a panel using a side support bracket, a cantilever, or center support panel must also use a side support bracket at the back edge when a boundary screen is attached.

**Universal boundary screens** can be attached to panel-mounted, flat, back edge of worksurfaces using two side support brackets.

**Boundary screens brackets** cannot overlap with support plates or structure of worksurface support.

**Boundary screens** can attach to the width edge of panel supported worksurfaces as well as worksurfaces in a variety of panel-mounted and tethered configurations.

**Universal tables** connected perpendicular to each other with a shared support plate where the return is at least 24"D and extends 24" past the user edge of main surface. A boundary screen can connect on one or both of sides in widths equal or less than the table segments.

**Universal tables** can include a corner connected on both sides by straight table with shared support plates. Boundary screens can connect to one or all sides in widths equal or less than the table segments.

**Universal tables** create U configuration where segments are connected with shared support plates and each segment extends at least 24" beyond user edge of adjacent table. Boundary screen can connect to one or all of sides in widths equal to or less than the table segments.

**Boundary screens** can be attached to worksurfaces that are supported at one side by worksurface to storage bracket applications (i.e. Universal towers, wardrobes, and lateral files).

Panel-Mounted and Tethered Applications, continued

Clearance of screen to bottom of leg is 0"H to 15"H

| Installed Screen Height<br>Modular/<br>Parametric   | Worksurface Width    |      |      |      |      |      |      |      |      |      |      |      |      |

| 54"H                                                | 24"                  | 30"  | 36"  | 42"  | 48"  | 54"  | 60"  | 66"  | 72"  | 72"  | 72"  | 72"  | 72"  |

Use when clearance at the bottom of screen is 0"H to 15"H.

Tip: The bottom of the screen aligns with the bottom of the table leg.

Use the width of your worksurface and installed height of your screen to determine the appropriate screen size for your application.

Tip: Maximum screen width listed.

# Universal Privacy/Modesty Screens

**Universal privacy/modesty screen** provides a boundary element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Series 5 and 7 worksurfaces, Elective Elements, Universal tables, and Universal panel-mount worksurfaces.

► Specifying, page 601

**Universal privacy/modesty screens** are available in one height, 25<sup>7</sup>/<sub>10</sub>" , with two mount location options to provide either privacy or privacy/modesty.

**Universal privacy/modesty screens** cannot be used on surfaces that have integrated rails or an additive SOTO rail.

**Universal privacy/modesty screen** is pin tackable.

The screen is attached to the worksurface using simple L-brackets and 1" screws.

## Product Details

**The edge of the screen** is comprised of two different materials. The upper segment is merle plastic. The lower portion is PET which can be specified in medium heather grey to provide contrast or dark heather grey for a uniform visual.

**The screen** may be used on 3/4"-1 1/2" thick worksurfaces.

**The width of the screen** can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

## Surface Materials

### Edge (lower segment)

- P630 Medium Heather Grey PET
- P631 Dark Heather Grey PET

### Brackets

- 7360 Merle

## Actual Dimensions

### Universal Privacy/Modesty Screen

|           |                                                   |
|-----------|---------------------------------------------------|
| Width     | 42", 48", 54", 60", or 66"                        |
| Height    | 25 <sup>7</sup> / <sub>10</sub> "                 |
| Weight    | 9.79 lb, 10.315 lb, 10.84 lb, 11.365 lb, 11.89 lb |
| Thickness | 3/4"                                              |

## Application Topics

**Universal privacy/modesty screen** mounts to worksurfaces using simple L-brackets and screws. The brackets are positioned 3 3/4" in from each side of the screen.

**Screen height attachment locations** are determined when specifying privacy (top of screen will be at 48") or privacy/modesty (top of screen will be at 42"). The location cannot be changed in the field.

**Privacy configuration** provides 19 1/2" of screen above the worksurface and 5 1/2" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 48"H Answer panel.

**Screen** can be mounted with a 1 1/8" cord drop or flush with no cord drop.

**Privacy/modesty configuration** provides 13" of screen above the worksurface and 11 7/10" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 42"H Answer panel.

**Both the privacy and privacy/modesty configurations** allow the height-adjustable desks to be lowered to the lowest position (22") while preserving pinch point gap. Privacy version will not interfere with integrated storage.

**Universal privacy/modesty screens** can be used with universal worksurfaces and tables where surface supports and leg brackets are not in same location of the screen L-bracket attachment points.

- Example 1 – Worksurfaces supported by a panel side bracket or cantilever can accept privacy/modesty screen placed 6" in from end with these brackets.
- Example 2 – Tables with cabby leg or double elliptical post C-legs can accept screens 6" shorter than total table width but not same width.

**Privacy/modesty screens** can also be used with Elective Elements surfaces with some restrictions when combined with gate leg or the Elective Elements adjustable-height leg.

**Privacy/modesty screens** must never be wider than the surface to which they are attached.

*Tip: It is recommended that CET SmartTools Planning aid be used to ensure proper application of screen to worksurface or tables.*

**When used with One-High integrated storage,** Universal privacy/modesty screens must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

# Universal Privacy Screens and Aligners

**Universal privacy screens** provide a boundary and privacy element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Series 5 and 7, Elective Elements, panel-supported Universal worksurfaces, and TS Series worksurfaces.

► Specifying, page 602

## Actual Dimensions

|                       |                                                                    |
|-----------------------|--------------------------------------------------------------------|
| <b>Height</b>         | 12½" or 18½"                                                       |
| <b>Overall Height</b> | 13½" or 19½"                                                       |
| <b>Width</b>          | 24", 30", 36", 42", 48", 54", 60", 66", 72", 78", 84", 90", or 96" |

*Tip: 13½"H screen aligns with a 42" datum from the floor. 19½" screen aligns with a 48" datum from the floor.*

## Product Details

**Universal privacy screens** are tackable and available in 13½"H and 19½"H, and have widths from 24"W to 96"W.

**The edge of the screen** is comprised of two different materials. The upper segment is merle plastic. The lower portion is PET which can be specified in medium heather grey to provide contrast or dark heather grey for a uniform visual.

**The screen** may be used on ¾"—1½" thick worksurfaces.

**The width of the screen** can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

**When fabric screens are placed directly adjacent to each other**, a small aligner can be placed in between the screens at the top to connect them for planar alignment. Aligners are ordered separately in packages of 10.

**Brackets** are included with screens. Two brackets are used on all screens.

**Universal privacy screen** slides onto brackets.

## Surface Materials

# Sarto Privacy/Modesty Screens

Sarto Privacy/  
Modesty Screens

**Sarto privacy/modesty screen** provides a light scale boundary element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration SE, Migration, Elective Elements, universal tables, and universal panel-mount worksurfaces.

► Specifying, page 604

**Sarto privacy/modesty screens** are available in overall heights from 24" to 30", with a privacy height option to provide varying levels of privacy and modesty.

**Sarto privacy/modesty screen** is pin tackable.

The screen is attached to the worksurface using simple L-brackets and 1" screws.

## Product Details

The screen may be used on 3/4"–1 1/2" thick worksurfaces.

Screens are available in modular or parametric sizes.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

**Weight of screens** are calculated as follows:  
Screen: 0.0044 lb per inch<sup>2</sup>  
Bracket: 0.2 lb per bracket.

## Application Topics

**Sarto privacy/modesty screen** mounts to worksurfaces using simple L-brackets and screws. The brackets are positioned 3 3/4" in from each side of the screen. Two L-brackets are included with screens narrower than 60"W. Three or four L-brackets are included on screens 60"W and wider.

**Worksurface type** is available for screens 60" wide or wider, and allows the Sarto privacy/modesty screen to mount to a scalloped worksurface (for example Bivi Height-Adjustable Desk).

Screen can be mounted to the back edge of the worksurface with a 1 1/8" cord drop or flush with no cord drop.

**Screens 36"W and narrower** can be mounted as side screens, and are always mounted flush to the edge of the worksurface. This application grows the footprint of the workstation by 9/16" per screen.

Screens are specified with a privacy height above the worksurface. A 1" thick worksurface is assumed. This privacy height sets the position of the brackets and cannot be changed in the field.

Screens are specified by first selecting an overall screen height (24"–30"), then specifying a privacy height. Privacy height is measured from the top of the worksurface. Allowable privacy height selection changes based on the specified overall height.

**All privacy heights** allow a height adjustable desk to be lowered to the lowest position (22") while preserving pinch point gap.

## To match screens

ordered on or before June 20, 2021, please consult the following information to determine proper privacy height.

- 24"H Screen, Privacy/Modesty Configuration – Privacy Height = 13 1/2"
- 24"H Screen, Privacy Configuration – Privacy Height = 16 1/2"
- 30"H Screen, Privacy Configuration – Privacy Height = 22 1/2"

**Sarto privacy/modesty screens** can be used with universal worksurfaces and tables where surface supports and leg brackets are not in same location of the screen L-bracket attachment points.

- Example 1—Worksurfaces supported by a panel side bracket or cantilever can accept privacy/modesty screen placed 6" in from end with these brackets.
- Example 2—Tables with cabby leg or double elliptical post C-legs can accept screens 6" shorter than total table width but not same width.

## Privacy/modesty screens

can also be used with Elective Elements surfaces with some restrictions when combined with gate leg or the Elective Elements adjustable-height leg.

## Privacy/modesty screens

must never be wider than the surface to which they are attached.

*Tip: It is recommended that CET SmartTools planning aid be used to ensure proper application of screen to worksurface or tables.*

## Surface Materials

### Screen

- Fabric
- See *Surface Materials*, page 724.

### Brackets

- 7360 Merle

## Actual Dimensions

**Width** 23"–70"

**Height** 24"–30"

**Thickness** 9/16"

# Sarto Privacy Screens

**Sarto privacy screens** provide a light scale boundary and privacy element for height-adjustable desks and fixed worksurfaces. It can be used with Ology, Migration SE, Migration, Elective Elements, universal worksurfaces, and TS Series worksurfaces.

► Specifying, page 606

## Product Details

**Sarto privacy screens** are tackable. They are available in four modular heights, 13½"H, 19½"H, 23½"H, and 35½"H, and have widths ranging from 24"W to 96"W. Screens can also be specified parametrically.

**The screen** may be used on ¾"—1½" thick worksurfaces.

**The width of the screen** can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

*Tip: It is recommended that CET SmartTools planning aid be used to ensure proper application of screen to worksurface or tables.*

**Brackets and hard stops** are included with screens. Screens narrower than 60"W use two brackets, while screens 60"W and larger utilize three brackets. The third bracket is centered on the width of the screen.

**Offset brackets** are included with 29"W screens, to help maintain appropriate pinch points between the screen and adjacent objects. Side screen option is available for screens 36"W and narrower.

**Sarto privacy screen** slides onto brackets.

**Alignment brackets** are available to help eliminate gapping and misalignment between back and side screens. Alignment brackets are available as their own style (**PSCB**).

**Weight of screens** are calculated as follows:  
Screen: 0.0044 lb per inch<sup>2</sup>  
Bracket: 1.2 lb per bracket.

## Surface Materials

### Screen

- Fabric
- See *Surface Materials*, page 724.

### Brackets and hard stops

- 7360 Merle

## Actual Dimensions

|                       |           |
|-----------------------|-----------|
| <b>Screen Height</b>  | 12½"—34½" |
| <b>Overall Height</b> | 13½"—35½" |
| <b>Width</b>          | 24"—96"   |

*Tip: Overall height is measured from top of mounting surface to the top of the screen.*

# Knit Screens

**Knit screens** provide light-weight space division. All screens mount in two positions for either desktop privacy or below worksurface modesty. Available in four widths.

► Specifying page 609

## Actual Dimensions

### 15"H Knit Screen

|               |                                                                                   |
|---------------|-----------------------------------------------------------------------------------|
| Screen width  | 20 $\frac{1}{4}$ ", 26 $\frac{1}{4}$ ", 32 $\frac{1}{4}$ ", or 38 $\frac{1}{4}$ " |
| Overall width | 21 $\frac{1}{2}$ ", 27 $\frac{1}{2}$ ", 33 $\frac{1}{2}$ ", or 39 $\frac{1}{2}$ " |
| Height        | 15"                                                                               |

*Tip: Overall width includes the width of both clamps.*

## Product Details

**15"H screens** mount to worksurfaces in privacy position or below the worksurface for modesty. In privacy applications, the overall height of the screen from the floor is 43 $\frac{1}{2}$ "H.

**Gap** between 15"H screen to top of worksurface is 1".

**Gap** between bottom of worksurface to 15"H screen is 1 $\frac{1}{2}$ ".

## Connections

**Clamps** allow attachment to worksurfaces  $\frac{1}{8}$ " to  $\frac{13}{16}$ " thick, which include Universal Worksurfaces and Tables, and Answer worksurfaces. Clamps cannot be used with Avenir 1 $\frac{1}{2}$ " thick worksurfaces.

**Clamps** are specified as a pair and ordered separately from the screen.

**15"H screen** mounts to the top or bottom of the clamp.

**Multiple screens** can share clamps that attach to a worksurface.

**Three clamps** can be used to support screens of various sizes.

**15"H screens** can be applied to the side of a worksurface.

**For corner privacy applications** where 15"H screens are desired on the back and side of the worksurface, the screen for use on the side of the worksurface should be specified 6" smaller. For example, a 30"D x 42"W worksurface with a 38 1/4"W x 15"H screen on the back, requires a 20 1/4"W x 15"H screen on the side.

**Screens** can be planned to match the width of the worksurface. However, if worksurfaces are slip-fit, screen sizes must be planned accordingly.

**For corner, 120° table applications**, the following screens can be used:

- 20 1/4"W screens can be used on tables with dimensions C and D each equal to 43".
- 20 1/4"W and 26 1/4"W screens can be used on tables with dimensions C and D each equal to 49".

*Tip: Corner, 120° tables with dimensions C and D each equal to 37" cannot accommodate screens.*

## Surface Materials

### Vertical surface fabric

Applies to knit screen:

- B902 Soft White
- B903 Fog
- B904 Sand

### Screen frame and foot

- 4799 Platinum only

### Clamp

- 4799 Platinum only

### Clamp adjustment knob and cover

- 7237 Slate only

## Application Topics

**15"H screens** can be used on fences in Post and Beam applications.

For attachment hardware style number and additional information, refer to the *Post and Beam Solutions Specification Guide*.

# Divisio Side Screen

**Divisio side screen** is magnetic and provides a territorial boundary between users. The user-movable functionality allows users to decide when and where they need additional privacy. The screens may be used on any 3/4"- to 1 1/2"-thick worksurface.

► Specifying, page 610

## Product Details

**Divisio side screen** can be made more permanent by adding two screws through the clamp. For 3/4" thick worksurfaces, c:scape, and FrameOne, a #10 x 3/4" countersunk screw is recommended. For worksurfaces over 3/4" thick, a #10 x 7/8" countersunk wood screw is recommended.

## Actual Dimensions

|               |                                                |
|---------------|------------------------------------------------|
| <b>Depth</b>  | 29 1/2" (total), 21 1/2" (sits on worksurface) |
| <b>Width</b>  | 1 1/4"                                         |
| <b>Height</b> | 14 1/4" (total), 11 5/8" (above worksurface)   |

# Universal Tables

**Universal tables** can be used in a variety of individual and team settings.  
 ▶ Specifying tables, page 622

**Table top** has a wood core with a High-Pressure Laminate or wood veneer surface and is 1<sup>3</sup>/<sub>16</sub>" thick.

**Radius corner** eliminates sharp edges and is appropriate for freestanding, mobile furniture.

**Edge profile** is continuous around all edges of the table.

## Product Details

### High-Pressure Laminate Tables

**Continuous edge profile** is available in two shapes.

3 mm edge profile      P-edge profile

Knife edge profile

**PVC-free, 3 mm edge profiles** are a proprietary polyolefin blend for all solid colors and seven woodgrain finishes. See surface material listing in this book for specific PVC-free availability.

**P-edge profile** rises slightly above the laminate surface and curves into a <sup>3</sup>/<sub>8</sub>" radius, which optimizes ergonomic benefit for the user.

**Knife edge with 3 mm user edge** is available on straight and tapered systems worksurfaces and on round tables.

**Edge profile finishes** are specified separately from laminate color.

### Wood Veneer Tables

**Edges** of worksurfaces are available in square (3 mm) profile.

Square (3 mm) edge profile

**Square (3 mm) edge profile** is achieved by adding wood veneer surfaces to table core. This technique can be applied to tables that are straight or curved.

### Connections

**Universal tables** are supported by bases or legs, which are ordered separately and installed in the field.

**Use the Table and Base Combinations matrix** to determine the type and number of bases you need to order for the tables you choose.

*Tip: Not all sizes and shapes of tables can be supported by bases.*

► Page 286

**Use the Table and Legs Combinations matrix** to determine the type and number of legs you need to order for the table you choose.

*Tip: Not all sizes and shapes of tables can be supported by legs.*

► Page 286

### Reinforcing channels

are available to support tables that are wider than 60"W and supported by legs. When installed, the channels add 1" below the table. Channels are available as an option on larger tables and are field installed. Select the reinforcing channel option if the table will be supported by legs. Channels are not required if the table is 96" or smaller and will be supported by T- or X-bases. Channels are required and are always included with tables 120" and larger.

### Underside of table

has inset locations that support slip-fit and nesting applications. Cabby legs can be positioned in a 45° or 90° orientation. Post legs are positioned in 45° orientation only.

► See *Table Leg Positions*, page 288.

90° orientation

45° orientation

**Legs installed in a 90° orientation** allow for greater storage and kneespace below the table.

**45° leg orientation** is a preferred aesthetic for many customers. Cabby legs installed at a 45° orientation will appear to have more curvature when viewed from the front edge of table.

**Legs may be installed inset** from the edge of the table to accommodate slip-fit planning. Amount of available space (3", 6", or 9") is measured from the edge of the table to the edge of the leg. Amount of slip-fit varies by table shape and size.

► See *Table Leg Positions*, page 288.

**Slip-fit planning** allows workstation footprint to expand or decrease, and is ideal for off-module applications.

**Table with 28 1/2"H legs** installed at 6" or 9" inset can slip over adjacent tables that are supported with 26"H legs.

**Adjustable-height legs** adjust 25 1/2"H to 31 1/2"H in 3/4" increments. Legs can be used to support the table in a standard height or nesting application.

**26"H legs** allow tables to nest underneath an adjacent table with 28 1/2"H legs or a panel-mounted worksurface.

**Spanner table** enables conferencing at the end of two tables that are placed back-to-back.

**52"W or 64"W spanners** should be used when tables are separated by a panel or Post and Beam.

## Universal Tables, continued

### Surface Materials

#### High-Pressure Laminate Tables

- Laminate
- ▶ See *Surface Materials Reference Manual*.
- Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- ▶ See *Surface Materials Reference Manual*.

#### 3 mm or P-edge profile

- Plastic

#### Wood Veneer Tables

- Wood veneer (standard)
- Customiz stain (option)
- Full-fill finish (option)

#### Square (3 mm) edge profile

- Wood veneer to match table

### Application Topics

#### Table Fit in Panel Environments:

**Dimensions on straight and transition tables** are  $\frac{1}{4}$ " less than nominal dimension. This allows for an easy fit of freestanding tables in panel-wrapped environments and allows tables to move in and out of the area with ease.

**Example:** A 48"W x 72"W corner is actually 47 $\frac{3}{4}$ "W x 71 $\frac{3}{4}$ "W.

**Mobile pedestals** up to 24 $\frac{1}{2}$ "H will fit under 26"H tables without reinforcing channels.

**Mobile pedestals** up to 27"H will fit under 28 $\frac{1}{2}$ "H tables without reinforcing channels.

**Tables with reinforcing channel** will reduce the available space by 1".

**Screens** can be used on corner, 120° tables.

- 24"W screens can be used on tables with dimensions C and D each equal to 43".
- 24"W and 30"W screens can be used on tables with dimensions C and D each equal to 49".

*Tip:* Corner, 120° tables with dimensions C and D each equal to 37" cannot accommodate screens.

### Shipping

**Palletizing** streamlines unloading and staging of worksurfaces. Identical worksurfaces ordered on the same line item are packed on pallets containing 5-50 worksurfaces depending on worksurface size. Remaining worksurfaces are packed individually in cartons. If palletizing is not desired, order in quantities of four or less per line item. For maximum unload efficiency, utilize pallet handling equipment at job site whenever possible. Wood veneer worksurfaces cannot be palletized.

**Hex conference tables 150"W or larger** are shipped in two pieces. Tight-joint fasteners are supplied for proper assembly.

# Bases for Universal Tables

**Pedestal-base tables**

fill a variety of needs for conference and work tables in general offices, institutions, and educational work spaces. Tables and bases are ordered separately.

► Specifying, page 637

**Adjustable leveling glides**

allow tables to remain level when installed on uneven floors.

**Column support** includes a cylindrical steel column and a base with feet.

T-base

X-base

**Product Details**

26"W or 36"W

26"W or 36"W

**Bases** are available 26"W and 36"W and are 27<sup>9</sup>/<sub>16</sub>"H.

**Surface Materials**

**Column support**

- Paint (standard)
- 9201 Polished Chrome (option)

**Base**

- Paint (standard)
- 9201 Polished Chrome (option)

**Application Topics**

**Table and Base Combinations**

► Page 286

**Shipping**

**Bases** are shipped knocked down (K.D.) and will require assembly.

# Legs for Universal Tables

**Legs** attach to a table to make it freestanding or tethered to Post and Beam.

► Specifying, page 638

**Alignment tab** helps installers locate proper leg position under the table.

**Cabby leg and adjustable-height legs** are available with locking casters or glides.

**Post legs** are available with non-locking casters or glides.

**Double post C-leg** is an individual support and is used at the ends of a table.

**Leveling glides**, included, allow table height to be adjusted on uneven floors.

**Elliptical leg** is available in glide version, either nesting or desk-height.

**Adjustable-height leg** adjusts from 25½"H to 31½"H in ¾" increments.

## Product Details

**Legs** support tables at 26"H or 28½"H overall, including table thickness.

**Table legs** are ordered separately and installed on site.

► See *Table and Leg Combinations*, page 287.

**Table legs** are non-handed to accommodate left- and right-hand applications.

**Table legs** cannot be used in a shared application with two tables. Radius corners do not provide enough attachment space for leg plate. When a shared leg application is required, order Universal Systems Worksurfaces.

**Cabby legs** can be installed in either a 45° or 90° orientation on most tables. Elliptical leg installed in the first inset position may only be in a 45° orientation. Single post legs can only be installed in a 45° orientation.

► See *Table Leg Positions*, page 288.

## Actual Dimensions

|                                            | Cabby leg   | Adjustable-height leg | Elliptical leg | Post leg    | Double post C-leg |
|--------------------------------------------|-------------|-----------------------|----------------|-------------|-------------------|
| Height* (standard)                         | 26" or 28½" | 25½"—31½"             | 26" or 28½"    | 26" or 28½" | 28½"              |
| Glide range, for legs equipped with glides | ¾"          | ¾"                    | 5/8"           | ¾"          | 5/8"              |

\*Height dimensions include the thickness of a table.

**Legs installed in a 90° orientation** allow for greater storage and kneespace below the worksurface.

**45° leg orientation** is a preferred aesthetic for many customers. Cabby legs installed at a 45° orientation will appear to have more curvature when viewed from the front edge of worksurface.

**Legs may be installed inset** from the edge of the worksurface to accommodate slip-fit planning. Amount of available space (3", 6", or 9") is measured from the edge of the worksurface to the edge of the leg.

**Slip-fit planning** allows workstation footprint to expand or decrease, and is ideal for off-module applications.

**Alignment tab** corresponds to under worksurface alignment slots in tables. Alignment features ensure legs are installed in the proper 45° or 90° orientation and slip-fit position.

**Table** with 28 1/2"H legs installed at 6" or 9" inset can slip over adjacent tables that are supported with 26"H legs.

**Adjustable-height legs** adjust 25 1/2"H to 31 1/2"H in 3/4" increments. Legs can be used to support the table in a standard height or nesting application.

**26"H legs** allow tables to nest underneath an adjacent table with 28 1/2"H legs or a panel-mounted worksurface.

| Bubble Jetty Tables                                                                                                                                                          | ⑤                                                                      | <i>Tip: Double post C-leg can only be applied to the square end of bubble jetty tables.</i>                                                           |
| Oval Tables, up to 36"D x 72"W<br><i>Tip: Oval tables 21"D x 42"W and 30"D x 42"W may only use legs with glides. Legs with casters may not be used on these table sizes.</i> | ④                                                                      |                                                                                                                                                       |

► See *Post and Beam Solutions Specification Guide* for tethered capsule tables support information.

*Tip: Hex conference tables and oval tables 42"D x 78"W and larger, can only be supported with T-bases.*

① = Number of legs to order.  
Blank spaces in matrix designate table and leg combinations that are not valid.

# Table Leg Positions

## Table leg positions

allow for slip-fit and nesting capabilities. Both 45° and 90° angled leg positions are available on most tables.

However, certain tables accommodate either 45° or 90° angled positions only. Leg positions on the underside of tables are shown at right.

## Legs installed in positions 1, 2, or 3

will vary in their distance from the worksurface edge:

**Position 1** is 3" from edge

**Position 2** is 6" from edge

**Position 3** is 9" from edge

*Tip: Positions 2 and 3 are not available on every table.*

# Wiring and Cabling Accessories

## Power and Data Strip

Powerstrip with cord  
and worksurface  
bracket

**Powerstrip includes**  
three simplex receptacles  
and space for customer-  
supplied voice/data outlets.

Powerstrip with cord  
and slatwall bracket

**Bracket** attaches  
to slatwall.

### Product Details

**Power and data strip**  
provides additional elec-  
trical and voice and data  
receptacles.

**Power and data strips**  
are field-installed on either  
a worksurface or on slatwall.  
Specify appropriate attach-  
ment bracket depending on  
application.

**Power and data strip  
worksurface bracket**  
attaches to worksurfaces  
59/64" to 15/8" thick.

### Wiring & Cabling

**Available** with an 8'-long  
cord with plug.

**Chicago, New York  
City, and Los Angeles**  
have special requirements.

**Underwriters Labora-  
tory (UL) listed.** These  
products have been designed  
to meet U.S. and Canadian  
national electrical and energy  
codes and most local building  
codes. Local electrical codes  
vary, so consult with your  
local authority having jurisdic-  
tion as they have final say if  
the products as installed are  
compliant with local code.  
Consult a qualified electrician  
or electrical engineer for  
proper installation of all elec-  
trical equipment.

### Surface Materials

**Power and data strip**

- 8043 Clear Anodized  
Aluminum cover with  
black faceplate

**Attachment brackets**

- 4799 Platinum paint only

## Answer Monitor Mount

# Answer media:scape Integration

## Shared Worksurfaces and Answer media:scape Assembly

**Answer media:scape integration** will leverage Answer's technology and space division capabilities to provide a more seamless technology experience for collaboration in open plans. The worksurfaces are offered in two shapes, tapered and D-shaped, and can be mounted at seated or standing height. They allow users to share information through integrated technology displays and facilitate a seamless flow of information during meetings. The media:scape assembly includes the monitor mount, a media:well and two PUCKs.

► Specifying, pages 644-647

**Monitors**, to be used with media:scape integration, must be CEC compliant with an HDMI input. It is recommended that the monitor be commercial grade or equivalent.

*Tip: Monitor not included with media:scape assembly.*

**One scaler** is standard for a single monitor.

**Media well** is included with the media:scape assembly and offers two power outlets and two PUCKs.

**Surfaces** are available in both High-Pressure Laminate and wood veneer.

**Shared worksurfaces** are supported by cabby legs, column, or a standing-height column.

**A shared worksurface, tapered or D-shaped**, must be used in order to integrate media:scape technology. Worksurfaces have a 3 mm edge banding along all three exposed sides. 1 mm edge banding is used on the side adjacent to the panel.

► See page 644

**Monitor mount** assembly attaches to a 30"W Answer panel.

**Wire manager** is included with shared worksurface and manages the cords going into the panel.

**PUCK** (Personal User Control Key) enables the seamless flow of information between team members.

► See page 646

*Tip: PUCKs are included with media:scape assembly.*

**Worksurface support bracket and cantilever locking brackets** are included with shared worksurface.

**Product Details****High-Pressure Laminate Worksurfaces**

**Front (user's) edge profile** is available in one shape.

**PVC-free, 3 mm edge profiles** are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. See *surface material listing* in this book for specific PVC-free availability. Edge profile finishes are specified separately from laminate color.

**Wood Veneer Worksurfaces**

**Front (user's) edge profile** is wood veneer with a square (3 mm) radius. Back edge and edge that joins to adjacent worksurfaces are flat. Wood edge color matches finish specified for worksurfaces.

**Steelcase Maintenance Agreement**

**media:scape worksurfaces** include a one year Steelcase maintenance agreement to provide an enhanced support system for media:scape settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

**Application Topics**

**Answer media:scape assembly and shared worksurface** must connect to a 30"W panel. A single, tackable acoustic skin must be used from the base to the top of the monitor mount assembly. Segmentation is allowed above the monitor mount.

*Tip: A tapered shared worksurface is shown in the illustration above. Monitor not included with media:scape assembly.*

**A 66"H or taller panel** must be used when applying a shared worksurface with standing-height column.

*Tip: A D-shaped shared worksurface is shown in the illustration above. Monitor not included in media:scape assembly.*

**Answer media:scape assembly** can accommodate a 40" or 42" wide monitor or a maximum of 75 pounds.

**Worksurface to Answer panel support bracket** is included with shared worksurfaces, and must be connected to a 30"W Answer panel.

**Power and Data**

**A power strip with four receptacles** is included with the media:scape assembly. Receptacles are available for powering the monitor and switch power supply. The 60" cord runs through the panel, and receives power from the media well.

**The media well** comes standard with the Answer media:scape assembly. It includes a 120" cord that is routed from the well, through the wireway, into the panel, down to the floor, and plugged in outside of the panel.

**Power kit and cable trays** can only be located in the base of the 30"W panel when the monitor mount is used.

► Specifying, page 647

**Surface Materials****High-Pressure Laminate Worksurfaces**

- Laminate
- See *Surface Materials Reference Manual*
- Open Line laminate (option)

A program including non-Steelcase laminates which are suitable for use on Steelcase products.

► See *Surface Materials Reference Manual*

**3 mm edge on laminate**

- Plastic

**Wood Veneer Worksurfaces**

- Wood veneer (standard)
- Custom stain (option)
- Full-fill finish (option)

**Edge**

- Wood veneer to match worksurface

**Cabby leg**

- Paint

**Column support**

- Paint

**Media well**

- 4799 Platinum

**Media well cover, wireway, transition bracket, cantilever bracket and worksurface to Answer panel support bracket**

- 7237 Slate plastic

## Answer Monitor Mount

**Answer monitor mount** attaches to Answer panels. It provides a clean aesthetic and can be used to project information in various applications. It is not used in conjunction with media:scape.

► Specifying, page 647

**Monitor attachment brackets** are used to attach monitor display to monitor mount.

**Power strip** is included in the monitor mount assembly, providing four receptacles.

**Monitor mount** connects to a 30"W panel only. Fabric skins are required when using the monitor mount.

**Product Details**

The monitor mount will affix to a 30" wide panel only. When using the monitor mount, fabric skins must be located behind monitor mount.

**Power strip cord** is routed in the interior of the panel and exits under the base trim. Plugging into the base is recommended. Monitor mount cord length is 10'.

*Tip: An adapter may be required to make the connection to the IEC C13 receptacle on the power strip in the monitor mount.*

**Answer monitor mount** can accommodate 40" and 42" monitors or a maximum of 75 pounds.

**Application Topics**

It is possible to place two monitors on an Answer panel run. Monitors will overhang adjacent panels.

**Single monitors** cannot be placed directly adjacent to one another. It is recommended to place a 30" panel between the two monitors.

**Monitor mount** can be used on panels 54"H and taller. Maximum height that the monitor mount can be installed at is 66"H. Minimum height that the monitor can be installed at is 24"H.

**A horizontal seam between two skins** cannot fall directly behind the monitor mount.

**Monitor mount brackets** must connect into in-line junctions. They cannot connect to L, T, or X junctions.

**Stability Guidelines**

**For runs over 8' and up to 12'6"**, must use at least a 30"W return panel when using monitor mount or media:scape integration. The monitor mount is not to exceed 66"H.

**Surface Materials**

**Monitor mount**  
• 7237 Slate

---

# Understanding Counterweights

|                                                        |            |
|--------------------------------------------------------|------------|
|                                                        |            |

**If a counterweight** is not required in any condition for a particular style number, the product specification page will indicate not required.

## Counterweight Requirements for Storage Products, continued

## Requirements for Freestanding Applications

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for lateral files, towers, workstation verticals, cabinets, and bookcases anchored to the floor.

**Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base)** secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

**Note:** **Local seismic requirements vary.** Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

**Tip:** Anchor bracket cannot be used with pedestals.

Floor anchor brackets for Universal with FrameOne foot secure lateral files and towers to the floor for stability or in seismic zones to reduce the risk of hazards during earthquakes.

**Note:** **Local seismic requirements vary.** Compliance with local code requirements is the responsibility of the customer or their authorized agent.

**Wall Anchors**

2. Counterweights are not required for lateral files, towers, workstation verticals, cabinets, and bookcases anchored to the wall.

For wall anchoring of lateral files, towers, workstation verticals, cabinets and bookcases, consult with the building's designated design professional (architect or engineer) and work with local codes authorities for approvals to ensure adequate support when product is fully loaded.

**Ganging Brackets**

3. Counterweights are not required for lateral files, towers, workstation verticals, cabinets, and bookcases ganged back-to-back with ganging hardware.

TS Series towers which do not include ganging hardware, order 8425808SR from Service Parts.

**Counterweights**

Units ganged side-by-side **require** counterweights.

## Requirements for Panel Applications

Panel stability guidelines must be met prior to determining counterweight requirements.

► See *Panel Stability Guidelines* in the appropriate panel specification guide. (Storage may support panel stability)

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for Two Drawer lateral files installed right below a work surface attached to the panel system when the application is mirrored back-to-back (a two-pack minimum).

TS Series underworksurface lateral files are only intended for use under a panel-mounted work surface and cannot be used as freestanding.

2. Counterweights are not required for One-High and 1.5-High lateral files and cabinets used with an intermediate support, when the application is mirrored back-to-back (a two-pack minimum).

*Note: This includes storage either perpendicular or parallel to the panel.*

3. Counterweights are not required for One-High, 1.5-High, and Two Drawer lateral files and cabinets used with a storage-to-panel bracket to support the panel run if the application is mirrored back-to-back (a two-pack minimum) and the panel run is equal to or greater than 6'.

4. Counterweights are not required for towers used with a storage-to-panel connector to support the panel run, if the application is mirrored back-to-back (a two-pack minimum) and the panel is equal to or greater than 5'.

## Counterweight Requirements for Storage Products, continued

**Requirements for c:scape Tethered Applications**

c:scape stability guidelines must be met prior to determining counterweight requirements.

► See *c:scape Stability Guidelines* in the *c:scape Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for 1.5-High lateral file and low storage 48"W or smaller tethered to a c:scape beam when the beam width is 6' or larger.

3. Counterweights are not required for 1.5-High lateral file or low storage tethered to a c:scape beam when the storage is the same size and mirrored back-to-back on both sides of the beam.

2. Counterweights are not required for 1.5-High lateral file and low storage tethered to a c:scape beam when the beam has mid storage mounted parallel and the beam length is equal to or greater than the combined low storage width.

## Requirements for Answer Freestanding Desk Applications

Answer Freestanding Desk guidelines must be met prior to determining counterweight requirements.

► See *Answer Freestanding Desk Stability Guidelines* in the *Answer Freestanding Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. A counterweight is not required for a single Two Drawer lateral file attached to desks connected in an L-configuration.

2. A counterweight is not required for a single Two Drawer lateral file attached to a desk made with corner, extended corner, or 120° corner workspaces.

L-configurations with two or more lateral files **require** counterweights in each file.

Configurations with two or more lateral files **require** counterweights in each file.

Counterweights are **required** for all lateral files in stand-alone desk or credenza applications.

Hutch kit applications with lateral files always **require** counterweights in the lateral files.

## Counterweight Requirements for Storage Products, continued

### Requirements for Pedestals in Freestanding Applications

Counterweights are required for all freestanding applications.

1. Universal fixed pedestals converted to freestanding pedestals require a counterweight and drawer interlock system.

Universal fixed to freestanding pedestal conversion kit includes 1/8"H steel top, counterweight package, and drawer interlock system.

Fixed pedestals, converted to freestanding with a laminate or veneer top, require a counterweight and drawer interlock system. Drawer interlock system is available from service parts.

TS Series fixed pedestals are only intended for use under a panel-mounted worksurface and cannot be converted to freestanding.

Laminate fixed pedestals can never be freestanding.

2. Mobile pedestals include counterweight and drawer interlock system as standard.

### Requirements for Pedestals in Panel Applications

Panel stability guidelines must be met prior to determining counterweight requirements.

► See *Panel Stability Guidelines* in the appropriate panel specification guide.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

Counterweights are not required for fixed pedestals installed below a worksurface attached in a panel spine application. Single workstation applications **require** a counterweight in each pedestal.

## Requirements for Pedestals in Answer Freestanding Desk Applications

Answer Freestanding Desk guidelines must be met prior to determining counterweight requirements.

► See *Answer Freestanding Desk Stability Guidelines* in the *Answer Freestanding Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Single pedestal desks less than 48"W require a counterweight and an interlock. Single pedestal desks with 30"D pedestals require a counterweight and interlock.

*Tip: Interlock is available as a service part for Universal pedestals, 1043575SR for box/box/file and file/file configurations.*

2. Double pedestal desks 60"W and wider only require one pedestal with counterweight.

Less  
than  
60"W

All other desk applications with multiple pedestals **require** a counterweight for each pedestal.

3. Counterweights are not required for a single fixed pedestal in desk with hutch kit applications. Any additional pedestals within the application **require** counterweights.

**Requirements for Pedestals in Answer Freestanding Desk Applications, continued**

4. A counterweight is not required for a single fixed pedestal attached to a desk attached to another worksurface in an L-configuration. Any additional pedestals within the application require counterweights.

5. A counterweight is not required for a single fixed pedestal attached to desks made with corner, extended corner, or 120° corner worksurfaces. Any additional pedestals within the application require counterweights.

# Universal Pedestals

## 27"H fixed pedestals

are floor-standing and can support worksurfaces at 28½"H.

- Specifying, page 650
- Specifying *Storage Accessories*, page 711

**Top** is open and accommodates attachment to a worksurface. Attachment hardware is included.

**Lock** is standard on pedestals and secures all drawers. Lock is located in the top drawer. Locks are standard factory-installed, keyed random.

- *Lock and Keying*, page 742

**Leveling glides** adjust to install pedestals on uneven floors. 25½"H pedestals have a 7/8" adjustable glide range, and 27"H pedestals have a 17/8" adjustable glide range.

**Mobile pedestals** fit under a worksurface and can be moved wherever storage is needed. They provide an auxiliary work-surface when you need more space to spread out your work.

- Specifying, page 654
- Specifying *Storage Accessories*, page 711

**Finished back and sides** are standard.

**Four casters** are hard composition and non-locking, with a full-rotation swivel mechanism. Casters are exposed at the base of box/file pedestals and concealed with the base of box/box/file and file/file pedestals.

**Drawer fronts** are available in steel, laminate, or wood veneer. Mobile pedestals maintain drawer pull and drawer front alignment with other storage components that have a 3" base.

**Pull on proud-front pedestal** is available in a variety of shapes.

**3"H base** is integral to 27"H pedestal case.

**Pull on flush-front pedestal** is full width and integral. This pull is available on steel drawer fronts only. Full-width wood pull is available as an option. Wood pull, if selected, ships separately from pedestal and is field installed, attaching to the integral pull with double-sided tape.

**Drawers** open their full depth for total access to the contents. Box and file drawers are available.

**Top on mobile pedestal** is 1/8"H steel. Additional top options are available.

**Mobile pedestal cushion top** provides a temporary seat ideal for informal gatherings. Optional handle can be extended to easily transport mobile pedestal. Available factory- or field-installed.

- Specifying, page 680

## Product Details

**Box drawers** are a welded steel construction and available with proud or flush fronts. One divider is included with each box drawer.

**File drawers** are a welded steel construction and available with proud or flush fronts. Drawer body sides are full height and accommodate front-to-back filing of hanging letter-size file folders.

**Optional rails** accommodate side-to-side filing of letter-, A4-, and legal-size hanging folders.  
*Exception: Legal-size file folders cannot be filed in 17½"D or 18¾"D pedestals.*

**Drawer fronts** can be removed and changed in the field to create a different aesthetic or to replace damaged drawer fronts.

## Actual Dimensions

|                                                 | Fixed                | Box/File      | Box/Box/File and File/File |
|-------------------------------------------------|----------------------|---------------|----------------------------|
| Depth with flush steel front                    | 17½", 22⅝", and 28⅝" | 17½" and 22⅝" | 17½" and 22⅝"              |
| Depth with proud steel, laminate, or wood front | 18⅜", 23½", and 29½" | 18⅜" and 23½" | 18⅜" and 23½"              |
| Width                                           | 15"                  | 15"           | 15"                        |
| Height                                          | 25½" and 27"         | N.A.          | N.A.                       |
| Overall height with 1/8"H top                   | N.A.                 | 21"           | 27"                        |

**Pencil tray** to hold small office supplies is included with each box/box/file pedestal.

**Optional basic drawer interior** allows box/box/file pedestals to be ordered without rails, box drawer dividers, or pencil trays.

**Proud-front pulls** are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 128 mm and available on steel or wood veneer drawers. c:scape pulls (200 mm) are available on steel drawers only.

**Label holders** are available through Service Parts. Label holder fits inside the integral pull of flush-front drawers and over the top edge of drawer front on proud-front drawers.

**Safety interlock system** allows only one drawer to be opened at a time for added stability.

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 742

**Individual drawer locks** are available on file/file pedestals for applications where you want to limit access to each drawer. Pedestals include a security shield above each drawer to prevent unauthorized access. Individual locking drawers are only available with field-installed lock cylinders. Consecutive, specific, and random keying options are available. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 742

**Non-locking pedestal** is available as an option.

**27" H fixed pedestals** have base alignment with other Universal Storage components that have a 3" H base.

**Steel, laminate, and wood veneer tops** are available in place of standard 1/8" H steel tops. 1" H steel tops, 1 3/16" H laminate with square edge profile, 1 7/16" H laminate with bullnose edge profile on the front edge, and 1 3/16" H wood veneer with square edge profile.

**Handle of mobile pedestal cushion top** is retractable. In the stowed position, handle is flush with mobile pedestal front. In the travel position, handle is completely extended and articulates upward for longer distance transport. Cushion top is also available without a handle.

**Mobile pedestal cushion top for field-installation** can be used with mobile pedestals RPM2421CP, RPM2421CF, and RPM2421CW only.

**Basic cushion enhanced** is ordered separately for use on Universal mobile pedestals with metal, laminate, or veneer top. Basic cushion enhanced is field-installed and attaches to the existing top with hook and loop fastener.

**Basic cushion enhanced for field installation** can be used with mobile pedestals RPM1821CF, RPM1821CP, RPM1821CW, RPM2421CF, RPM2421CP, and RPM2421CW only.

**Counterweight packages** are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

## Connections

**Fixed pedestals** are intended to attach under a worksurface for security and support. Three pedestal depths are available to correspond with Universal Worksurface depths. Proud-front pedestals exactly match the depth of Universal Worksurfaces. Flush-front pedestals are 7/8" shorter.

**Filler** conceals the gap that may exist between the face of a panel and the back of a 27" H pedestal. Fillers are also used to provide stability for pedestal and worksurface configurations that are not panel-wrapped.

*Tip: Fillers for proud front pedestals conceal a 1/2" gap. Fillers for flush front pedestals conceal a 1 3/8" gap.*

**Freestanding applications** that don't require attachment to a worksurface should be used with a conversion kit that includes a steel top, counterweight package, and components to convert the locking system to a safety interlock system.

► **Page 653**

**Field-installed accessories** are available, including pencil trays, stationery trays, dividers, and rails.

► **Page 711**

## Wiring & Cabling

**Fixed pedestals** do not accommodate cable-routing. Plan accordingly when installing pedestals underneath worksurfaces with grommets or other cable-routing accessories.

### Shipping

**Fixed pedestals** are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

**Mobile pedestals** are shipped in corrugated board to minimize damage during transport.

# Universal Sliding Door Bins

For Use with Answer

**Universal sliding door bins** attach to panels with an on-module bracket and provide overhead storage in the work space. Door is available in steel or wood.

► Specifying, page 658

**Safety catch** locks overhead storage unit to frame to prevent accidental removal.

**On-module attachment brackets** are used to mount bins on panels of the same width as bins and are included with the bin as a standard component.

**Steel, laminate, and wood front doors** glide smoothly from one side of the case to the other.

**Bin** ships assembled.

**Metal backstop** prevents notebooks and equipment from damaging panel surface.

**Lock** is standard on bins to secure the door. The door can be locked in the closed position on either the right- or left-hand side of the bin. Lock is located underneath the center of the shelf. Lock is standard factory-installed, keyed random. A no-lock option is available.

► *Lock and Keying*, page 742

**Recess** beneath unit can accommodate a shelf light.

► For lighting, see *Answer Freestanding Specification Guide*.

## Product Details

**On-module attachment brackets** are independent of the storage bin and unique to the panel system they are used on. If the storage bin needs to be attached to a different panel in the future, additional on-module attachment brackets can be purchased through Service Parts.

**Vertical off-module brackets**, optional, can be used to mount one or two sides of an overhead bin off-module on Answer, Kick, Avenir, and Montage with vertical slot patterned panels. To mount an overhead bin with one side off-module, specify with one vertical off-module bracket. To mount an overhead bin with two sides off-module, specify with two vertical off-module brackets. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin.

**Vertical off-module brackets** are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

## Actual Dimensions

|               |                                  |
|---------------|----------------------------------|
| <b>Depth</b>  | 15 <sup>3</sup> / <sub>4</sub> " |
| <b>Width</b>  | 36", 42", 48", 60", 66", and 72" |
| <b>Height</b> | 16 <sup>1</sup> / <sub>4</sub> " |

**Upmount brackets**, optional, are for use on Answer, Kick, Avenir, and Montage. Brackets enable overhead storage to be used on lower panel heights. Bins using an upmount bracket must be installed on a panel of the same width.

**Two upmount bin brackets** can be hung side-by-side in an in-line, T-, or X- application. Bin can be upmounted on slatwall skin as long as there is not another bin or another slatwall skin on the adjacent in-line panel.

**Omit brackets option** must be specified when bin is being used in hutch kit application, or when attaching bin to a horizontal wall attachment bracket. Order hutch kit separately.

**Lock in bin** is concealed from view beneath the shelf. Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 742

**Shelf lights** are available for use beneath bins. Lights recess into the bottom of the overhead storage unit.

► For lighting, see *Answer Freestanding Specification Guide*.

**Dividers** are available as an option for use on bins. Dividers ship in a package of four.

**Back of storage bin** is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

**Overhead storage bin height** accepts standard and A4 binders.

**When mounting on Answer or Kick panels**, top of bin cannot be loaded.

## Connections

**Steel support** hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

**Width of overhead bin** must match the width of the panel or panels that it is attached to when using an on-module bracket. Bin may span up to two frames.

**Universal sliding door bin** may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

**Horizontal wall attachment brackets** are available to attach storage bins to wall of building. Specify as separate style number.  
*Tip: Select the omit brackets option when ordering the bin.*

## Wiring & Cabling

**Vertical wire managers** are available to conceal cords that are routed from light mounted beneath overhead storage.  
► For lighting, see *Answer Freestanding Specification Guide*.

# Universal Over The Case and In The Case Bins

For Use with Answer

**Universal over the case bins** can be attached to panels with an on-module bracket and provide overhead storage in the work space.

► Specifying, page 660

**Safety catch** locks overhead storage unit to frame to prevent accidental removal.

**On-module attachment brackets** are used to mount bins on panels of the same width as bins and are included with the bin as a standard component.

**Backstop** prevents notebooks and equipment from damaging the surface of the panels or walls.

**Bin** is steel and ships assembled.

**Universal in the case bins**, attach to panels with an on-module bracket and provide overhead storage in the work space. Door is available in steel, laminate, or wood.

► Specifying, page 662

**Flat-front and radius-front lift-up doors** open and close quietly. When up, the doors rest on top of the case to provide more storage space inside.

**Locks** are standard on bins to secure the door(s). Lock is located underneath the center of the shelf. Locks are standard factory-installed, keyed random. Two-door units are keyed alike. A no-lock option is available.

► Lock and Keying, page 742

**Recess** beneath unit can accommodate a shelf light.

► For lighting, see *Answer Freestanding Specification Guide*.

**Flat-front lift-up doors** (steel, laminate, or wood) recess into the overhead storage bin.

## Product Details

**On-module attachment brackets** are independent of the storage bins and unique to the panel system they are used on. The following style number suffixes indicate the panels they attach to:

**TAK** = Answer and Kick  
**AVR** = Avenir

**MON** = Montage

If the storage bin needs to be attached to a different panel in the future, additional on-module attachment brackets can be purchased through Service Parts.

**Vertical off-module brackets**, optional, can be used to mount one or two sides of an overhead bin off-module on Answer, Kick, Avenir, and Montage with vertical slot patterned panels. To mount an overhead bin with one side off-module, specify with one vertical off-module bracket. To mount an overhead bin with two sides off-module, specify with two vertical off-module brackets. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin.

**Vertical off-module brackets** are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

## Actual Dimensions

**Depth** 15<sup>3</sup>/<sub>4</sub>"

**Width** 24", 30", 36", 42", 48", 60", 66", and 72"

**Height** 16<sup>1</sup>/<sub>4</sub>"

**Upmount brackets** are optional for use on Answer, Kick, Avenir, and Montage. Brackets attach the bin near the top of 54"H panel to enable overhead storage to be used on lower panel heights. Bins using an upmount bracket must be installed on a panel of the same width.

**Two upmount bin brackets** can be hung side by side in an in-line, T-, or X-application. Bin can be upmounted on slatwall skin as long as there is not another bin or another slatwall skin on the adjacent in-line panel.

**Omit brackets option** must be specified when bin is being used in hutch kit application, or when attaching bin to a horizontal wall attachment bracket. Order hutch kit separately.

**Picture frame door**, optional, is available on Universal over the case and in the case bins with flat steel fronts only, and is an aluminum door frame with acrylic or glass inserts. An omit insert option is also available which allows custom material to be field installed in the aluminum door frame.

**The acrylic door insert** is a white acrylic. A door assist mechanism is not available as an option on a bin with an acrylic door insert due to the light weight door.

**The glass door insert** is tempered translucent glass. If a glass door insert option is specified and a door assist mechanism is also required, an assist mechanism must be specified as a separate option to the storage bin. Due to the weight of the glass door insert, it is recommended to specify the optional door assist mechanism.

**The omit insert custom material** must be ordered from a material vendor. If an omit insert option is specified and a door assist mechanism is also required, an assist mechanism must be specified as a separate option to the storage bin. The weight of a custom insert on a Universal over the case bin can not exceed 10½ pounds. An insert for a Universal over the case storage bin door with an assist mechanism must weigh within the range of 7¼ pounds to 10½ pounds or the assist mechanism will not function correctly. Custom materials being installed in a door insert must comply with local building codes. Consult with local authorities to determine compliance requirements. The use of safety glass is required if installing custom glass in a door insert. To install customer provided material in a picture frame door with the insert omitted, make sure the material is cut precisely to the sizes listed on the dimensions matrix.

► See *Dimensions for Custom Field-Installed Picture Frame Door Inserts*, page 325

**Door assist mechanism**, optional, consist of a gas cylinder and spring that provides an assisted open and close of the door. When opening the door, the spring pulls the door to the fully recessed position. When closing the door, the assist mechanism will slowly close the door. Universal bins ship with two assist mechanisms per door when specified.

**Lock in bin** is concealed from view beneath the shelf. Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Two-door units are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 742

**Shelf lights** are available for use beneath bins. Lights recess into the bottom of overhead bins.

► For lighting, see *Answer Freestanding Specification Guide*.

**Divider** is available as an option on overhead bins. Dividers ship in a package of four.

► Page 328

**Back of storage bin** is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

**Overhead storage bin height** accepts standard and A4 binders.

**When mounting on Answer or Kick panels**, top of bin cannot be loaded.

## Connections

**Steel support hooks on end supports** insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

**Width of overhead bin** must match the width of the panel or panels that it is attached to when using an on-module bracket. Bin may span up to two frames.

# Universal Over The Case and In The Case Bins for Use with Answer, continued

**Universal over the case bin** may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

**Horizontal wall attachment brackets** are available to attach storage bins to wall of building. Specify as a separate style number.  
*Tip: Select the omit brackets option when ordering the bin.*

**Wall channels** are available to attach bins to concrete or block walls. Wall channels can be used to attach bins and tackboards to wood, dry wall, or plaster walls if the wall is reinforced.

**Wall channel horizontal brace** is required with wall channels to support bins that are wider than 48".

## Wiring & Cabling

**Vertical wire managers** are available to conceal cords that are routed from light mounted beneath overhead storage.  
▶ For lighting, see *Answer Freestanding Specification Guide*.

## Surface Materials

### Overhead bin

- Paint

### Lock

- 9201 Polished Chrome
- 9250 Ember Chrome (optional)

### On-module and vertical off-module attachment brackets

- Black paint only

### Horizontal off-module attachment brackets for Montage

- Paint to match bin

### Upmount brackets

| 70"       | 35" (per door)  | 15.933"                           | 34.314"           | 0.138"                |
| 72"       | 36" (per door)  | 15.933"                           | 35.314"           | 0.138"                |
| 75"       | 37½" (per door) | 15.933"                           | 36.314"           | 0.138"                |

*Tip: A custom insert cannot be factory installed. Custom insert must be ordered from a material vendor and will not be handled like a Steelcase Customer's Own Material. In selecting materials for customer supplied inserts, consider material characteristics, such as effects from thermal changes, humidity changes, aging characteristics, and strength of material. Do not use materials that allow the overall size of the custom insert to deviate by amounts larger than the acceptable tolerances listed in the matrix.*

## For Universal In the Case Bins

| Bin Width | Door Width      | Custom Picture Frame Door Inserts |                   |                       |

| 75"       | 37½" (per door) | 15.000"                           | 36.664"           | 0.138"                |

*Tip: A custom insert cannot be factory installed. Custom insert must be ordered from a material vendor and will not be handled like a Steelcase Customer's Own Material. In selecting materials for customer supplied inserts, consider material characteristics, such as effects from thermal changes, humidity changes, aging characteristics, and strength of material. Do not use materials that allow the overall size of the custom insert to deviate by amounts larger than the acceptable tolerances listed in the matrix.*

# Universal Shelves and Universal Personal Shelves

For Use with Answer

**Universal shelves**—supported by Answer, Kick, Avenir, and Montage—provide overhead storage in the work space.

► Specifying, page 665

**Universal personal shelves** provide a wall-supported surface that attaches to Answer, Kick, and Avenir.

► Specifying, page 666

## Metal backstop on Universal shelves

prevents notebooks and equipment from damaging panel surface. Universal personal shelves do not have a backstop.

## On-module attachment hooks

are integral to the end supports and are used to mount shelves on panels of the same width as bins.

**Safety catch** locks shelf units to frame to prevent accidental removal.

**Shelves** are steel and ship ready to assemble.

## Actual Dimensions

|        | Universal shelves                                          | Universal personal shelves                            |
|--------|------------------------------------------------------------|-------------------------------------------------------|
| Depth  | 14 <sup>3</sup> / <sub>4</sub> "                           | 13 <sup>1</sup> / <sub>16</sub> "                     |
| Width  | 24", 30", 36", 42", 48", 60", and 72"                      | 24", 30", 36", 42", and 48"                           |
| Height | 7 <sup>1</sup> / <sub>2</sub> " (Kick, Answer, and Avenir) | 1 <sup>1</sup> / <sub>16</sub> " (thickness of shelf) |

## Product Details

**Shelf lights** are available for use beneath shelves. Lights recess into the bottom of the overhead storage unit.

► For lighting, see *Answer Freestanding Specification Guide*.

**Dividers** are available field installed for use on Universal shelves. Dividers ship in a package of four. Dividers cannot attach to Universal personal shelves.

**A 1<sup>1</sup>/<sub>2</sub>" gap** exists between the personal shelf and the panel to allow for cable routing.

**The height dimension of the bracket** (from top of personal shelf to the bottom of the bracket) is 6<sup>1</sup>/<sub>2</sub>" H.

## Connections

**Steel support hooks** on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

**Universal shelf** may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

**On-module attachment hooks** cannot be attached to upmount brackets.

**Width of shelf** must match the width of the panel or panels that it is attached to with the on-module brackets. Shelves may span up to two frames.

## Wiring & Cabling

**Vertical wire managers** conceal cords and cables that are routed vertically outside of the panels.  
▶ For lighting, see *Answer Freestanding Specification Guide*.

## Surface Materials

**Shelf**  
• Paint

## Application Topics

**Storage Capacities and Dimensions**  
▶ For interior dimensions, see *Storage Capacities and Dimensions* in the *Storage Specification Guide*.

**Hanging components** cannot be hung in front of a double-pane window.

**Hanging components** cannot be used next to a double-pane window at a 90° corner.

**Bracket Application Rules**

▶ Page 330

**Stability Guidelines**

▶ Page 148

## Guidelines for Stackable Components

**TS Series bins, Universal bins, and shelves** can hang from the first stacked tier only.

# Dividers

**Dividers**

► Specifying, page 666

**Product Details**

**Divides** space in panel-supported bins and Universal shelves. Dividers will not work in bins and shelves introduced prior to March 2007.

**Divider** can be used on hutch kit.

**Specifying**

**A carton of four dividers** is available as an option on overhead bins and Universal shelves.

**Surface Materials**

**Divider**  
• White plastic only

**Actual Dimensions**

|               |                       |
|---------------|-----------------------|
| <b>Depth</b>  | 7½"                   |
| <b>Width</b>  | ¼"<br>1½" at the back |
| <b>Height</b> | 6½"                   |

**Dividers for Overhead Storage Bins and Shelves Introduced prior to March 2007**

► Specifying, page 667

**Product Details**

**Divides** space in bins and shelves.

**Surface Materials**

**Divider**  
• Clear textured plastic only

**Actual Dimensions**

|               |                                   |
|---------------|-----------------------------------|
| <b>Depth</b>  | 10¾"                              |
| <b>Width</b>  | 4" at the back<br>½" at the front |
| <b>Height</b> | 4½"                               |

# Slim Shelves

Slim Shelves

**Slim shelves** provide a panel-supported surface that attaches to Answer, Kick, Avenir, and Montage with panel-specific brackets.

► Specifying, page 671

**Slim shelf** is an extruded aluminum shelf that provides storage for small items.

## Product Details

**Slim shelves** attach to Answer, Kick, Avenir, and Montage with panel-specific brackets.

**Gap at back of slim shelf** allows routing of shelf light cord.

**Slim shelves** can be mounted off-module. No more than 12" overhang on either side of panel is recommended. Brackets attach on vertical seams of panel, while the shelf adjusts off-module on the brackets.

**Two attachment brackets** are included with shelves less than or equal to 48"W. Two attachment brackets and a mid-span support are included with shelves wider than 48"W.

**Answer will not support** two shelves installed end to end.

## Surface Materials

**Slim shelves**

- Paint

**Attachment brackets**

- Painted to match shelf

## Actual Dimensions

**Depth** 6<sup>3</sup>/<sub>8</sub>"

**Width** 24", 30", 36", 42", 48", 60", 72", 96"

# Bracket Application Rules for Bins and Shelves

For TS Series Bins, Universal Sliding Door Bins, Universal Over the Case Bins, Universal In the Case Bins, and Universal Shelves

## Bracket Application Matrix

| Panels  | TS Series Bins, Universal Bins, and Universal Shelves—On-Module | Universal Bins—Single Side Vertical Off-Module | Universal Bins—Two Sided Vertical Off-Module | Universal Bins—Horizontal Off-Module (for use with and Montage only) | Universal Bins—Upmount |
|---------|-----------------------------------------------------------------|------------------------------------------------|----------------------------------------------|----------------------------------------------------------------------|------------------------|
| Answer  | •                                                               | •                                              | •                                            |                                                                      | •                      |
| Kick    | •                                                               | •                                              | •                                            |                                                                      | •                      |
| Avenir  | •                                                               | •                                              | •                                            |                                                                      | •                      |
| Montage | •                                                               | •                                              | •                                            | •                                                                    | •                      |

### On-Module Brackets and Hooks

**On-module brackets and hooks** are used to mount overhead bins and Universal shelves to panels with vertical slot patterns. Answer, Kick, Avenir, and Montage panels can support on-module attachment brackets.

**Universal personal shelves** can attach on-module to all panels except Montage.

**Width of overhead storage unit** must match the width of the panel or panels that it is attached to. Storage bins or shelves may span up to two panels.

**Additional support** for stability may be required when shelves and overhead storage bins are attached to panels. Counterbalancing loads on the opposite sides of the panels increases stability. *Tip: See Stability Guidelines in each corresponding specification guide.*

**On-module attachment brackets** install in panel seams.

**On-module brackets** can be used above and adjacent to slatwall on Answer and Montage Panels.

**On-module brackets** can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

**Off-module brackets** are used with bins up to 12" larger than the panel, allowing them to overhang the panel seam.

### Off-Module Brackets

**Vertical off-module brackets, optional**, can be used to mount one or two sides of the overhead bin off-module on Answer, Kick, Avenir, and Montage with vertical-slot-patterned panels. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin. Vertical off-module brackets allow bins to be installed a maximum of 12" off-module. Vertical off-module brackets can be used with 30"W to 60"W Montage bins only.

**Vertical off-module brackets** can be used above and adjacent to slatwall on Answer and Montage panels.

**Vertical off-module brackets** can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

**Horizontal off-module brackets, optional**, accommodate off-module installations of overhead storage bins on panels with horizontal slot patterns. Enhanced off-module Montage frames can support horizontal off-module brackets. Horizontal off-module brackets can be used with 24"W to 48"W Montage bins only.

**Horizontal off-module brackets** can be used above and adjacent to slatwall on Montage panels.

**Horizontal off-module brackets** can be used with a panel stacker on Montage panels. Follow standard panel stacker guidelines for each panel.

**Enhanced off-module Montage frames** have horizontal slot patterns and must be specified for horizontal off-module Montage configurations.

**Horizontal off-module brackets** push bin out from panel 5/8" on enhanced off-module Montage panels.

**Horizontal off-module brackets** cannot span a vertical or joint where two frames come together on enhanced off-module Montage panels. Shift the bin to avoid the joint.

**Only two pairs of off-module brackets** and associated storage can be mounted per frame.

**Upmount brackets,** optional, can be used with Universal sliding door, Universal over the case, and Universal in the case bins. Brackets attach bins near the top of 54"H panels. TS Series bins and Universal shelves cannot be attached to upmount brackets.

**Upmount bin width** must match the width of the panel or panels that it attaches to. Upmounted bins and shelves cannot be supported off-module.

**Upmount brackets** can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

### Omit Brackets

**Omit brackets option** must be specified when bin is used in hutch kit or when attaching bin to a horizontal wall attachment bracket. Order hutch kit separately. Hutch kit supports bin at 66" height.

# Application Rules for Overhead Storage on Answer and Kick Panels

*Tip: For complete panel specific stability guidelines, see the corresponding panel specification guide.*

## Answer Panel

**Guidelines for Universal Bins.** Applies to universal sliding door bin or universal in the case bin on Answer and Kick panels.

**The following application restrictions** must be complied with when hanging universal overhead bins on Answer and Kick panels. Otherwise, standard Answer and Kick application guidelines apply.

- If bins or shelves are applied at an elevation higher than 66", a perpendicular panel of same height (or up to 24" lesser height) is required.
- The maximum panel run length when using a universal overhead bin on Answer or Kick panels is 12'.
- Top of bins and shelves are not designed to support the weight of a seated person. Bins and shelves may be mounted at 38"H or lower only if another panel-mounted component prevents it from being seated upon.
- When ganging binder bins, the use of a tie plate is required.

### **WARNING**

Failure to comply to these guidelines may result in personal injury.

## Kick Panel

# Universal One-High, 1.5-High, and Two Drawer Lateral Files

## One-High and Two Drawer lateral files

serve a dual purpose as high-density storage and as an inviting space for guests.

► Specifying, page 672

## 1.5-high lateral files

provide multi-zone storage for binders, hanging folders, and piling surfaces at a height which allows for comfortable guest seating in collaborative environments.

► Specifying, page 672

## Label holders

are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on [www.steelcase.com/label](http://www.steelcase.com/label).

## Finished back

is standard.

## Three base options are available:

the universal 3" base, FrameOne foot, and c:scape glide. All three bases have the same overall height.

**Lock** is standard on lateral files and is located at top left corner of drawer. Locks are standard factory-installed, keyed random.

► Lock and Keying, page 742

## Actual Dimensions

**Depth with flush steel or open front** 18" and 23<sup>1</sup>/<sub>8</sub>"

**Depth with proud steel, laminate, or wood front** 18<sup>7</sup>/<sub>8</sub>" and 24"

**Width** 30", 36", and 42"

**Height** 16", 22", and 28"

**Pulls on flush-front lateral files** are full width and integral.

**Pulls on proud-front lateral files** are available in a variety of shapes.

**Top** is standard 1"H steel on units with steel fronts and standard 1<sup>3</sup>/<sub>16</sub>"H wood veneer on units with wood fronts. Other top options are available.

**Drawer fronts** are available in steel, laminate, or wood veneer.

**Leveling glides** adjust up to <sup>3</sup>/<sub>4</sub>" for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install lateral file on uneven floors.

**Drawers** are standard 12"H and open full depth for total access to the contents.

## Product Details

### Base options

Universal 3" Base

c:scape Glide Base

FrameOne Foot Base

*Tip: All base options have same overall height.*

*Tip: Power infeed sits proud of the panel approximately 3" and will interfere with Universal storage with the Universal 3" base, FrameOne foot base, or c:scape glide.*

**Flush-front pull** is full width and integral with the drawer. Pull is available on steel drawers only.

Contemporary pull

Handle pull

Jazz pull

Bar pull

c:scape pull

**Proud-front pulls** are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer drawers. c:scape pulls (200 mm) are available on steel only.

**Drawer interiors** include one hanging folder bar per drawer in each 18"D case and two rails per drawer in each 24"D case. Alternative interiors are available as options.

**Hanging folder bar** accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders. Additional bars are available and must be specified separately.  
▶ Page 712

**Rails** accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. See *Storage Capacities* for additional details. Additional rails are available and must be specified separately.

▶ For interior dimensions, see *Storage Capacities and Dimensions* in the *Storage Specification Guide*.

**Dividers** accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers per drawer, 12"H file drawers also include one hanging folder bar per drawer. Additional dividers are available and must be specified separately.  
▶ Page 713

**Safety interlock system** allows only one drawer to be opened at a time.

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.  
▶ *Lock and Keying*, page 742

**Individual drawer locks** are available as an option for an application that would limit access to each drawer. Lateral files include a security shield between drawers to prevent unauthorized access. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying are available. Field-installed lock cylinders must be specified separately.  
▶ *Lock and Keying*, page 742

**No-top lateral files** are available for use with cushion top or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

**Laminate and wood veneer tops** with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the lateral file.

**FrameOne top** matches the height of a FrameOne bench. A 3/4"H wood or laminate top floats above a painted steel security top using six black plastic spacers. FrameOne top can be specified on 28"H files only, making the overall height 28 1/2"H.

## Universal One-High, 1.5-High, and Two Drawer Lateral Files, continued

**Security top** is available as an option for installations where the file will be installed beneath a worksurface, but not physically attached. Thin steel top prevents unauthorized access to the contents of the cabinet. Security top is not structural and can be specified on 28"H files only. Security top reduces overall height of file to approximately 27"H.

**Ganging hardware** is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

**Counterweight packages** are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

### Connections

**Intermediate support** is used with Universal One-High or 1.5-High storage as a worksurface support allowing for nesting of low storage.

**c:scape beam tether bracket** connects 1- and 1 1/2-high storage to provide added stability to the c:scape beam.

**Cushion top** is ordered separately for use on One-High, 1.5-High, and Two Drawer lateral files without top.

**Basic cushion enhanced** is ordered separately for use on Universal One-High, 1.5-High, and Two Drawer laterals with metal, laminate, or veneer top. Basic cushion enhanced is field-installed and attaches to the existing top with hook and loop fastener. *Tip: Basic cushion enhanced is available on Universal lateral files with a top only.*

**When applying the basic cushion enhanced on 30"W or 36"W Universal laterals with an open configuration**, a support brace must also be specified.

**Storage to panel bracket** connects One-High, 1.5-High, 2-High, 3-High laterals and cabinets to panel to provide added stability to panels and eliminate the need for return panels.

► See page 705

Wood veneer with square edge profile      Laminate with square edge profile

**Field-installed tops** are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual lateral file, or larger tops can be used to connect files to make a credenza.

► Page 708

**Field-installed accessories** are available, including drawer accessories and counterweight packages.

► Page 711

**Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base)** secures lateral

files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

*Note: Local seismic requirements vary.*

*Compliance with local code requirements is the responsibility of the customer or their authorized agent.*

*For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor bracket cannot be used with pedestals.*

► Page 717

**Overfile cabinets** are separate components that are field installed on top of lateral files, combination cabinets, storage cabinets, and wardrobe cabinets to provide space for additional files, ring binders, or miscellaneous storage.

► See *Storage Specification Guide*

### Surface Materials

**Lateral, including steel top, fixed shelf, and integral pulls**

- Paint

**Contemporary, handle, jazz, and bar pulls**

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

**c:scape pull**

- 4140 Arctic White Gloss
- 4144 Black Gloss
- 4799 Platinum Metallic

**Wood veneer top, lift-up door, and drawer fronts**

- Wood veneer—
    - Open pore finishes
    - Customiz stain (option)
  - Full-fill finish (option) is available on field-installed wood veneer tops only.
- Tip: Specify file with no top option.*

**Laminate top, lift-up door, and drawer fronts**

- Laminate
- Open Line laminate (option)

**Lock**

- 9201 Polished Chrome
- 9250 Ember Chrome (option)

**Drawer bodies, hanging folder bars, rails, and dividers**

- Black

**Cushion top**

- Fabric
- Leather

**Basic cushion enhanced**

- Fabric
- Tip: For both cushion top and basic cushion enhanced: fabric patterns with a linear design will always be applied from the front to back of the unit or the depth of the unit. Pattern matching will not be done on COM.*

**Cushion top** will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Era
- Elmosoft Leather
- Foundation
- Gaja
- Leather
- Select Surfaces leather
- Stand In
- Vinyl

**Cushion top** will be manufactured in a two seam pattern for all approved standard patterned seating upholstery, leather, vinyl, COM leathers, and COM vinyls. All approved standard textured upholsteries will also be manufactured in a two seam pattern including leather, vinyl, COM leathers, and COM vinyls.

**Basic cushion enhanced** will be manufactured in a two seam pattern for all approved standard seating upholstery and Customer's Own Materials (COMs).

*Note: Leathers and vinyls are not approved for basic cushion enhanced.*

### Application Topics

#### Storage Capacities and Dimensions

► See *Storage Specification Guide*

#### Counterweight Requirements for Storage Products

► Pages 301–308

### Shipping

**Lateral files** are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

**Counterweight packages** ship separately from case and must be field-installed.

# Universal Towers and Workstation Verticals

**Towers** provide storage of a variety of work and personal items for an individual, including paper, binders, books, and coats.

► Specifying, page 682

**Finished back** is standard.

**Interior of tower** is available in a variety of configurations combining coat storage, fixed and adjustable shelves, and file drawers.

**Pull on flush-front tower** is integral and full height on doors and full width on drawers.

**Locks** are standard on door and drawers. Locks are standard factory-installed, keyed random. Door and drawer locks are keyed alike.

► Lock and Keying, page 742

**Three base options are available:** the universal 3" base, FrameOne foot, and c:scape glide. All three bases have the same overall height. All other universal towers are available with the universal 3" base only.

**Drawers** open their full depth for total access to the contents.

**Leveling glides** adjust up to 3/4" for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install tower on uneven floors.

**Top** is standard 1"H steel. Other top options are available.

**Door** is available in steel, laminate, or wood veneer. Hinges are European-style and allow doors to open to 110° for full access to the interior. Door is available hinged on left or right.

**Locker space** is 9" wide and standard with a coat rod.

**Pull on proud-front tower** is available in a variety of shapes.

**Drawer fronts** are available in steel, laminate, or wood veneer.

## Product Details

### Base options

**Universal 3" Base**

**c:scape Glide Base**

**FrameOne Foot Base**

**All base options** have same overall height. FrameOne foot base and c:scape glide base are only available on 18"D and 24"D openside towers.

*Tip: Power infeed sits proud of the panel approximately 3" and will interfere with Universal storage with the Universal 3" base, FrameOne foot base, or c:scape glide.*

## Actual Dimensions

**Depth with Flush Steel Front** 18", 23 1/8", and 29 1/8"

**Depth with Proud Steel, Laminate, or Wood Front** 18 7/8", 24", and 30"

**Width** 24"

**Height** 47 1/2", 52", and 65 1/2"

**Interior of tower** combines coat storage, box and file drawers, fixed and adjustable shelves.

**Door on full front towers** is full height and can be hinged on the left or right. Coat storage space is always located on the same side as the door hinge.

**Flush-front pull** is integral and full height on the door and full width on the drawers. Pull is available on steel doors and drawers only.

**Proud-front pulls** are available in the following styles—contemporary, handle, jazz, and bar. Door pull is 192 mm and drawer pulls are 128 mm. Proud-front pulls are available on steel, laminate, or wood veneer doors and drawers. c:scape pulls (200mm) are available on steel only.

**Lift-up door** is standard on 65½"H vertical drawer towers and workstation verticals, and includes a fixed shelf. Flush-front door recedes into the case and proud-front door lifts above case.

**Adjustable shelves on 52"H and 65½"H open side towers** are recessed from the front and side of the tower. Shelves adjust in 2½" vertical increments. Opening on 47½"H tower is 13½"H and does not come with an adjustable shelf.

**Frosted glass** adjustable shelves are available as an option on open side towers. *Tip: If glass shelves are selected, they will replace all steel shelves in the unit.*

**Post on open side towers** supports adjustable shelves and is painted to match the case.

**Adjustable shelves in dual door and full front towers** can be positioned in the interior of the tower in ¾" vertical increments using a reversible bracket. The first shelf above a file drawer is a fixed shelf.

**Drawer accessories** include one divider and one pencil tray in each box drawer. File drawers can accommodate front-to-back filing of letter-size hanging folders without the use of additional accessories.

**Safety interlock system** allows only one drawer to be opened at a time.

**Locks** are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Door and drawer locks are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. ▶ *Lock and Keying*, page 742

**Drawer lock in open side tower** is located in the top file drawer.

**Drawer lock in dual door tower, full front tower, vertical drawer tower, and workstation vertical tower** is located approximately 36" from the floor and also secures the lift-up door on 65½"H units.

**Individual drawer locks** are available as an option on workstation verticals for applications where you want to limit access to each drawer. Workstation verticals include a security shield above each drawer to prevent unauthorized access. In 65½"H towers, the lift-up door is controlled by the lock in the drawer directly below. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying options are available. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. ▶ *Lock and Keying*, page 742  
*Exception: Individual drawer locks are not available on towers with 6"H drawers.*

**Laminate and wood veneer tops** with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are ⅜" taller than steel tops and will add that dimension to the overall height of the tower.

**Top** will default to steel on towers with proud wood fronts since the door overlaps and partially conceals the top. Wood top is available as an option.

**Ganging hardware** is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

## Universal Towers and Workstation Verticals, continued

**Counterweight packages** are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

### Connections

**High storage to panel connector** provides added stability to panels and eliminates the need for return panels.

► See page 705

**Worksurface to tower connector** eliminates the need for other worksurface supports such as legs or end supports next to the tower.

► See page 704

**Worksurface to tower alignment.** Proud front towers align with 23½"D, 24"D, 29½"D, and 30"D worksurfaces. Flush front towers extend ⅞" beyond 24"D and 30"D worksurfaces, and ⅛" beyond 23½"D and 29½"D worksurfaces.

**Field-installed accessories** are available, including drawer accessories and shelf bookends.

► Page 711

**Floor anchor bracket (for TS Series Storage, TS 200 Series Storage, 900 Series Storage, 800 Series Storage and Universal Storage with 3" base)** secures lateral files, towers, workstation verticals, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

*Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.*

*Tip: Anchor bracket cannot be used with pedestals.*

### Surface Materials

**Tower, including steel top, hinged door, integral pulls, drawer fronts, and adjustable shelves**

- Paint

#### Post

- Paint to match tower (default)

**Contemporary, handle, jazz, and bar pulls**

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

#### c:scape pull

- 4140 Arctic White Gloss
- 4144 Black Gloss
- 4799 Platinum Metallic

**Wood veneer top, hinged doors, and drawer fronts**

- Wood veneer—Open pore finishes
- Customiz stain (option)

**Laminate top, hinged doors, and drawer fronts**

- Laminate
- Open Line laminate (option)

**Glass adjustable shelves**

- Frosted tempered glass

#### Lock

- 9201 Polished Chrome
- 9250 Ember Chrome (option)

**Drawer bodies, pencil tray, and box drawer divider**

- Black

#### Coat rod

- Black with black supports

### Application Topics

**Storage Capacities and Dimensions**

► See *Storage Specification Guide*

**Counterweight Requirements for Storage Products**

► Pages 301–308

### Shipping

**Towers** are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

**Counterweight packages** ship separately from case and must be field installed.

# Connectors

## Worksurface-to-Tower Connectors

► Specifying page 704

*Tip: Cannot be used with Currency Enhanced storage.*

### Product Details

**Connects** worksurface to tower eliminating the need for other worksurface supports such as legs or end supports next to the tower.

► See *Application Rules for Panel Stability*, page 148.

*Tip: When used with TS Series Tower Too in Answer applications, worksurface must be placed at 28½" height (floor to top of worksurface).*

*Tip: When using the work-surface-to-tower connector, the depth of the worksurface must match the depth of the tower.*

**Worksurface-to-tower connectors** only support 24"D or 30"D (full depth and ½" cord drop) worksurfaces.

### Surface Materials

#### Connector

- Paint

### Actual Dimensions

Depth: 20", 26"

## Storage-to-Panel Connectors

► Specifying page 705

*Tip: For use with universal steel storage only.*

### Product Details

**Low storage-to-panel connector** connects One-High laterals and cabinets to panel to provide added stability to panels and eliminate the need for return panels.

**Overhead storage or panels over 48"H** can not be used in conjunction with low storage-to-panel connector.

**Medium storage-to-panel connector** connects 1.5-High, 2-High, 3-High laterals and cabinets to panels to provide added stability to panels and eliminate the need for return panels.

**Tall storage-to-panel connector** connects towers to panels to provide added stability to panels and eliminate the need for return panels. Tall storage-to-panel connector can be used with 48"H, 4-high, and 5-high towers.

**Tall storage-to-panel connectors** can only be used on 48"H or taller panels.

*Note: Medium storage-to-panel connectors can be used on towers connected to panels shorter than 48"H, but must follow application guidelines for medium connectors.*

### Application Topics

**Storage-to-panel connector** can be positioned on the back or side of the cabinet. Connector must be located only on the ends of the back or side of the cabinet. It cannot be positioned anywhere else on the case side or back.

**Storage-to-panel connectors** can only be used with select storage products:  
–Universal lateral files and towers, 900 Series lateral files, or TS 200 Series lateral files manufactured on or after November 2005  
–TS Series Tower Too manufactured on or after January 2009.

### Surface Materials

#### Connector

- Black paint only

# Duo Tall Storage

**Duo tall storage** can be used to attach to Answer in-line, L, T, and end-of-run junctions.

## Panel stabilizer

**Panel bracket** connects box into panel junction slots.

**Duo tall and slim storage** can be used to attach to the top of Answer panels with thin trim. Attachment brackets and trims are sold separately.

**Wood core construction** with laminate surface.

**Ledge** provides support for office supplies.

**Magnets** can be used to display items on painted steel divider cover.

## Product Details

**Two interior configurations of Tall Storage** are available. Individual box has a ledge on one side and space for binder storage on the opposite side. Shared box is divided down the center with half ledge and half binder storage on each side.

**66\"/>**

**Column height at shortest level** is 29<sup>7</sup>/<sub>8</sub>\"/>

**Height from floor to top of box** is approximately 45\"/>

## Connections

**Attaches** perpendicular (90°) to Answer panel at in-line, end-of-run, L or T junction. Works with 42"H or taller panels only. Attaches on-module only.

**Panel-mounted work-surfaces** are required when connecting Duo Tall Storage to Answer panels at an in-line, L, T, or end-of-run junction. Worksurface brackets are included to attach to Duo Tall Storage worksurfaces to improve stability.

**In seismic zones 3 and 4**, consult with local building code officials for specific code requirements applicable to your installation.

**Duo Tall** cannot be installed with case in front of slatwall skin.

**When mounting Duo Tall or Slim Storage on top of an Answer panel**, top cap mounting brackets and additional panel top caps will need to be specified separately.

► Page 404

**For right-handed Duo end-of-run configurations**, the panel bracket will be visible.

## Surface Materials

### Box

- Laminate

### Interior divider cover

- Paint

### Brackets and leg

- 4799 Platinum paint

# Stability Guidelines

## Stability Guidelines for Answer and Duo Tall Storage

**Duo Tall Storage** cannot be mounted off-module.

**A minimum 30\"W Answer panel return at 90° or 36\"W at 120°** must be used with Duo Tall Storage.

**If Duo Tall Storage is mounted in an end-of-run application,** a 30\"W minimum panel return must be used on the other end of the run.

**Duo Tall Storage** cannot be mounted off-module.

**A minimum 30\"W Answer panel return at 90° or 120°** must be used with Duo Tall Storage.

**A 30\"W minimum panel return** is required when Duo Tall Storage is used on a panel that is supporting additional components.

## Stability Guidelines for Duo Tall Storage-to-Answer Panel Application in Seismic Zones

- Follow traditional planning guidelines.
- Tall Storage leg base must be bolted to the floor per local building code.
- Worksurface brackets included must be installed.

## Stability Guidelines for Answer Panels and Duo Overhead Storage or Duo Slim Storage on Post and Beam Fence

**A minimum 18\"W return is required**, or a post with large base bolted to the floor.

**On a single Post and Beam fence**, no more than one Overhead or Slim Storage box can be attached.

**Fences with Overhead or Slim Storage** spaced no more than 10' apart can stabilize a wall.

**A minimum 18\"W return is required**, or a post with large base bolted to the floor.

**On a single Post and Beam fence**, no more than one Overhead or Slim Storage box can be attached.

**Fences with Overhead or Slim Storage** spaced no more than 8' apart can stabilize a wall with upper storage.

# In-Line Change-of-Height Junctions—Thin Trim

In-Line Change-of-Height  
Junctions—Thin Trim**Tip: Junction includes:**

- In-line base junction
- End-of-run stacking junction
- Stacking fork
- End-of-run change-of-height trim
- Aligner

Tip: Remember to specify a stacking horizontal frame package with this application, unless there is a window in the top position of the taller panel.

Tip: Omit trim option omits change-of-height trim. This option is used when stacking on base panel junctions. Change-of-height trims should be specified separately to span the full height of the base panel junction plus the stacking junction.

**Standard Includes**

- Need help?  
Product details,  
page 24

- Junction
- Change-of-height trim: paint price group 1 or wood group 1
- Aligner

**Required to Specify**

- 1 Style number  
2 Paint or wood color number for trim  
► See *Surface Materials*, page 724.

# L Change-of-Height Junctions—Thin Trim

**Tip: Junction includes:**

- L change-of-height junction
- Inside corner light seal
- L vertical trim
- End-of-run change-of-height trim
- Change-of-height junction cap
- Aligners

**Tip:** Omit trim option omits all vertical and change-of-height trim. This option is used when stacking on base junctions.

Vertical and change-of-height trim should be specified separately to span the full height of the base junction plus the stacking junction.

**Tip:** Remember to specify necessary junction cap and aligners if the omit trim option is selected.

**Tip:** Change-of-height junction ships right-handed. For a left-handed junction a post will need to be moved during installation.

## Standard Includes

- ▶ Need help? Product details, page 24

- Junction
- Inside corner light seal
- Change-of-height trim and junction cap: paint price group 1 or wood group 1
- Aligner

## Required to Specify

- 1 Style number
  - 2 Paint or wood color number for trim and junction cap
  - 3 Options, if selected (see below)
- ▶ See *Surface Materials*, page 724.

| Surface Materials | Options                  | U.S. Price   | Required to Specify                  |
|-------------------|--------------------------|--------------|--------------------------------------|
|                   | <b>Trim</b>              |              |                                      |
|                   | • Paint price group 1    | No cost      | Specify paint color number.          |
|                   | • Paint price group 2    | +\$15        | Specify paint color number.          |
|                   | • Paint price group 3    | +\$31        | Specify paint color number.          |
|                   | • Customiz stain on wood | No cost      | Specify with <i>Customiz stain</i> . |
|                   | • Omit trim              | Prices below | Specify with <i>omit trim</i> .      |

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

▶ See page 1 for details.

# T Change-of-Height Junctions—Thin Trim

**Tip: Junction includes:**

- T change-of-height junction
- Inside corner light seal(s)
- T vertical trim
- End-of-run change-of-height trim
- Change-of-height junction cap
- Aligners

**Tip:** Omit trim option omits all vertical and change-of-height trim. This option is used when stacking on base junctions. Vertical and change-of-height trim should be specified separately to span the full height of the base junction plus the stacking junction.

**Tip:** Remember to specify necessary junction cap and aligners if the omit trim option is selected.

| Standard Includes                                                                                                                                                                                                                                                     | Required to Specify                                                                                                                                                                                          |

## ► Specification Information, continued on next page

## Tip: Junction includes:

- T change-of-height junction
- Inside corner light seals
- T vertical trim
- T change-of-height trim
- 90° junction cap
- Aligners

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

## ► Specification Information, continued from previous page

## Specification Information

| Corresponding Panel Height |   |   | Style Number | U.S. Base Price | Option (Add \$ to Base Price) | Style Number | U.S. Base Price | Option (Add \$ to Base Price) |
|----------------------------|---|---|--------------|-----------------|-------------------------------|--------------|-----------------|-------------------------------|
| A                          | B | C |              |                 | Omit Trim                     |              |                 | Omit Trim                     |

## Tip: Junction includes:

- T change-of-height junction
- Inside corner light seals
- T vertical trim
- End-of-run change-of-height trim
- Change-of-height junction cap
- Aligners

Tip: When A and C are different heights, the junction is shipped right-handed. For a left-handed junction a post will need to be moved during installation.

Tip: Omit trim option omits all change-of-height trim. This option is used when stacking on base junctions. Change-of-height trim should be specified separately to span the full height of the base junction plus stacking junction.

Tip: Remember to specify necessary junction cap and aligners if the omit trim option is selected.

Tip: **Junction includes:**

- X change-of-height junction
- Two T change-of-height trims
- 90° junction cap
- Aligners

## ► Specification Information, continued on next page

Tip: Junction includes:

- X change-of-height junction
- Inside corner light seals
- L change-of-height trim
- 90° junction cap
- Aligners

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Tip: Junction includes:

- X change-of-height junction
- Inside corner light seals
- T change-of-height trim
- 90° junction cap
- Aligners

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# V Change-of-Height Junctions—Thin Trim

**Tip: Junction includes:**

- V change-of-height junction
- V vertical trim
- 120° change-of-height trim
- 120° junction cap
- Aligner

*Tip: Omit trim option omits all vertical and change-of-height trim. This option is used when stacking on base junctions. Vertical and change-of-height trim should be specified separately to span the full height of the base junction plus stacking junction.*

*Tip: Remember to specify necessary junction caps and aligners if the omit trim option is selected.*

*Tip: Change-of-height junction ships right-handed. For a left-handed junction, a post will need to be moved during installation.*

| Standard Includes                                                                                                                                                                                                                | Required to Specify                                                                                                                                                                                          |

*Tip: Omit trim option omits all change-of-height trim. This option is used when stacking on base junctions. Change-of-height trim should be specified separately to span the full height of the base junction plus stacking junction.*

*Tip: Remember to specify necessary junction caps and aligners if the omit trim option is selected.*

*Tip: Junction includes:*

- Y change-of-height junction
- 120° change-of-height trim
- 120° junction cap

Tip: Junction includes:

- Y change-of-height junction
- V change-of-height trim
- 120° junction cap
- Aligner

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Wall-Start Junctions

*Tip: When using in an off-module application, off-module panel connector must be ordered separately.*

## Junction Stabilizer Brackets

Tip: Junction stabilizer bracket blocks power routing in the base and just above the base areas. Lay-in cable routing in the base is also blocked by the bracket.

Tip: Junctions manufactured on or after October 10, 2011 will only work with TS7SBNJ junction stabilizer bracket.

| Standard Includes                           |                             | Required to Specify |

| 10½"                                        | TS7SBNJ                     | \$104               |
| 10½"                                        | TS7SB                       | \$104               |

Tip: Junctions manufactured before October 10, 2011 will only work with TS7SB junction stabilizer bracket.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
▶ See page 1 for details.

# Off-Module Panel Connectors

*Tip: Must be used with wall-start junctions, ordered separately.*

► Page 375

*Tip: Off-module panel connector works with thin, square, and oval style trims. Top cap filler included in package is only used with oval style trims. Thin and square style trims do not require a top cap filler.*

*Tip: Wall-start junctions manufactured before October 2002 will not work with off-module panel connectors.*

*Tip: When using with wall-start junction manufactured before October 10, 2011, the bottom bracket must be replaced with part number T500938MP from Service Parts.*

## Standard Includes

- Need help?  
Product details,  
page 98
- Top and bottom bracket
- Bottom channel
- Top cap filler (oval style): plastic

## Required to Specify

- 1 Style number
- 2 Plastic color number for filler
- See *Surface Materials*, page 724.

## Stacking End-of-Run Panel Junctions—Thin Trim

Tip: Stacking end-of-run junctions do not include trim. Trim is specified separately to span entire height of base junction plus stacking junction.

Tip: 36" stacker is only used in build your own change-of-height applications. It should never be used as an end-of-run stacking junction.

| Standard Includes                           |                                                                                        | Required to Specify |

# Stacking L, T, X, V, and Y Panel Junctions—Thin Trim

Tip: Stacking corner junctions do not include trim. Trim is specified separately to span entire height of base junction plus stacking junction.

Tip: Junction cap is not included and must be specified separately.

# Utility Pole – L, T, and X—Thin Trim

Utility Pole – L, T,  
and X—Thin Trim

*Tip: Works with L, T, or X base junctions of any height and T or X change-of-height junctions as long as at least two panels are at the tallest height.*

*Tip: For end-of-run utility pole application, the square trim junction utility pole may be used.*

*Note: this will add 3" of dimension to the application.*  
▶ Page 446

*Tip: Cannot be used with L change-of-height junctions.*

*Tip: Can only be used with junctions manufactured on or after October 10, 2011.*

*Tip: Does not include junction. Junction is ordered separately.*

*Tip: Order multipurpose power infeed separately.*

# End-of-Run Vertical Trims—Thin Trim

Tip: When ordering vertical trim for a stacking application remember to specify it to span the full height of the base junction plus the stacking junction.

Tip: Thin vertical trim cannot be mixed with square and oval trim on an application. Thin trim must be used on the entire application.

| Standard Includes                                                                                                                                               | Required to Specify                                                                                                                                                                                            |

| .                                                                                                           | .          | .                   |

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

## Junction Blocks

*Tip: When determining the number of junction blocks needed in a same-height corner, start with your lowest panel height. If the lowest height is 48" or less, start with 2 blocks. If the lowest height is 54" to 78" start with 3 blocks.*

*Tip: When determining the number of blocks needed in a change-of-height corner, please see page 41, How to Build Your Own Change-of-Height Applications.*

| Standard Includes                           |                                  | Required to Specify |  |

# Base Horizontal Frame Packages— Thin Trim and Big Open Base Trim Package

For Panel Buildups

Tip: You must order vertical junctions separately to complete your frame.

► See page 352.

Tip: Specify omit top cap when adding a frameless glass screen to a panel or when ordering spanning top caps.

Tip: Change-of-height top caps are only required in an in-line change-of-height application.

Tip: Remember to omit base trim(s) when using skins to the floor.

Tip: Omit base trim and separately specify hardwire base trims when accessing hardwire power in the base.

Tip: When open base trim or big open base option is selected, both base trims are omitted.

Tip: Base cable tray cannot be used if open base or big open base is selected, or if omit base trim is selected for one or both sides of panel.

Tip: Remember to order skins to complete the panel.

► See page 470.

## Standard Includes

- Need help? Product details, page 58
- Standard length top cap: color default determined by base trim paint color
- Base trim with no knockouts (on 18"W): paint price group 1
- Base trim with knockouts (24"W to 72"W): paint price group 1
- Two horizontal connecting bars: black paint only

## Required to Specify

- 1 Style number
  - 2 Paint or wood color number for trim
  - 3 Options, if selected (see below)
- See *Surface Materials*, page 724.

# Stacking Horizontal Frame Packages

For Panel Buildups

*Tip: You must order vertical stacking junctions separately to complete your frame.*

► Page 430

*Tip: Top cap is not included. Use the top cap from the base panel you are stacking on.*

*Tip: If stacking a window kit, stacking horizontal frame package is not needed.*

*Tip: Remember to order skins to complete the panel.*

# Frameless Glass Screens with Recessed Attachment—Thin Trim

*Tip: These screens are only to be used on panels with thin trims.*

*Tip: Remember to specify in-line spanning top cap lightseals if frameless glass screen is spanning two or more panels.*  
▶ See page 513.

*Tip: Wall start application should be specified when using a wall start junction to attach to a wall or to be used in an off-module condition.*

*Tip: For widths of 72" or smaller, if spanning glass of two or more junctions, additional junction grommets will be needed. Two grommets per spanned junction should be ordered. Order service part package 89050001MP for a package of 20 grommets.*

| Standard Includes                        | Required to Specify                                                                                                                     |

# Recessed Frameless Glass Top Cap Connector and Junction Grommets for Frameless Glass—Thin Trim

Recessed Frameless Glass  
Top Cap Connector and  
Junction Grommets for  
Frameless Glass—Thin Trim

## Recessed Frameless Glass Top Cap Connector—Thin Trim

*Tip: Recessed frameless glass top cap connector needs to be ordered in the following situations:*

- when using a wall start junction and putting frameless glass with recessed attachment on the panel directly adjacent to the wall
- when using frameless glass with recessed attachment on an off-module fin panel
- when recessed frameless glass is adjacent to a corner junction and the recessed frameless glass top caps are located at a lower height than the junction cap
- when recessed frameless glass is coming into an in-line change-of-height condition and the recessed frameless glass top caps are located on the lower panel height
- when recessed, frameless glass is adjacent to a utility pole
- when frameless glass or top cap mounted storage is used on a panel that is adjacent to a boundary screen

| Standard Includes                                                                                                                               | Required to Specify |

## Junction Grommets for Frameless Glass—Thin Trim

| Standard Includes                                                                  | Required to Specify |
|------------------------------------------------------------------------------------|---------------------|
| <ul style="list-style-type: none"> <li>• Two standard junction grommets</li> </ul> | Style number        |

### Specification Information

| Style Number | U.S. Price |
|--------------|------------|
| TS7FGJG      | \$5        |

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Frameless Glass Screens with Clip Attachment—Thin Trim

Tip: These screens are only to be used on panels with thin trims.

Tip: Remember to specify in-line spanning top cap lightseals if frameless glass screen is spanning two or more panels.

► See page 513.

| Standard Includes                                                                                                                                                                                                                              | Required to Specify                                                                                                                                                         |

# Top Cap Mount Storage—Brackets

*Tip: Top cap mounted storage can only be used with thin trim panels.*

*Tip: Brackets will be visible on the bottom of the storage unit. They can be painted to match the panel trim or storage unit.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                               | Required to Specify                                                                                                                                         |

# Top Cap Mounted Storage—Top Caps and Aligner Packages

Top Cap Mounted Storage  
– Top Caps and Aligner  
Packages

*Tip: Top caps should be specified to match the width of the storage unit that is being top cap mounted. They do not necessarily match the width of the panel.*

*Tip: When top cap mounted storage units are on module with the panel, standard top caps from the horizontal frame package can be omitted. If the top cap mounted storage is being mounted off-module, standard top caps should NOT be omitted from the horizontal frame package.*

*Tip: Mounting brackets and storage to complete the solution are specified separately.*

| Standard Includes                                                                                                                                                                                                                                                                                                                   | Required to Specify                                                                                                                                                                                             |

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Panel Packages—Thin Trim

For Panel Buildups

Tip: You must order junctions separately to connect adjacent panels.

► See page 352.

Tip: Remember to order receptacles and faceplates.

► See page 523.

Tip: For further information about fabric direction, see page 730.

Tip: 72"W panels accommodate fabric in the horizontal application only.

Tip: Specify omit top cap when adding a frameless glass screen to a panel or when ordering spanning top caps.

Tip: Change-of-height top cap option should be specified only when using an in-line change-of-height application.

Tip: When open base trim option is selected, both base trims are omitted.

Tip: Base cable tray cannot be used if open base trim is selected.

Tip: 18"W panels can accommodate pass-through power only.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

### Standard Includes

► Need help?  
Product details,  
page 78

- Tackable acoustical skins on both sides of panel, fabric direction with horizontal application, if selected: fabric price group 1
- Performance tackable acoustical skins on both sides of panel, fabric direction with horizontal application, if selected: fabric price group 1
- Standard length top cap: color default determined by trim paint color
- Base trim with no knockouts (18"W): painted steel
- Base trim with knockouts (24"W to 72"W): painted steel
- Two horizontal connecting bars

### Required to Specify

- 1 Style number
  - 2 Fabric color number for side 1
  - 3 Fabric color number for side 2
  - 4 Paint color number for trim
  - 5 Options, if selected (see below)
- See *Surface Materials*, page 724.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Answer Boundary Screens

Straight, Single-Connect For Use with Thin Trim Panels

*Tip: Additional hardware upcharge is applied only when single-connect straight split style number is specified.*

*Tip: When specifying a boundary screen equal to or taller than an Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option.*

*Tip: When attaching boundary screen to Answer panel with stacking segment, order a boundary screen, end-of-run junction, omit trim, add a change-of-height trim, and stacking junction.*

*Tip: When specifying a boundary screen shorter than Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option, and order a change-of-height trim.*

*Tip: When specifying the paint finish for the bracket cover, select a finish that compliments the selected laminate or veneer finish.*

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: When specifying a split boundary screen, two screen widths will need to be specified.*

*Tip: Full-fill finish codes can be used to simplify specification of veneer boundary screens being used in settings with full-fill veneer products. The screen will not have the final fill coat applied, but the finish color will be consistent with the full-fill products.*

| Standard Includes                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

Tip: When specifying a split boundary screen, two screen widths need to be specified. The final price will include the price of both individual screen segments.

 **For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

# Answer Boundary Screens

Straight, Dual-Connect For Use with Thin Trim Panels

*Tip: Additional hardware upcharge is applied only when single-connect straight split style number is specified.*

*Tip: When specifying a boundary screen equal to or taller than an Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option.*

*Tip: When attaching boundary screen to Answer panel with stacking segment, order a boundary screen, end-of-run junction, omit trim, add a change-of-height trim, and stacking junction.*

*Tip: When specifying a boundary screen shorter than Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option, and order a change-of-height trim.*

*Tip: When specifying the paint finish for the bracket cover, select a finish that compliments the selected laminate or veneer finish.*

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: When specifying a split boundary screen, two screen widths will need to be specified.*

*Tip: Full-fill finish codes can be used to simplify specification of veneer boundary screens being used in settings with full-fill veneer products. The screen will not have the final fill coat applied, but the finish color will be consistent with the full-fill products.*

| Standard Includes                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

Tip: When specifying a split boundary screen, two screen widths need to be specified. The final price will include the price of both individual screen segments.

 **For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

# Answer Boundary Screens

L Return, Single-Connect For Use with Thin Trim Panels

*Tip: Additional hardware upcharges are applied only when single-connect single-sided L return, or single-connect split L style numbers are specified.*

*Tip: When specifying a boundary screen equal to or taller than an Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option.*

*Tip: When attaching boundary screen to Answer panel with stacking segment, order a boundary screen, end-of-run junction, omit trim, add a change-of-height trim, and stacking junction.*

*Tip: When specifying a boundary screen shorter than Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option, and order a change-of-height trim.*

*Tip: When specifying the paint finish for the bracket cover, select a finish that compliments the selected laminate or veneer finish.*

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: When specifying a split L return boundary screen, four screen widths will need to be specified.*

*Tip: Full-fill finish codes can be used to simplify specification of veneer boundary screens being used in settings with full-fill veneer products. The screen will not have the final fill coat applied, but the finish color will be consistent with the full-fill products.*

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Answer Boundary Screens

L Return, Dual-Connect For Use with Thin Trim Panels

*Tip: Additional hardware upcharges are applied only when dual-connect single-sided L return, or dual-connect split L return style numbers are specified.*

*Tip: When specifying a boundary screen equal to or taller than an Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option.*

*Tip: When attaching boundary screen to Answer panel with stacking segment, order a boundary screen, end-of-run junction, omit trim, add a change-of-height trim, and stacking junction.*

*Tip: When specifying a boundary screen shorter than Answer panel, order a same height end-of-run junction for height of Answer panel with the omit trim option, and order a change-of-height trim.*

*Tip: When specifying the paint finish for the bracket cover, select a finish that compliments the selected laminate or veneer finish.*

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: When specifying a split L return boundary screen, four screen widths will need to be specified.*

*Tip: Full-fill finish codes can be used to simplify specification of veneer boundary screens being used in settings with full-fill veneer products. The screen will not have the final fill coat applied, but the finish color will be consistent with the full-fill products.*

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

# End-of-Run Base Panel Junctions—Square Trim

Tip: End-of-run trim adds 1" to footprint.

Tip: Painted trim is standard, and fabric trim is optional, on all base panel junctions. Wood trim is available as an option only on base panel junctions with wood junction caps.

Tip: 78"H fabric-covered junctions allow fabric in the vertical application only.

Tip: For further information about fabric direction, ► see page 730.

| Standard Includes                                                                                                                                                                                                                                           | Required to Specify                                                                                                                                                                                                                                           |

## End-of-Run Base Panel Junctions—Oval Trim

End-of-Run Base Panel  
Junctions—Oval Trim

Tip: End-of-run trim adds 1" to footprint.

Tip: Painted trim is standard, and fabric trim is optional, on all base panel junctions. Wood trim is available as an option only on base panel junctions with wood junction caps.

Tip: 78"H fabric-covered junctions allow fabric in the vertical application only.

Tip: For further information about fabric direction, ▶ see page 730.

| Standard Includes                                                                                                                                                                                                                                                   | Required to Specify                                                                                                                                                                                                                                           |

## Junction Stabilizer Brackets

Tip: Junction stabilizer bracket blocks power routing in the base and just above the base areas. Lay-in cable routing in the base is also blocked by the bracket.

Tip: Junctions manufactured on or after October 10, 2011 will only work with TS7SBNJ junction stabilizer bracket.

| 10½" | TS7SB | \$104 |
|------|-------|-------|

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Off-Module Panel Connectors

*Tip: Must be used with wall-start junctions, ordered separately.*

► Page 438

*Tip: Off-module panel connector works with thin, square, and oval style trims. Top cap filler included in package is only used with oval style trims. Thin and square style trims do not require a top cap filler.*

*Tip: Wall-start junctions manufactured before October 2002 will not work with off-module panel connectors.*

*Tip: When using with wall-start junction manufactured before October 10, 2011, the bottom bracket must be replaced with part number T500938MP from Service Parts.*

## Standard Includes

- Need help?  
Product details,  
page 98
- Top and bottom bracket
- Bottom channel
- Top cap filler (oval style): plastic

## Required to Specify

- 1 Style number
- 2 Plastic color number for filler
- See *Surface Materials*, page 724.

# Stacking L, T, and X Panel Junctions—Square and Oval Trims

*Tip: Junction cap is not included. Use the junction cap from the base junction you are stacking on.*

► Need help?  
Product details,  
page 100

## Standard Includes

- Junction
- Trim on L and T junctions: paint price group 1 or wood group 1
- Fork connectors
- Stacking trim aligner on L and T junctions: black plastic only

## Required to Specify

- 1 Style number
  - 2 Paint or wood color number for trim
  - 3 Options, if selected (see below)
- See *Surface Materials*, page 724.

|                          | Options                                    | U.S. Price | Required to Specify                   |

# Standard Change-of-Height Trims—Square Trim

Tip: Cable-routing trim provides cable routing capacity.

► See page 174 for capacities.

Tip: Remember to specify the change-of-height top cap option for the lower panels in change-of-height configurations when using either type of change-of-height trim.

► Page 96

Tip: For further information about fabric direction,

► Page 730.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Standard Change-of-Height Trims—Oval Trim

Standard Change-of-Height  
Trims—Oval Trim

Tip: Cable-routing trim provides cable routing capacity.

► See page 174 for capacities.

Tip: Remember to specify the shortened top cap option for the lower panels in change-of-height configurations when using either type of change-of-height trim.

► Page 96

Tip: For further information about fabric direction, ► Page 730.

| Standard Includes                                                                                                                                                                                                                                                                                    | Required to Specify                                                                                                                                                                                                                                                                                        |

# Stacking Change-of-Height Trims—Square and Oval Trims

Tip: Stacking change-of-height trim is only used on the second tier in a change-of-height configuration.

Tip: Change-of-height junction cap is not included with stacking change-of-height trim. Use the change-of-height junction cap from the standard change-of-height trim you are stacking on.

Tip: Cable-routing trim provides cable routing capacity.

Tip: For further information about fabric direction, ► Page 730.

Tip: Stacking change-of-height trim works with square and oval top trim styles but not with thin top trim style.

| Standard Includes                                                                                                                                                                                              | Required to Specify                                                                                                                                                                                            |

# Base Horizontal Frame Packages—Square Trim

For Panel Buildups

Tip: You must order vertical junctions separately to complete your frame.

► Page 430

Tip: Specify omit top cap when adding a frameless glass screen to a panel or when ordering spanning top caps.

Tip: Remember to specify an optional change-of-height top cap on any panel in a change-of-height configuration.

Exception: The tallest panel in the configuration never needs a change-of-height top cap.

Tip: Remember to omit base trim(s) when using skins to the floor or when using an open base trim conversion kit.

Tip: Base cable tray cannot be used if omit base trim is selected for one or both sides of panel.

Tip: Remember to order skins to complete the panel.

► Page 470

Tip: Omit standard base trim and specify separate hardwire base trim when accessing hardwire power in the base.

| Standard Includes                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Required to Specify                                                                                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

# Base Horizontal Frame Packages—Oval Trim

For Panel Buildups

Tip: You must order vertical junctions separately to complete your frame.  
► Page 431

Tip: Remember to specify an optional shortened change-of-height top cap on any panel in a change-of-height configuration.

Exception: The tallest panel in the configuration never needs a shortened change-of-height top cap.

Tip: Remember to omit base trim(s) when using skins to the floor or when using an open base trim conversion kit.

Tip: Base cable tray cannot be used if omit base trim is selected for one or both sides of panel.

Tip: Remember to order skins to complete the panel.  
► Page 470

Tip: Omit standard base trim and specify separate hardwire base trim when accessing hardwire power in the base.

| Standard Includes                                                                                                                                                                                                                                                                          | Required to Specify                                                                                                                 |

# Stacking Horizontal Frame Packages

## For Panel Buildups

Stacking Horizontal  
Frame Packages

*Tip: You must order vertical stacking junctions separately to complete your frame.*

► Page 441

*Tip: Top cap is not included. Use the top cap from the base panel you are stacking on.*

*Tip: If stacking a window kit, stacking horizontal frame package is not needed.*

*Tip: Remember to order skins to complete the panel.*

► Page 470

### Standard Includes

- Need help? Product details, page 108
- One horizontal connecting bar: black paint only

### Required to Specify

Style number

# 12"H Panel Top Screens For Use on Panels with Square and Oval Trim ✕10/22

## Square Trim ✕10/22

*Tip: These screens only attach to panels with square trim.*

► See page 113 for oval trim application.

*Tip: Support brackets, included in this package, must be used with translucent screen only.*

*Tip: Double wall construction and internal ribbing structure make screen look more opaque than 6625 translucent finish sample.*

| Standard Includes                                                                                                                                    | Required to Specify                                                                                                                     |

12"H Panel Top Screens For  
Use on Panels with  
Square and Oval Trim

# Panel Packages—Square Trim

Side 1      Side 2  
*Tip: You must order junctions separately to connect adjacent panels.*  
 ▶ Page 431

*Tip: Remember to order receptacles and faceplates.*  
 ▶ Pages 523 and 525

*Tip: 18"W panels can accommodate pass-through power only.*

*Tip: 72"W panels accommodate fabric in the horizontal application only.*

*Tip: For further information about fabric direction,*  
 ▶ Page 730.

*Tip: Specify omit top cap when adding a frameless glass screen to a panel or when ordering spanning top caps.*

*Tip: Remember to specify an optional change-of-height top cap on any panel in a change-of-height configuration.*  
*Exception: The tallest panel in the configuration never needs a change-of-height top cap.*

# Panel Packages—Oval Trim

Side 1      Side 2  
*Tip: You must order junctions separately to connect adjacent panels.*  
 ▶ Page 431

*Tip: Remember to order receptacles and faceplates.*  
 ▶ Pages 523 and 525

*Tip: 18"W panels can accommodate pass-through power only.*

*Tip: 72"W panels accommodate fabric in the horizontal application only.*

*Tip: For further information about fabric direction.*  
 ▶ Page 730

*Tip: Remember to specify an optional shortened change-of-height top cap on any panel in a change-of-height configuration.*

*Exception: The tallest panel in the configuration never needs a shortened change-of-height top cap.*

▶ Page 96

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.

## Standard Includes

▶ Need help?  
 Product details,  
 page 114

- Tackable acoustical skins on both sides of panel, fabric direction with horizontal application, if selected: fabric price group 1
- Performance tackable acoustical skins on both sides of panel, fabric direction with horizontal application, if selected: fabric price group 1
- Standard length top cap: color default determined by trim paint color
- Base with knockouts: painted steel
- Two horizontal connecting bars

## Required to Specify

- 1 Style number
  - 2 Fabric color number for side 1
  - 3 Fabric color number for side 2
  - 4 Paint color number for trim
  - 5 Options, if selected (see below)
- ▶ See *Surface Materials*, page 724.

# Fabric Covered Panel Skins

For Panel Buildups

Tip: 72"W fabric-covered panel skins accommodate fabric in the horizontal direction only.

Tip: For further information about fabric direction, see page 730.

Tip: 18"H, 30"H, and 42"H skins only work on junctions manufactured on or after October 10, 2011.

## Standard Includes

- ▶ Need help? Product details, page 124
- Tackable acoustical panel skin, fabric direction with horizontal application, if selected: fabric price group 1
- Performance tackable acoustical panel skin, fabric direction with horizontal application, if selected: fabric price group 1

## Required to Specify

- 1 Style number
  - 2 Paint color number for skin surface.
  - 3 Options, if selected (see below)
- ▶ See *Surface Materials*, page 724.

| Options           |                          | U.S. Price    |               |              | Required to Specify          |

# Steel Panel Skins

For Panel Buildups

*Tip: Steel skins cannot accommodate power receptacles or communication outlets. Use the base or fabric skin for power access.*

*Tip: Horizontal beam and the back of the opposite skin is visible through a perforated skin.*

*Tip: 18"H and 30"H skins only work on junctions manufactured on or after October 10, 2011.*

*Tip: Data and modular receptacle cutouts are available on 24"H steel skins only.*

*Tip: Data cutout can be placed on the left or the right side of a steel beam skin. Data cutouts cannot be placed on both left and right side of steel beam skins.*

*Tip: Data cutout is an option under receptacle location. Specify data cutout location under the appropriate receptacle selection. Data cutout price is added to the receptacle cutout price.*

*Tip: On 24"W and 30"W steel skins, hardwire receptacle cutout option will always be with a centered hardwire cutout.*

*Tip: On 36"W and wider steel skins, hardwire receptacle cutout option will always come with a left and a right hardwire cutout.*

*Tip: No data or modular receptacle cutouts are available on 18"W steel skins.*

*Tip: Data or modular receptacle cutouts are NOT available on perforated or ribbed steel skins.*

# Steel To The Floor Skins

## For Panel Buildups

*Tip: Remember to omit base trim(s) on horizontal frame package when using a skin to the floor.*

*Tip: Steel skins cannot accommodate power receptacles or communication outlets. Use a fabric skin for power access.*

*Tip: 30"H skins only work on junctions manufactured on or after October 10, 2011.*

*Tip: When specifying skins, the total skin height will be 6" less than the panel height. Skins to the floor are indicated by an F suffix. Plan 6" shorter than panel height, but skins to the floor are taller in actual height to cover the base trim area.*

► See Panel Buildups, page 18, for more information.

*Tip: Data and modular receptacle cutouts are available on 24"H steel skins only.*

*Tip: Data cutouts can be placed on the left or the right side of a steel beam skin. Data cutouts cannot be placed on both left and right side of steel beam skins.*

*Tip: Data cutout is an option under receptacle location. Specify data cutout location under the appropriate receptacle selection. Data cutout price is added to the receptacle cutout price.*

*Tip: On 24"W and 30"W steel skins, hardwire receptacle cutout option will always be with a centered hardwire cutout.*

*Tip: On 36"W and wider steel skins, hardwire receptacle cutout option will always come with a left and a right hardwire cutout.*

# Steel Panel Skins Big Open Base

For Panel Buildups

*Tip: Data cutouts can be placed on the left or the right side of a steel panel skin. Data cutouts cannot be placed on both left and right side of steel panel skins.*

*Tip: Data cutouts is an option under receptacle location. Specify data cutout location under the appropriate receptacle selection. Data cutout price is additive to the receptacle cutout price.*

*Tip: No data or modular receptacle cutouts are available on 18"W steel skins.*

*Tip: On 24"W and 30"W steel skins, hardwire receptacle cutout option will always be with a centered hardwire cutout.*

*Tip: On 36"W and wider steel skins, hardwire receptacle cutout option will always come with a left and a right hardwire cutout.*

## For Canadian Pricing

Tip: All 60"H skins are only available in vertical direction for woodgrain and directional laminates.

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ► See page 1 for details.

# Laminate To The Floor Skins

Laminate To The  
Floor Skins

**For laminate price group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Remember to omit base trim(s) on horizontal frame package when using a skin to the floor.*

*Tip: 30"H and 42"H skins only work on junctions manufactured on or after October 10, 2011.*

*Tip: When specifying skins, the total skin height will be 6" less than the panel height. Skins to the floor are indicated by an F suffix. Plan 6" shorter than panel height, but skins to the floor are taller in actual height to cover the base trim area.*

► See *Panel Buildups*, page 18, for more information.

*Tip: All 60"H skins are only available in vertical direction for woodgrain and directional laminates.*

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

## Standard Includes

► Need help?  
Product details,  
page 134

- Skin: laminate price group 1
- Vertical grain direction for woodgrain and directional laminates
- Trim: paint
- Attachment hardware

## Required to Specify

- 1 Style number
  - 2 Laminate color for skin surface
  - 3 Paint color number for trim
  - 4 Options, if selected (see below)
- See *Surface Materials*, page 724.

| Options                  | U.S. Price                                                                                                                                 | Required to Specify                                                               |

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Wood To The Floor Skins

Tip: Remember to omit base trim(s) on horizontal frame package when using a skin to the floor.

Tip: 18"H, 30"H, and 42"H skins only work on junctions manufactured on or after October 10, 2011.

Tip: When specifying skins, the total skin height will be 6" less than the panel height. Skins to the floor are indicated by an F suffix. Plan 6" shorter than panel height, but skins to the floor are taller in actual height to cover the base trim area.

► See Panel Buildups, page 18, for more information.

# Wood To The Floor Skin Sets

*Tip: Wood skin sets should be selected when grain pattern alignment of all segmented skins on a frame is desired.*

*Tip: Remember to omit base trim(s) on horizontal frame package when using a skin to the floor.*

*Tip: When specifying skins, the total skin height will be 6" less than the panel height. Skins to the floor are indicated by an F suffix. Plan 6" shorter than panel height, but skins to the floor are taller in actual height to cover the base trim area.*  
 ▶ See Panel Buildups, page 18, for more information.

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ▶ See page 1 for details.

**For Canadian Pricing**

Multiply U.S. Price by the  
Canadian price factor.

► See page 1 for details.

# Back Painted Glass To The Floor Skins

*Tip: When specifying skins, the total skin height will be 6" less than the panel height. Skins to the floor are indicated by an F suffix. Plan 6" shorter than panel height, but skins to the floor are taller in actual height to cover the base trim area.*

*Tip: Rare earth magnets should be used with magnetic backer.*

| Standard Includes                                                                                                                                                          | Required to Specify                                                                                                                                                                                                                                         |

# Steel Technology Skins

*Tip: Remember to order technology covers to fill the cutouts. Only TS7TSCOVER style covers can be used with this skin.*

*Tip: A modular powerkit must always be located behind the technology skin.*

*Tip: 72"W technology skins accommodate fabric in the horizontal application only.*

*Tip: Ribbed steel technology skins cannot be fabric covered.*

*Tip: For further information about fabric direction, see page 730.*

*Tip: Technology skins are available with all cutouts or handed cutouts on just the right side or just the left side of the skin.*

Tip: 6"H technology skins with cutouts includes a pair of powerkit brackets that attach the powerkit to the junction to correctly position it within the panel.

Tip: 6"H technology skin can only attach to junctions manufactured on or after October 10, 2011.

Tip: When using technology skin on one side of the panel (only used at worksurface height) a 12" or 18" skin can not be used on the opposite side of the panel at the same location as the 6"H skin.

# Markerboard Technology Skins

Markerboard  
Technology Skins

*Tip: Remember to order technology covers to fill the cutouts. Only TS7TSCOVER style covers can be used with this skin.*

*Tip: A modular powerkit must always be located behind the technology skin.*

*Tip: Technology skins are available with all cutouts or handed cutouts on just the right side or just the left side of the skin.*

*Tip: 18"H technology skin can only attach to junctions manufactured on or after October 10, 2011.*

## Standard Includes

# Glass Windows

For Panel Buildups

*Tip: Remember to specify spanning window in-line supports if window is spanning two or more panels.*

*Tip: When specifying a window span over two or more panels, it is recommended that the same size spanning top cap also be specified for use with the window.*

*Tip: When ordering a 72"W or wider single pane window kit to be used with steel or fabric skins located directly below it, two clips (T521328SR) should be ordered and installed.*

| Standard Includes                                                                                                                                                                                                                                | Required to Specify                                                                                                                                                                                   |

# Single-Pane Glass Window Kits for Use with Custom Glass

For Panel Buildups

*Tip: Custom glass must be ordered separately.*

► See page 141 for the dimensions of custom inserts.

*Tip: Glass window kits are available for single pane only.*

*Tip: Remember to specify spanning window in-line supports if window is spanning two or more panels.*

*Tip: When specifying a window to span over two or more panels, it is recommended that the same size spanning top cap also be specified for use with the window.*

*Tip: When ordering a 72"W or wider single pane window kit to be used with steel or fabric skins located directly below it, two clips (T521328SR) should be ordered and installed on the top edge of the skins.*

| Standard Includes                            | Required to Specify                                                                                                                  |

# Sliding Panel Doors

*Tip: The sliding door is located outside of the panel system when installed in the standard position.*

*Tip: Door infill is standard in ribbed translucent plastic.*

*Tip: The standard door is handed and non-locking. When a lock option is specified, the lock will be on the trail end of the door. The illustration above shows a left-handed sliding door. If a lock option is specified, the lock will be on the right (trail) side of the door.*

*Tip: Width of host panel should always be equal to the width of sliding door.*

*Tip: Height of host and receiving panels must match height of door.*

*Tip: Remember to specify lock cylinder and key.*  
 ▶ Lock Cylinders, page 742.

*Tip: When attaching the sliding door to an Answer panel, a junction stabilizer bracket is available for added rigidity to the host panel. If a host and/or receiving panel run exceeds 4', a junction stabilizer bracket must be applied to the door end of the host and/or receiving panel run. On long runs, apply a junction stabilizer bracket or perpendicular panel every 8'.  
 ▶ Page 439*

# Beams

Tip: Beams are most easily attached to posts via a ball driver (drill drive— $\frac{3}{8}$ ",  $\frac{1}{4}$ " ball x 6") available from Steelcase (946800104CS) or many hardware manufacturers.

Tip: Beam dimensions are nominal to center of post.  
 ▶ See Application Topics in Post and Beam Solutions Specification Guide.

| Standard Includes                                                                                                                                                                                                                                                                 | Required to Specify |

## Hardwired Powerkits

Tip: Specify hardwire base trims when accessing a hard-wire powerkit in the base.

| Standard Includes                                                                                                                                                                     |  | Required to Specify |  |

# Straight Worksurfaces

## High-Pressure Laminate or Wood Veneer

Tip: Supports for freestanding and panel-mounted applications must be specified separately.

Tip: Long work surface spans require additional support.

► See understanding section for details, page 224

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, US1830 becomes US1830SW for wood with square edge profile.)

Tip: Power and data access door and tray is ordered separately to be used with cutout.

► See page 584

► See page 228 for work surface size availability matrix.

Exception: 48"W work surface with soft edge used with FrameOne post leg has some limitations.

► See page 229 for connections.

Tip: Scallop will be omitted if you select power access door.

Tip: Power access door option includes the power access door and a cutout for the door in the work surface.

Tip: Power access door option is only available on straight work surfaces with 1/2" cord drop.

| Standard Includes                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                               |

## ► Options, continued on next page

Tip: When selecting with cord drop, subtract 1/2" from depth.

Tip: Scallop is available in the center location only. If cutout for power and data access door and tray or power access door is selected, scallop will default to omit scallop.

Tip: Power and data access door and tray is ordered separately to be used with cutout.

► Page 584

► See page 228 for worksurface size availability matrix.

Tip: Cutout for power and data access door and tray is available in the center location only. Worksurface depth must be greater than 24".

Tip: Power access door option is only available on straight worksurfaces with 1/2" cord drop.

Tip: Power access door option includes the power access door and a cutout for the door in the worksurface.

Tip: If cutout for power and data access door and tray or power access door is selected, grommet will default to no grommet.

**For Canadian Pricing**

# Straight Worksurfaces with Soft Edge Profile

High-Pressure Laminate or Wood Veneer

*Tip: Supports for freestanding and panel-mounted applications must be specified separately.*

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Long work surface spans require additional support.*  
▶ See understanding section for details, page 224

*Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, US2448S becomes US2448SWS for wood with square edge profile.)*

*Tip: Power and data access door and tray is ordered separately to be used with cutout.*

▶ See page 228 for work surface size availability matrix.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                             |

# Parametric Straight Worksurfaces with Soft Edge Profile

High-Pressure Laminate or Wood Veneer

► Need help?  
Product details,  
page 223

## Standard Includes

- Worksurface: High-Pressure Laminate price group 1 or wood group 1 veneer
- Laminate worksurface:
  - Plastic antimicrobial soft edge profile centered on work-surface
  - Plastic 3 mm edge profile, P-edge profile or knife edge profile on front edge
  - Plastic default flat profile on side and back edges
- Wood worksurface:
  - Plastic antimicrobial soft edge centered on worksurface
  - Wood square edge profile on front edge
  - Matching veneer flat profile on side and back edges
- Depth: 18"D – 36"D
- Width: 18"W – 120"W

## Required to Specify

- 1 Style number
  - 2 Worksurface size type (see below under Required Selections)
  - 3 Depth (see below under Required Selections)
  - 4 Width (see below under Required Selections)
  - 5 User edge profile (see below)
  - 6 High-Pressure Laminate or wood color number for worksurface
  - 7 Plastic color number for front edge on laminate worksurface, if selected
  - 8 Options, if selected (see below)
- See *Surface Materials*, page 724

Tip: Long worksurface spans require additional support.  
► See understanding section for details, page 225.

## ▶ Specification Information, on next page

Tip: When selecting with cord drop, subtract 1/2" from depth.

Tip: Scallop is available in the center location only. If cutout for power and data access door and tray or power access door is selected, scallop will default to omit scallop.

Tip: Power and data access door and tray is ordered separately to be used with cutout.

▶ Page 584

▶ See page 228 for worksurface size availability matrix.

Tip: Cutout for power and data access door and tray is available in the center location only. Worksurface depth must be greater than 24".

Tip: Power access door option is only available on straight worksurfaces with 1/2" cord drop.

Tip: Power access door option includes the power access door and a cutout for the door in the worksurface.

Tip: If cutout for power and data access door and tray or power access door is selected, grommet will default to no grommet.

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

► Specifying, continued on next page

Tip: Dimension A = depth and dimension B = width.

Tip: Side and back edges of worksurface default to a flat profile.

Tip: Worksurfaces greater than 30"D can only be used in freestanding applications.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

# 120° Straight Worksurfaces

High-Pressure Laminate or Wood Veneer

*Tip: Supports for freestanding and panel-mounted applications must be specified separately.*

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Long work surface spans require additional support.*  
► See understanding section for details, page 224

*Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, USE2448LH becomes USE2448LHSW for wood with square edge profile.)*

*Tip: Power and data access door and tray is ordered separately to be used with cutout.*

► See page 584  
► See page 228 for work surface size availability matrix.

*Tip: When facing the user edge, the side the diagonal is on is the handed side.*

*Tip: Power access door option includes the power access door and a cutout for the door in the work surface.*

**For Canadian Pricing**

#### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Transition Worksurfaces

High-Pressure Laminate or Wood Veneer

Tip: Illustration above shows a left-hand worksurface.

Tip: Supports for freestanding and panel-mounted applications must be specified separately.

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

Tip: Long worksurface spans require additional support.  
► See understanding section for details, page 224

Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UT2136L becomes UT2136LSW for wood with square edge profile.)

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

# Tapered Worksurfaces

## High-Pressure Laminate

Tip: Supports for freestanding and panel-mounted applications must be specified separately.

Tip: Long worksurface spans require additional support.  
▶ See understanding section for details, page 223

Tip: Power and data access door and tray is ordered separately to be used with cutout.  
▶ See page 584

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

Exception: Power and data access door and tray only fits on tapered worksurfaces that are 24" to 30" and 30" to 24" deep.

Tip: To specify 3 mm edge profile, no suffix is required.

| Standard Includes                         |                                                                                                                                                                                                                                                                                                                                                                    | Required to Specify                                                                                                                                                                                                                                                                                                                  |

# Tapered Worksurfaces with Soft Edge Profile

## High-Pressure Laminate

Tapered Worksurfaces with  
Soft Edge Profile

*Tip: Supports for freestanding and panel-mounted applications must be specified separately.*

*Tip: Long worksurface spans require additional support.*  
▶ See understanding section for details, page 223

**For laminate price group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Power and data access door and tray is ordered separately to be used with cutout.*  
▶ See page 584

# Taper-Flat Worksurfaces

## High-Pressure Laminate

Tip: Supports for freestanding and panel-mounted applications must be specified separately.

Tip: Long worksurface spans require additional support.  
▶ See understanding section for details, page 223

For laminate price group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: To specify 3 mm edge profile, no suffix is required.

| Standard Includes                                                                                                                                                                                                                                                                                                                                                                               | Required to Specify                                                                                                                                                                                                                                                                                 |

# Single-Tapered Worksurfaces

## High-Pressure Laminate

Single-Tapered  
Worksurfaces

*Tip: Supports for freestanding and panel-mounted applications must be specified separately.*

*Tip: Long worksurface spans require additional support.*

► See understanding section for details, page 223

**For laminate price group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: To specify 3 mm edge profile, no suffix is required.*

# Corner, Flat-Front Worksurfaces

High-Pressure Laminate

*Tip: Supports must be specified separately, including side support brackets for rear corner support in panel-mounted applications.*

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: To specify 3 mm edge profile, no suffix is required.*

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

▶ See page 1 for details.

# Dual Corner, Flat-Front Worksurfaces

## High-Pressure Laminate

Dual Corner, Flat-Front  
Worksurfaces

Tip: Supports must be specified separately, including side support brackets for rear corner support in panel-mounted applications.

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Keyboard surface adjusts 6" higher or 5" lower than worksurface height.

Tip: Dual corner, flat-front worksurfaces must be panel hung.

Tip: 23½"D dual corner, flat-front worksurfaces must be supported with a center support on each side.

Tip: 29½"D dual corner, flat-front worksurfaces can be supported with a cantilever or center support.

Tip: To specify 3 mm edge profile, no suffix is required.

### Standard Includes

► Need help?  
Product details,  
page 222

- Worksurface: High-Pressure Laminate price group 1
- Laminate worksurface:
  - Plastic 3 mm edge profile on front edge of keyboard surface
  - Plastic default flat profile on all other edges
- Cable scallops on back edges
- Keyboard mechanism

### Required to Specify

- 1 Style number
  - 2 High-Pressure Laminate color number for worksurface
  - 3 Plastic color number for edges on laminate worksurface
  - 4 Options, if selected (see below)
- See *Surface Materials*, page 724.

**For Canadian Pricing**  
Multiply U.S. Price by the  
Canadian price factor.  
► See page 1 for details.

**For laminate price group 2 and 3 pricing,**  
*please refer to the electronic catalog or SmartTools.*

*Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UC114242 becomes UC114242P for laminate with P-edge profile.)*

### Required to Specify

# Extended Corner, Straight-Front Worksurfaces

High-Pressure Laminate

*Tip: Illustration above shows a left-hand worksurface.*

*Tip: Supports must be specified separately, including side support brackets for rear corner support in panel-mounted applications.*

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Long worksurface spans require additional support.*

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Tip: To specify 3 mm edge profile, no suffix is required.  
For all other edge profiles, add a suffix to the style number. (For example, UE2202L becomes UE2202LP for laminate with P-edge profile.)

# Extended Corner, Curved-Front Worksurfaces

High-Pressure Laminate or Wood Veneer

Left-Hand

Right-Hand

*Tip: Supports must be specified separately, including side support brackets for rear corner support in panel-mounted applications.*

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Long worksurface spans require additional support.*  
► See understanding section for details, page 224

*Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UEC2202L becomes UEC2202LP for laminate with P-edge profile.)*

► Need help?  
Product details,  
page 222

## Standard Includes

- Worksurface: High-Pressure Laminate price group 1 or wood group 1 veneer
- Laminate worksurface:
  - Plastic 3 mm edge profile or plastic P-edge profile on front edge
  - Plastic default flat profile on side and back edges
- Wood worksurface:
  - Wood 3 mm edge profile on front edge
  - Matching veneer flat profile on side and back edges
- Cable scallops on back edges

## Required to Specify

- 1 Style number with appropriate edge profile suffix  
**P** Laminate with plastic P-edge  
**SW** Wood with square edge  
 ► See edge profiles below.
- 2 High-Pressure Laminate or wood color number for worksurface
- 3 Plastic color number for front edge on laminate worksurface, if selected
- 4 Options, if selected (see below)  
 ► See *Surface Materials*, page 724.

# Corner, 120° Worksurfaces

High-Pressure Laminate or Wood Veneer

Tip: Supports must be specified separately, including side support brackets for rear corner support in panel-mounted applications.

For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UB223636 becomes UB223636SW for wood with square edge profile.)

## Standard Includes

► Need help? Product details, page 222

- Worksurface: High-Pressure Laminate price group 1 or wood group 1 veneer
- Laminate worksurface:
  - Plastic 3 mm edge profile or plastic P-edge profile on front edge
  - Plastic default flat profile on side and back edges
- Wood worksurface:
  - Wood 3 mm edge profile on front edge
  - Matching veneer flat profile on side and back edges
- Cable scallops on back edges

## Required to Specify

- 1 Style number with appropriate edge profile suffix
  - P** Laminate with plastic P-edge
  - SW** Wood with square edge
 ► See edge profiles below.
- 2 High-Pressure Laminate or wood color number for worksurface
- 3 Plastic color number for front edge on laminate worksurface, if selected
- 4 Options, if selected (see below)
  - See *Surface Materials*, page 724.

# Bullet Peninsula Worksurfaces

High-Pressure Laminate or Wood Veneer

Tip: Supports for freestanding and panel-mounted applications must be specified separately.

Tip: Long work surface spans require additional support.  
► See understanding section for details, page 223

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Bullet peninsula work surfaces are recommended for use with other curved-front shapes such as corner, curved-front work surfaces.  
► Page 563

Tip: The same bullet peninsula work surfaces can be used with either work surfaces with 1/2" cord drop or with full depth work surfaces.

Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UPBC3060 becomes UPBC3060SW for wood with square edge profile.)

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

# Angled Peninsula Worksurfaces

## High-Pressure Laminate

Angled Peninsula  
Worksurfaces

Tip: Supports for freestanding and panel-mounted applications must be specified separately.

**For laminate price group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

Tip: To specify 3 mm edge profile, no suffix is required.

| Standard Includes                                                                                                                                                                                                                                                                                                                                              |                                                                                      | Required to Specify                                                                                                                                                                                                          |

# Linking Peninsula Worksurfaces

High-Pressure Laminate or Wood Veneer

Tip: Supports for freestanding and panel-mounted applications must be specified separately.

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Linking peninsula worksurfaces are recommended for use with other curved-front shapes such as corner, curved-front worksurfaces.

## Specification Information

Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UPAC2748 becomes UPAC2748SW for wood with square edge profile.)

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Jetty Worksurfaces

High-Pressure Laminate or Wood Veneer

*Tip: Supports for freestanding and panel-mounted applications must be specified separately.*

*Tip: Long worksurface spans require additional support.*

► See understanding section for details, page 222

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Jetty worksurfaces are recommended for use with other curved-front shapes such as corner, curved-front worksurfaces.*

► Page 563

*Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UJC3268L becomes UJC3268LSW for wood with square edge profile.)*

► Need help? Product details, page 222

## Standard Includes

- Worksurface: High-Pressure Laminate price group 1 or wood group 1 veneer
- Laminate worksurface:
  - Plastic 3 mm edge profile or plastic P-edge profile on front edge
  - Plastic default flat profile on side and back edges
- Wood worksurface:
  - Wood 3 mm edge profile on front edge
  - Matching veneer flat profile on side and back edges
- Cable scallop on back edge

## Required to Specify

- 1 Style number with appropriate edge profile suffix
  - P** Laminate with plastic P-edge
  - SW** Wood with square edge
- See edge profiles below.
- 2 High-Pressure Laminate or wood color number for worksurface
- 3 Plastic color number for front edge on laminate worksurface, if selected
- 4 Options, if selected (see below)
- See *Surface Materials*, page 724.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Tip: To specify 3 mm edge profile, no suffix is required. For all other edge profiles, add a suffix to the style number. (For example, UTR1636A becomes UTR1636ASW for wood with square edge profile.)

Tip: Actual width of Answer transaction worksurface using thin trim is 2" shorter than the nominal planning dimension to accommodate change of panel height applications.

Tip: Actual width of Answer transaction worksurface, using square and oval trim, is 7" shorter than the nominal planning dimension to accommodate change of panel height applications.

#### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

# Tapered and D-Shaped Shared Worksurfaces

Panel-Supported

Tip: Illustrations above shows cabby legs. Column supports are also available. Supports are not included in the base price of the worksurface.

Tip: Worksurface support bracket connects to 30"W Answer panel only.

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

## For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

▶ See page 1 for details.

*Tip: To specify 3 mm edge profile, no suffix is required. For wood square edge profile, add suffix to the style number. (For example, WT423048 becomes WT423048SW for wood square edge profile.)*

*Tip: Illustrations above shows cabby legs. Column supports are also available. Supports are not included in the base price of the worksurface.*

### For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

► Need help?  
Product details,  
page 228

### Required to Specify

- Door: paint
- Door bezel: 6694 Slate **✖310/22**
- Inner tray with six simplex receptacles: 7237 Slate
- Outer tray with end caps: 7237 Slate and 6694 Slate **✖310/22**
- Grommet (modular and hardware only): plastic
- Two cord clips or harness clips

- 1 Style number
- 2 Paint color for door
- 3 Plastic color for grommet
- 4 Options, if selected (see below)
- ▶ See *Surface Materials*, page 724.

 **For Canadian Pricing**  
Multiply U.S. Price by the  
Canadian price factor.  
▶ See page 1 for details.

# Panel-Mounted Universal Systems Worksurface Supports

For Use with Answer Panels

## Cantilevers

*Tip: Answer panel junctions can accommodate only one cantilever at a seam.*

*Tip: Cantilevered straight worksurfaces greater than 26"D and 30"D transition worksurfaces require additional floor support along the front edge, such as a pedestal, end panel, post leg, side support bracket, or an adjacent return worksurface.*

| Standard Includes                                                                                                                                                         | Required to Specify                                                                                                                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"> <li>▶ Need help? ### Specification Information

| Style Number | U.S. Price |
|--------------|------------|
|              |            |
|              |            |

### On-Module Cantilever

|       |       |
|-------|-------|
| UCANT | \$149 |
|       |       |
|       |       |

## Side Support Brackets

*Tip: Side support bracket includes a pair of handed brackets, only one of which is required for rear corner support of panel-mounted corner worksurfaces. Specify one for every two corner worksurfaces in on-module applications. Order an additional supply for off-module fin wall applications.*

| Standard Includes                                                                                                                                                                         | Required to Specify                                            |

# Legs and Columns for Universal Systems Worksurfaces

Without Alignment Tab

## Post Legs and Double Post Legs

*Tip: Height dimensions listed are nominal and include the thickness of a worksurface.*

*Tip: Standing height legs can be used as column support in panel-mounted applications only.*

*Tip: Corner worksurfaces require a leg in the back corner. Be sure to order fifth leg if specifying a package of four.*

| Standard Includes                                                                                                                                                                                            | Required to Specify                                                                                                                                  |

## Legs and Columns for Universal Systems Worksurfaces without Alignment Tab, continued

## Adjustable-Height Legs

Tip: Corner worksurfaces require a leg in the back corner. Be sure to order fifth leg if specifying a package of four.

Tip: See Table and Leg Combinations page for number of legs required per worksurface.

► Page 287

Tip: Height dimensions listed include the thickness of a worksurface.

# Universal Boundary Screens

Laminate and Veneer

► Need help?  
Product details,  
page 252

## Standard Includes

- Screen: High-Pressure Laminate price group 1 or wood group 1 veneer
- Edge on laminate screen, if selected: plastic
- Height: 15"H–54"H
- Height installed: 30"H–54"H
- Width: 24"W–72"W
- Attachment brackets: paint price group 1

## Required to Specify

- 1 Style number
  - 2 Screen size type (see below under Required Selections)
  - 3 Height installed (see below under Required Selections)
  - 4 Screen clearance (see below under Required Selections)
  - 5 Width
  - 6 High-Pressure Laminate or wood veneer color number for screen
  - 7 Plastic color number for edge on laminate screen, if selected
  - 8 Grain direction
  - 9 Paint color number for brackets
  - 10 Options, if selected (see below)
- See *Surface Materials*, page 724.

*Tip: Height installed, in combination with screen clearance and width, determines the size screen you need for your application.*

*Tip: Screen clearance is measured from the bottom of the boundary screen to the bottom of the leg which the screen is attached.*

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Full-fill finish codes can be used to simplify specification of veneer boundary screens being used in settings with full-fill veneer products. The screen will not have the final fill coat applied, but the finish color will be consistent with the full-fill products.*

*Tip: Wood grain laminate is only available on surfaces less than 60"W. No restrictions for veneer.*

# Universal Privacy/Modesty Screens

*Tip: Universal privacy/modesty screens can be attached to 3/4"–1 1/2" thick worksurface, including height adjustable work-surfaces, universal work-surfaces, and Elective Elements work-surfaces.*

*Tip: The screens weigh between 9.79 lb and 11.89 lb. Take this into consideration when planning for use on height-adjustable work-surfaces.*

*Tip: The universal privacy/modesty screen is intended for use on the back of a worksurface.*

*Tip: Fabric is applied horizontally on the screen.*

*Tip: Screen allows for 1 1/8" cord drop or no cord drop. See understanding pages for product specific application guidelines.*

| Standard Includes                                                                                                                                                                     | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

# Sarto Privacy/Modesty Screens

*Tip: Sarto privacy/modesty screens can be attached to 3/4"-1 1/2" thick worksurface, including Ology, Migration, Elective Elements, universal tables, and universal panel-mount worksurfaces.*

*Tip: The screens weigh between 3.51 and 11.64 lb. Take this into consideration when planning for use on height-adjustable worksurfaces. See understanding pages to calculate screen weight.*

*Tip: Worksurface type option adds a fourth worksurface bracket and repositions brackets to avoid worksurface scallops.*

*Tip: Side screen option changes brackets to smaller L-brackets, mounting the screen mount flush to the side of the worksurface. Side screen option is only available on screens 36"W and narrower.*

| Standard Includes                            |                                                                                                              | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|                     | <ul style="list-style-type: none"><li>Side screen</li></ul>                   |                                         |                                   | No cost            | Specify <i>with side screen</i> .                                 |

Tip: Fabric is applied horizontally on the screen.

Tip: Screen allows for 1½" cord drop or no cord drop when mounted to the rear of a worksurface. See understanding pages for product specific application guidelines.

## Required to Specify

- 1 Style number
  - 2 Size option (see below under Required Selections)
  - 3 Width (see below under Required Selections)
  - 4 Height (see below under Required Selections)
  - 5 Screen type (see below under Required Selections)
  - 6 Fabric color number for screen
  - 7 Options, if selected (see below)
- See *Surface Materials*, page T24.

# Worksurface Screens, continued

## Divisio Side Screen

*Tip: The Divisio side screen can be used on any 3/4"- to 1 1/2"-thick worksurface.*

*Tip: The Divisio side screen has an overhang of 8". This is important when planning for returns or storage.*

*Tip: The Divisio side screen weighs approximately 14 1/2 pounds. Take this into consideration when planning for use on height-adjustable worksurfaces.*

*Tip: The Divisio side screen is intended for use on the front of a worksurface.*

*Tip: The Divisio side screen does not work on knife edge profiles.*

**Note: Divisio side screen** is included here to simplify your planning. It may have different pricing terms than other products in this specification guide.

| Standard Includes                                                                                                                                                            | Required to Specify                                                                                                                                       |

**For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ▶ See page 1 for details.

Tip: To specify 3 mm edge profile, no suffix is required.  
For other edge profiles, add suffix to the style number.  
(For example, BFS2430 becomes BFS2430SW for wood square edge profile.)

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

Tip: To specify 3 mm edge profile, no suffix is required.  
For other edge profiles, add suffix to the style number.  
(For example, BZC302460 becomes BZC302460SW for wood square edge profile.)

# Corner, 120° Tables

High-Pressure Laminate or Wood Veneer

► Need help?  
Product details,  
page 280

## Standard Includes

- Tables: High-Pressure Laminate price group 1 or wood group 1 veneer
- Laminate tables: plastic 3 mm edge profile or P-edge profile on all sides
- Wood tables: wood square 3 mm edge profile on all sides

## Required to Specify

- 1 Style number with appropriate edge profile suffix  
**P** Laminate with plastic P-edge  
**SW** Wood with square edge  
► See edge profiles below.
- 2 High-Pressure Laminate or wood color number for table
- 3 Plastic color number for edge on laminate table, if selected
- 4 Options, if selected (see below)  
► See *Surface Materials*, page 724.

**For wood and laminate group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Leg Combinations, ► Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, **BFB223636** becomes **BFB223636SW** for wood square edge profile.)*

*Tip: Screens can be used on corner, 120° tables.*

- 24"W screens can be used on tables with dimensions C and D each equal to 43".
- 24"W and 30"W screens can be used on tables with dimensions C and D each equal to 49".

*Tip: Corner, 120° tables with dimensions C and D each equal to 37" cannot accommodate screens.*

# Capsule Tables

High-Pressure Laminate or Wood Veneer

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Select the reinforcing channel option if the table will be supported by legs. Channels are not required if the table will be supported by T- or X-bases.*

*Tip: Bases and legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Base Combinations, ▶ Page 286 Table and Leg Combinations, ▶ Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, **BFK3672** becomes **BFK3672SW** for wood square edge profile.)*

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
▶ See page 1 for details.

| Standard Includes                                                                                                                                                                                                                                                                                                             | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

# Spanner Tables

High-Pressure Laminate or Wood Veneer

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Leg Combinations, Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, **BFSP48** becomes **BFSP48SW** for wood square edge profile.*

| Standard Includes                                                                                                                                                                                                                                                                                                    | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                         |

# Peninsula Table

High-Pressure Laminate or Wood Veneer

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Leg Combinations, ▶ Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, **BFP2736** becomes **BFP2736SW** for wood square edge profile.)*

## Standard Includes

▶ Need help?  
Product details,  
page 280

- Tables: High-Pressure Laminate price group 1 or wood group 1 veneer
- Laminate table: plastic 3 mm edge profile or P-edge profile on all sides
- Wood table: wood square 3 mm edge profile on all sides

## Required to Specify

- 1 Style number with appropriate edge profile suffix  
**P** Laminate with plastic P-edge  
**SW** Wood with square edge  
▶ See edge profiles below.
- 2 High-Pressure Laminate or wood color number for table
- 3 Plastic color number for edge on laminate table, if selected
- 4 Options, if selected (see below)  
▶ See *Surface Materials*, page 724.

# Tapered Peninsula Tables

High-Pressure Laminate or Wood Veneer

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Leg Combinations, ▶ Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, **BFTP48** becomes **BFTP48SW** for wood square edge profile.)*

| Standard Includes                                                                                                                                                                                                                                                                                                      | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Bases and legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Base Combinations, ▶ Page 286 Table and Leg Combinations, ▶ Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, BFR36 becomes BFR36SW for wood square edge profile.)*

# Square Tables

High-Pressure Laminate or Wood Veneer

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Bases and legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Base Combinations, ▶ Page 286 Table and Leg Combinations, ▶ Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, BFRQ30 becomes BFRQ30SW for wood square edge profile.)*

| Standard Includes                                                                                                                                                                                                                                                                                                      | Required to Specify                                                                                                                                                                                                                                                                                                                 |

 **For Canadian Pricing**  
 Multiply U.S. Price by the Canadian price factor.  
 ▶ See page 1 for details.

# Rectangle Tables

High-Pressure Laminate or Wood Veneer

**For wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Select the reinforcing channel option if the table will be supported by legs. Channels are not required if the table will be supported by T- or X-bases.*

*Tip: Bases and legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Base Combinations, ▶ Page 286 Table and Leg Combinations, ▶ Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required. For other edge profiles, add suffix to the style number. (For example, BFRR3672 becomes BFRR3672SW for wood square edge profile.)*

| Standard Includes                                                                                                                                                                                                                                                                                                      | Required to Specify                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

# Oval Tables

## High-Pressure Laminate

**For laminate price group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

*Tip: Bases and legs to support Universal Tables must be specified separately.*

*Tip: For leg and support guidelines, see Table and Base Combinations, ▶ Page 286 Table and Leg Combinations, ▶ Page 287*

*Tip: To specify 3 mm edge profile, no suffix is required.*

### Standard Includes

- ▶ Need help? Product details, page 280
- Tables: High-Pressure Laminate price group 1
- Laminate table: plastic 3 mm edge profile on all sides

### Required to Specify

- 1 Style number
  - 2 High-Pressure Laminate color number for table
  - 3 Plastic color number for edge on laminate table
  - 4 Options, if selected (see below)
- ▶ See *Surface Materials*, page 724.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

► See Counterweight Requirements for Storage Products, pages 301–308.

## Specification Information

| Dimensions |       | W | H | Counterweight Package | Style Number | U.S. Base Prices  |                   |                 |                  |
|------------|-------|---|---|-----------------------|--------------|-------------------|-------------------|-----------------|------------------|
| D          | Front |   |   |                       |              | Flush Steel Front | Proud Steel Front | Proud Lam Front | Proud Wood Front |
|            |       |   |   |                       |              | Suffix F          | Suffix P          | Suffix L        | Suffix W         |

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RPF1827A becomes RPF1827AP for proud steel front).

Tip: Use 27"H pedestals to align with Universal Storage with 3" base. 27"H pedestals support workspaces at 28½"H.

Tip: Only 22½"D, 23½"D, 28½"D, and 29½"D pedestals can accommodate legal-size filing.

Tip: 25½"H fixed pedestals are for use in the following two applications: as fixed pedestals when used underneath workspaces installed at lower than standard heights (for example, 27"H) or as freestanding pedestals when used with a conversion kit under height-adjustable workspaces.

# Universal Fixed to Freestanding Pedestal Conversion Kits

Universal Fixed to  
Freestanding Pedestal  
Conversion Kits

Tip: Flush and proud front pedestals require different conversion kits. Be sure to order the correct style number for your application.

Tip: When converting a file/file pedestal with individual drawer locks, an interlocking bar is required to provide stability to unit. Order 1043922SR through Service Parts.

## Standard Includes

- ▶ Need help?  
Product details,  
page 315
- 1/8"H steel top: all paint price groups
- Counterweight package
- Installation hardware

## Required to Specify

- 1 Style number
- 2 Paint color number for top
- ▶ See *Surface Materials*, page 724.

Tip: If used with a Universal mobile pedestal manufactured before 12/20/2011, you will need to order service part 1072962001SR for attachment hardware.

# Universal Sliding Door Bins with Steel, Laminate, or Wood Front

For Use with Answer

► Need help?  
Product details,  
page 318

## Standard Includes

- Overhead bin: paint price group 1
- Sliding door: paint price group 1, laminate price group 1, or wood group 1
- Recess beneath unit to accommodate shelf light
- Shelf backstop
- On-module attachment brackets with safety catch: black paint only
- Vertical off-module attachment brackets, if selected: black paint only
- Lock, keyed random: 9201 Polished Chrome

## Required to Specify

- 1 Style number
  - 2 Paint color number for overhead bin
  - 3 Paint, laminate, or wood color number for door
  - 4 Options, if selected (see below)
- See *Surface Materials*, page 724.

**For wood group 2, wood group 3, laminate price group 2, and laminate price group 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: Upmount brackets include steel back to enclose storage bin.*

Tip: Upmount brackets include steel back to enclose storage bin.

Tip: When ordering the omit insert option, remember that custom material cannot be factory installed. Custom material must be ordered from a material vendor.

Tip: A door assist mechanism cannot be used with an acrylic door insert.

Tip: Overhead storage bins and shelves with a "TAK" suffix can be used with Privacy Wall as well.

Tip: Upmount brackets include steel back to enclose storage bin.

Tip: When ordering the omit insert option, remember that custom material cannot be factory installed. Custom material must be ordered from a material vendor.

Tip: A door assist mechanism cannot be used with an acrylic door insert.

Tip: Overhead storage bins and shelves with a "TAK" suffix can be used with Privacy Wall as well.  
► See Architectural Solutions Specification Guide for attachment information.

# Universal One-High, 1.5-High, and Two Drawer Lateral Files

with Flush Steel, Proud Steel, Proud Laminate, Proud Wood, or Open Fronts

Tip: Service part Y30291SR, (paintable black plug), can be ordered to cover the glide adjustment holes in the front of the lateral file.

Tip: Power infeed sits proud of the panel approximately 3" and will interfere with Universal storage with the Universal 3" base, FrameOne foot base, or c:scape glide.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

► See Counterweight Requirements for Storage Products, pages 301–308.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: A tether bracket is now available to attach universal units to the c:scape beam.  
► Page 678

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RLF18301\_\_ becomes RLF18301F for flush steel front).

Universal One-High, 1.5-High, and Two Drawer Lateral Files with Flush Steel, Proud Steel, Proud Laminate, Proud Wood, or Open Fronts, continued

► Specification Information, continued from previous page

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RLF18301 becomes RLF18301F for flush steel front).

Tip: For open-open units, the shelf is affixed with screws. The screws can be removed to adjust the clips/shelf to a different height.

# Cushion Tops

For Universal One-High and 1.5-High Lateral Files

Tip: Seam pattern is determined by upholstery selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style of the lateral (for example, RPDC1830\_\_ becomes RPDC1830F for cushion top for flush steel front).

# Basic Cushions Enhanced

For Universal Lateral Files

*Tip: Basic cushion enhanced is field-installed and supplies to attach are included.*

*Tip: Basic cushion enhanced is constructed with a thin solid base.*

*Tip: Basic cushion enhanced is available on Universal laterals with a top only.*

## Standard Includes

► Need help?  
Product details,  
page 334

- Enhanced cushion top: fabric price group 1
- Attachment supplies: hook and loop fastener

## Required to Specify

- 1 Style number
  - 2 Fabric color number for cushion top
  - 3 Options, if selected (see below)
- See *Surface Materials*, page 724.

## ► Specification Information, on next page

**For laminate and wood group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: If wood veneer top option is selected, wood veneer top color will default to match wood front.*

*Tip: Glass shelves are not available on 18"D towers.*

*Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.*

► See *Counterweight Requirements for Storage Products*, pages 301–308.

*Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.*

*Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RQS24244LA\_ becomes RQS24244LAF for flush steel front).*

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

# Universal Dual Door Towers

with Flush Steel, Proud Steel, Proud Laminate, or Proud Wood Fronts

► Need help?  
Product details,  
page 338

## Standard Includes

- Tower: paint price group 1
- 1"H top: paint to match tower
- Door and drawer fronts on units with proud laminate fronts: laminate price group 1
- Door and drawer fronts on units with proud wood fronts: wood group 1 veneer
- Lock, keyed random: 9201 Polished Chrome
- Base (see below under Required Selections)
- Pulls: metal
- Integral pulls on units with flush steel fronts
- Drawer body: black only
- Adjustable shelves on 52"H and 65½"H: paint to match tower
- Brackets for adjustable shelves: black
- Post to support adjustable shelf: paint to match tower
- One box drawer divider and one pencil tray: black only
- Coat rod: black
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

## Required to Specify

- 1 Style number with appropriate front style suffix in the space provided  
**F** Flush steel front  
**P** Proud steel front  
**L** Proud laminate front  
**W** Proud wood front
- 2 Paint color number for tower
- 3 Laminate color number for door and drawer fronts, if proud laminate front selected
- 4 Wood color number for door and drawer fronts, if proud wood front selected
- 5 Base (see below under Required Selections)
- 6 Pull (see below under Required Selections)
- 7 Metal color number for pulls, if proud steel, proud laminate, or proud wood front selected
- 8 Options, if selected (see below)  
► See *Surface Materials*, page 724.

## ► Specification Information, on next page

**For laminate and wood group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

*Tip: If wood veneer top option is selected, wood veneer top color will default to match wood front.*

*Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.*

*Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.*  
► See *Counterweight Requirements for Storage Products*, pages 301–308.

*Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RDD182448LA\_ becomes RDD182448LAF for flush steel front).*

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.  
► See Counterweight Requirements for Storage Products, pages 301–308.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RFF24244LR\_ becomes RFF24244LRF for flush steel front).

## ► Specification Information, continued from previous page

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RFF24244LR becomes RFF24244LRF for flush steel front).

## ► Specification Information, on next page

Tip: If wood veneer top option is selected, wood veneer top color will default to match wood front.

**For laminate and wood group 2 and 3 pricing,** please refer to the electronic catalog or SmartTools.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

► See *Counterweight Requirements for Storage Products*, pages 301–308.

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Universal Vertical Drawer Towers with Flush Steel, Proud Steel, Proud Laminate, or Proud Wood Fronts, continued

► Options, on previous page

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RVD24244LA becomes RVD24244LAF for flush steel front).

# Universal Workstation Verticals

with Flush Steel, Proud Steel, Proud Laminate, or Proud Wood Fronts

► Need help?  
Product details,  
page 338

## Standard Includes

- Vertical: paint price group 1
- 1"H top: paint to match tower
- Door and drawer fronts on units with proud laminate fronts, if selected: laminate price group 1
- Door and drawer fronts on units with proud wood fronts, if selected: wood group 1 veneer
- Integral pulls on units with flush steel fronts
- Pulls: metal
- Lift-up door with fixed shelf on 65½"H units with flush steel fronts: paint to match tower
- Lift-up door with fixed shelf on 65½"H units with proud laminate fronts: laminate price group 1
- Lift-up door with fixed shelf on 65½"H units with proud wood fronts: wood veneer
- Central lock, keyed random: 9201 Polished Chrome
- Drawer body: black only
- Drawer suspensions: black only
- One pencil tray in units with 6"H box drawers: black only
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

## Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
    - F** Flush steel front
    - P** Proud steel front
    - L** Proud laminate front
    - W** Proud wood front
  - 2 Paint color number for tower
  - 3 Laminate color number for drawer fronts, if proud laminate front selected
  - 4 Wood color number for drawer fronts, if proud wood front selected
  - 5 Pull (see below under required selections)
  - 6 Metal color number for pulls, if proud steel, proud laminate, or proud wood front selected
  - 7 Options, if selected (see below)
- See *Surface Materials*, page 724.

► Options, continued on next page

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

## ► Options, continued from previous page

Tip: If wood veneer top option is selected, wood veneer top color will default to match wood front.

**For laminate and wood group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.**

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. See specification information for the appropriate counterweight package. ► See Counterweight Requirements for Storage Products, pages 301–308.

Tip: Individual locking drawer option is not available on verticals with 6"H drawers.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RWV2415A\_\_ becomes RWV2415AF for flush steel front).

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

## ► Specification Information, continued on next page

Universal Workstation Verticals with Flush Steel, Proud Steel, Proud Laminate, or Proud Wood Fronts, continued

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RWV2415A\_\_ becomes RWV2415AF for flush steel front).

# Surface Materials

**This listing** includes all the surface material choices that are available for the products in this specification guide.

## Resources

For more information about surface materials, refer to the following resources:

**Additional surface materials specification tools** are available to assist you in the specification process—the Surface Materials Binders.

**The global surface materials palette** is a core collection of finishes that is available across multiple geographies (Americas/ EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see [steelcase.com/surface-materials](http://steelcase.com/surface-materials) under the Select Surface section.

## Surface Materials Binders

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

## Paint

*Tip: All products may not be available in all colors listed below.*

- See page 732 for an overview of the paint colors available on each component.

## Steelcase Surfaces

### Price Group 1

**Smooth Paint**  
4242 Milk

### Textured Paint

7207 Black  
7225 Sand  
7236 Fog **E**  
7237 Slate **E**  
7238 Fieldstone  
7239 Midnight  
7241 Arctic White  
7243 Seagull  
7250 Sterling Dark Solid  
7278 Dark Bronze  
7360 Merle

### Price Group 2

#### Smooth Metallic Paint

4728 Nickel Metallic  
4743 Mineral Metallic  
4744 Pearl Metallic  
4750 Champagne Metallic  
4752 Steel Metallic **E**  
4788 Gold Dust Metallic **E**  
4798 Sterling Metallic  
4799 Platinum Metallic  
4803 Near Black Metallic

#### Smooth Paint

0835 Black  
4604 Driftwood **E**  
4700 Warm White **E**

#### Textured Metallic Paint

7245 Carbon Metallic  
7246 Midnight Metallic

Applies to:  
• 2 1/2" round grommet

### Price Group 1

**Smooth Paint**  
7241 Arctic White  
7278 Dark Bronze

### Textured Paint

7360 Merle

### Price Group 2

**Smooth Paint**  
0835 Black

#### Smooth Metallic Paint

4799 Platinum Metallic

## Price Group 3

### Accent paint

Accent paints allow you to choose from a pre-matched color palette of trend driven colors. Refer to the *Surface Materials Reference Manual* for more information.

### Coatings

1ATT Cast Shadow

### Lux Coatings

4B20 Obsidian  
4B22 Matte Brass  
4B23 Burnished Bronze  
4B24 Night Bronze  
4B25 Matte Copper  
4B26 Smoked Mica  
4B27 Blue Steel  
4B28 Silver Lilac  
4B29 Cast Iron  
4B30 Bright Gold

*Tip: Lux Coatings is not offered on Answer panels with a square or an oval trim.*

## Custom Surfaces

### Price Group 3

#### PerfectMatch

PerfectMatch is a service that allows you to create your own paint color. Refer to the *Surface Materials Reference Manual* for more information about this program.

## Laminate

## Steelcase Surfaces

Applies to:  
• Duo storage boxes

## Solid Laminate

2722 Cream **E**  
2730 Arctic White  
2746 Black  
2811 Mist **E**  
2883 Seagull  
2884 Milk  
2885 Dune

Applies to:

- Answer laminate skins
- Universal worksurfaces and tables—High-Pressure Laminate
- Universal storage tops
- Infills for FrameOne legs

## High-Pressure Laminate

### Price Group 1

#### Fiber Laminate

2850 Vanadium Fiber  
2852 Tungsten Fiber  
2854 Vellum Fiber **E**  
2860 Granite Fiber  
2862 Stucco Fiber **E**

#### Micro Laminate

2920 Marl Micro  
2921 Gypsum Micro  
2922 Clay Micro

#### Patina Laminate

2870 Blonde Bronze Patina  
2873 Instant Iron Patina

#### Solid Laminate

2722 Cream **E**  
2730 Arctic White  
2746 Black  
2811 Mist **E**  
2883 Seagull  
2884 Milk  
2885 Dune  
2HAA Persian Salt  
2HAB Rose  
2HAC Indigo  
2HAD Green Citrine  
2HAE Dark Olivine  
2HAF Cloudy  
2HMG Merle

#### Speckle Laminate

2820 Coffee Speckle **E**  
2823 Driftwood Speckle  
2824 Smoke Speckle  
2825 Vanadium Speckle

*Tip: Some wood veneer finishes and woodgrain laminates share the same name. Because of the difference in materials, veneers and laminates of the same name are not an exact match but do coordinate with each other.*

## Woodgrain Laminate

2406 Clear Cherry **E**  
2409 Clear Maple  
2410 Graphite Walnut  
2412 Natural Cherry  
2422 Medium Cherry  
2511 Winter on Maple  
2535 Virginia Walnut  
2536 Blackwood  
2538 Clear Walnut  
2592 Blonde on Maple **E**  
2612 Marbled Maple **E\***  
2614 Chocolate Walnut **E\***  
2615 Marbled Cherry **E\***  
2714 Natural Walnut **E**  
2HAK Clear Oak  
2HAN Ash Noce  
2HAT Acacia  
2HAW Ash Wenge  
2HBN Bisque Noce  
2HBW Bisque Wenge  
2HCN Clay Noce  
2HCW Clay Wenge  
2HSN Storm Noce  
2HSW Storm Wenge  
2HWA Grey Kingswood  
2HWB Planked Walnut  
2HWD Resolute Walnut  
2HWE Natural Recon  
2HWF Smoked Walnut

*Tip: Woodgrain laminates are not available as a matched set. The grain patterns will not align. These are not recommended for fully segmented skin applications.*

*Tip: 2535 Virginia Walnut, 2536 Blackwood, 2612 Marbled Maple, 2614 Chocolate Walnut, and 2615 Marbled Cherry are not available on doors or bullnose laminate storage tops.*

*\* 2612 Marbled Maple, 2614 Chocolate Walnut, and 2615 Marbled Cherry have limited availability, determined by product sizing and/or options.*

**E** = Established

| 24H1 | Satin White |
| 24H2 | Satin Black |
| 24H3 | Satin Stone |
| 24H4 | Satin Mocha |

**Custom Surfaces****Open Line Laminate (OLL)**

This service allows you to order non-standard laminate at an additional processing fee of \$94 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate on Universal worksurfaces and Universal Storage tops, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

**Laminate Approval and Material Requirements**

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit [www.steelcase.com](http://www.steelcase.com)

**For additional information,** refer to the *Steelcase Surface Materials Reference Manual*.

**Wood**

Applies to:

- Universal worksurfaces and tables—wood veneer
- Answer pedestal tops and fronts
- Universal storage tops and fronts
- Wood skins and trims
- Infills for FrameOne legs

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

**Steelcase Surfaces**

**Veneers** are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

*Tip: Answer panel wood trims are only available with quarter-cut finishes with the exception of maple finishes. Maple on wood trims is only available with flat-cut finishes. For ordering simplicity, both flat-cut and quarter-cut finishes can be specified on panel trims. However, for all finishes except maple, if a flat-cut finish is selected, the trims will have the coordinating quarter-cut finish. For maple finishes, if quarter-cut is selected, the trims will have the coordinating flat-cut finish. Blending panel trims with other wood products that have flat-cut finishes may be visually acceptable for most applications. If a more exact match is desired for non-maple finishes, please specify quarter-cut finishes for the entire project. If a more exact match is desired for maple finishes, please specify flat-cut finishes for the entire project.*

**Open-pore finish** is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

*Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.*

**E** = Established

## Full-Fill

**Full-fill finish** is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

- 3084 FC/FF Washed Walnut

## Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as part of our Select Surfaces program and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on [village.steelcase.com](http://village.steelcase.com) for sample information and product line availability. All premium veneers are in clear-coat.

## Wood Group 3

### Quarter-Cut Open-Pore

- 3832 QC/OP Figured Anegre

## Select Surfaces

### Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are available as part of our Select Surfaces program, with Wood Group 1 pricing.

Composite veneers are not available on Answer trims.

## Wood Group 1

### Flat-Cut Open-Pore

- 3JDX FC/OP Oak Composite
- 3JJX FC/OP Walnut Composite

### Quarter-Cut Open-Pore

- 3F8X QC/OP European Walnut Composite
- 3GGX QC/OP Zebrano Composite
- 3HGX QC/OP Oak Composite
- 3HVX QC/OP Walnut Composite
- 3ZNX QC/OP Night Cerused Oak Composite

## Custom Surfaces

**Customiz stain** is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesce standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

# Specification Guidelines for Directional Fabrics

**The standard application direction** of fabric on Answer panels, skins, and Hutch kit tackboard is warp horizontal. Standard Steelcase fabrics were designed for this application direction.

**The optional application direction** of fabrics on Answer panels, skins, and Hutch kit tackboard is warp vertical. This is most commonly used on COMs designed for warp vertical application.

**For more information about the warp direction of fabrics,** see the *Surface Materials Reference Manual*.

 Tip: Coatings and Lux Coatings is not offered on Answer panels with a square or an oval trim.

# Recommended Worksurface Edge Finishes

## Recommended Edge Colors—High-Pressure Laminate

### Edges

The recommended edge color will complement the laminate color you specify. Edge color is specified separately.

| Laminate Color    |                         | Recommended<br>3 mm or 1 mm<br>Edge Color |                       | Recommended<br>P-Edge Color |                       |
|-------------------|-------------------------|-------------------------------------------|-----------------------|-----------------------------|-----------------------|

# Wood Veneer Grain Directions

**The appearance of wood veneer** may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90-degree angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

# Lock and Keying for Universal Steel Storage Products

**All locking products** are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.  
*Exception: Individual locking drawers are only available with field-installed locks.*

**Locks** consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

**Two types of locks** are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

## Factory-Installed Keying

**Factory-installed locks** are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.*  
► See below.

### Key Random

### Required to Specify

|                          |       |                                 |
|--------------------------|-------|---------------------------------|
| <b>Master key random</b> | +\$33 | Specify with master key random. |
|--------------------------|-------|---------------------------------|

## Field-Installed Keying

**Field-installed locks** are only available on products that include factory-installed lock mechanisms.

**Specify "plug"** when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

**Front-removable lock cylinders** must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.  
*Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.*

**Lock cylinders** will be shipped separately so that you can install the locks when you are ready.

**Three keying choices** are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

**Key random** means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).  
*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.*

### Key Random

**Key specific** means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.  
*Tip: Designate the quantity per key number in your specification.*  
► See example at right.

### Key Specific

**Key consecutive** means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

### Key Consecutive

**Example** of a typical lock cylinder specification is shown below:

|    |                                |
|----|--------------------------------|
| 10 | LOCK9201FR FR320               |
| 5  | LOCK9201FR FR350               |
| 15 | LOCK9201XF XF1100              |
| 30 | Total                          |
| 1  | 877102003SR standard lock tool |
| 1  | 877102002SR master lock tool   |

## Field-Installed Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

| Standard Includes                                                                                                            |  | Required to Specify                                  |
|------------------------------------------------------------------------------------------------------------------------------|--|------------------------------------------------------|
| <ul style="list-style-type: none"> <li>Lock cylinder: 9201 Polished Chrome or 9250 Ember Chrome</li> <li>Two keys</li> </ul> |  | 1 Style number<br>2 Options, if selected (see below) |

| Options                       | U.S. Price | Required to Specify                                                                       |
|-------------------------------|------------|-------------------------------------------------------------------------------------------|
| <b>Key specific</b>           | No cost    | Select key number from FR305–FR454.                                                       |
| <b>Key consecutive</b>        | No cost    | Specify <i>key consecutive</i> and select beginning key number from FR305–FR454.          |
